**ATTACHMENT A
 SCOPE OF WORK AND BUDGET**

Scope of Work:

All federally-funded projects are set up in phases (design, ROW, utilities, construction). No work can begin on any phase of a project until the CABINET provides a written notice to proceed for that phase. Funding for this project will be programmed with FHWA as each phase is approved. Effective December 26, 2014, FHWA requires a project end date for each federal project phase programmed. As each phase of the project is programmed with FHWA, a supplemental agreement will be sent to the project sponsor to add the funding and adjust the project end date. Any expenditure incurred by the project sponsor after the end date will not be eligible for reimbursement. If the project sponsor requires an extension, they must notify the Administering Office thirty (30) days before the project end date.

The scope of work for this project includes PE, environmental, and design engineering for a new sidewalk, curb and gutter on the north side of the 200 block of Squires Road. This includes drainage and roadway milling and paving related to the curb and gutter.
