FROM:

Todd Slatin, Director
Division of Central Purchasing

DATE: May 8, 2019

SUBJECT: Bid # 27-2019 Storm Sewer Cleaning & Rehabilitation

Bids for Storm Sewer Cleaning & Rehabilitation for the Division of Water Quality were received in the Division of Central Purchasing on March 20, 2019.

Ionwave notified eight hundred and fifty-nine (859) vendors with twenty-three (23) vendors viewing the document. Two bids were received from Leak Eliminators, LLC and Arlington Construction, LLC. The bid from Arlington Construction, LLC was evaluated thoroughly and found to be non-responsible to the requirement in Section 5.8.3 of the General Conditions:

“Contractor Responsible for Acts of Subcontractors
The CONTRACTOR shall perform on the site, and with its own organization, work equivalent to at least fifty (50) percent of the total amount of Work to be performed under the Contract. This percentage may be reduced by a supplemental agreement to this Contract if, during performing the Work, the CONTRACTOR requests a reduction and the Urban County Engineer determines that the reduction would be to the advantage of the Urban County Government.”

The bid of Arlington Construction, LLC shows that they do not comply with this requirement, their subcontractors will be doing the majority of work. Therefore their bid must be rejected and I recommend awarding the contact to Leak Eliminators, LLC, and their bid complies with the specifications.

I recommend the bid from Leak Eliminators, LLC be accepted to establish a price contract.
