July 7, 2020

To: Todd Slatin, Director
Division of Central Purchasing

From: Jon Parker, Executive Director
AVOL Kentucky, Inc.

Subject: ESR Funding Process, COVID-19 Responses

1. Is your proposal still viable for implementation as originally submitted?

   Yes

2. Please detail any modifications you will be making to the original submission in order to comply with the new service delivery requirements in the COVID-19 environment?

   We do not need to modify our original submission, modifications to our programming are as follows:

   Modifications to our testing procedures include practicing social distancing, requiring masks - use of personal protective equipment during testing, operating by appointments and curbside testing, temperature checks on individuals entering the building, referral to COVID-19 testing for those exhibiting symptoms, among other accommodations.

   We had closed during the Spring shutdown as we did not have PPE. Once we received PPE, we were able to re-open with the above stated modifications. During the first week of reopening, two individuals tested HIV positive.

   If there is another shutdown in the future for the community based on CDC and government recommendations, we believe we will remain fully functional with curbside testing and ample PPE in stock.

3. Will these new modifications increase or decrease your proposed budget?

   Our proposed budget remains the same. COVID-19 capacity was funded through a supplemental grant from HepConnect.

Thank you for your ongoing consideration.

Sincerely,

Jon Parker, Executive Director
AVOL Kentucky, Inc.
