March 2017

To: Division of Traffic Engineering,

Cc: CM Henson

Cc: Jeff Neal

This letter is intended to express my support for the traffic plan/Reed Lane improvements presented by 11th District Council Member Peggy Henson. The surrounding community of Lafayette High School combines an Industrial Zoned Area (Formerly the GE Plant) with a sprawling residential community. These variables contribute to unsafe driving/walking conditions for our families accessing our school during our drop off and school dismissal times. The recommendations developed by your department are based on a quality needs analysis by traffic engineer, Roger Mulvaney, and is fully supported by the administrative team at Lafayette High School. As a Principal of our great school and a member of the Picadome Neighborhood, I appreciate all of our city's efforts in making our streets safer for our students and families.

Respectfully,

Bryne A Jacobs

Principal

Lafayette High School
