Laws and Regulations

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the

contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available workforce in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

Contractor acknowledges that the LFUCG is a governmental entity, and the contract validity is based upon the availability of public funding under the authority of its statutory mandate.

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

EQUAL OPPORTUNITY AGREEMENT

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

Bidders

I/We agree to comply with the Civil Rights Laws listed above that govern employment rights of minorities, women, Vietnam veterans, handicapped and aged persons.

Each fiscal year the Mayor and Urban County Council allocate funds for use by selected 501(c)(3) non-profit partner agencies through the Department of Social Services' Extended Social Resource (ESR) Program.

This grant cycle shall cover Fiscal Year 2020 (July 1, 2019—June 30, 2020), and will award grants between the four Funding Priorities, which each have separate required Proposal Submittals and criteria, and awarded on an approximate scale, listed below. Proposers may submit ONE Proposal per Funding Priority Area.

Funding Priority Area: Community Wellness & Safety

Proposal submissions containing significant omissions of required information will be considered non-responsive and removed from the RFP funding process on the application deadline date (April 19th, 2019). Significant missing responses to questions constitute an incomplete application. The final decision regarding application completeness and penalties will be determined by the LFUCG Division of Central Purchasing in consultation with the Commissioner of Social Services. **All proposals must be written in a clear and concise manner, as there will be no follow-up or clarifications to proposer's Proposal Submittal Form once the evaluation process begins.**

Do not include additional documents or attachments with the Proposal Submittal Form, such as brochures or letters of support. These will be discarded.

If your agency is submitting a proposal for the funding of more than one program in a single priority area, please note that they must be included in a single Proposal Submittal completed and submitted for that priority area RFP. Only one Proposal Submittal per agency per priority area RFP will be accepted.

Submitted Proposal shall be comprised of the attached PDF formatted Proposal Submittal form. This form must be submitted in the original PDF form, and NOT be a scanned version of the original form.

The LFUCG reserves the right to accept or reject any or all applications in whole or in part, with or without cause, to waive technicalities, to implement scoring penalties, or to accept applications or portions thereof which, in the Urban County Government's judgment, best serve the interests of Urban County Government.

Funding Priority Area: Community Wellness & Safety

Projected funding is 40% of total ESR Grant Program Award

LFUCG seeks to strengthen and enhance Community Wellness and Safety, by supporting programs and services addressing **Mental Health, Substance Misuse Disorder, and Violence Prevention**. LFUCG intends to award grants for priority-rated programs and services which originate with demonstrated client needs, establish clearly-defined outcomes, and are designed to best practices or evidence-based models. These programs may address one or more of the following areas, but shall not be limited to:

- **Substance Misuse Disorder**, which include prevention of alcohol and drug abuse; prevention and treatment of addictive and mental disorders through programs and services for individuals who suffer from these disorders; and harm reduction.
- **Mental Health**, which is defined as a state of well-being in which every individual realizes his or her own potential, can cope with the normal stresses of life, can work productively and fruitfully, and is able to make a contribution to her or his community. Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, relate to others, and make choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood.
- **Violence Prevention**, which include Child Abuse & Neglect Services, Sexual Violence Prevention, Elder Abuse Prevention, Suicide Prevention, Youth Violence Prevention & Intervention, including Gang & Gun Violence, and Intimate Partner Violence Prevention and Stalking.

The term “client” is used throughout this proposal; however we understand that within the context of your work “client” may not mean an individual. For some agencies it may be helpful to think of “client” as whole system (such as a school) or as a neighborhood, group, or community.

5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement 15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

5.1.2 Service Delivery Model 15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

5.1.3 Client Eligibility and Requirements 5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

5.1.4 Evidence-Based/Best Practice 10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are proposing is best-practice.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define "successful" completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying "we provided this many 'units of service.'" How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also be specific regarding sampling size and frequency of evaluation.

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community?

6.0 Program Budget Summary Form

Proposal Submittal shall be considered incomplete and shall be rejected without completed Budget Summary Form. (Including total amount of ESR grant request.)

EQUAL OPPORTUNITY AGREEMENT

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

I/We agree to comply with the Civil Rights Laws listed above that govern employment rights of minorities, women, Vietnam veterans, handicapped and aged persons.

5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

AVOL's HIV prevention and harm reduction program has been active in Kentucky for over 30 years. Fayette County ranks second among Kentucky counties most impacted by HIV/AIDS, with approximately 1,000 individuals living with HIV. One in seven infected individuals do not know their status (CDC, 2017). In Kentucky, people typically become aware of their status after advanced disease progression, underscoring the need for affordable, accessible prevention that identifies infection sooner and fights HIV/HCV stigma. Fayette County is vulnerable to an HIV outbreak related to injection drug use.

People who inject drugs (PWID) accounted for 10 percent of new HIV infections in Kentucky and another 5 percent of new infections were in men who have sex with men (MSM) and who also inject drugs (KDPH 2017). Kentucky leads the nation in Hepatitis C (HCV) infection rates (KDPH 2017). During 2018, AVOL's HCV testing identified 46 new infections, with a positivity rate above 30 percent. Given similarities in HIV and HCV transmission patterns, experts agree HCV infections are a predictor of potential new HIV infections in affected communities.

HIV disproportionately affects underserved populations. AVOL conducted 950 HIV screenings and 153 HCV tests in Fayette County during 2018. The following breakdown illustrates the need for continued harm reduction and prevention, including long-term, ongoing support for specific populations and behavior groups:

- 35.5% female, 1.69% transgender; 19.56% African American, 6% Hispanic; 18% injecting drugs, 11.97% share injecting equipment; 12.13% exchange sex for drugs or money; 7 individuals tested positive for HIV; 46 for HCV

5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each "unit of service" you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

As an ESR program for two years, AVOL has expanded harm reduction and prevention in Fayette County, providing outreach, counseling, supply distribution and HIV/HCV/STD screenings and longer-term follow-up and re-testing. Activities in this proposal are designed to empower 1,600 high-risk individuals to make informed, healthy decisions related to their health.

AVOL's prevention services are provided during evening walk-in hours three days each week at our Lexington offices, via outreach with our mobile testing unit, and at other times by appointment. Counseling takes about 30 minutes and includes risk assessment, harm reduction education and planning, supplies, and connection to medical treatment and other resources. Mobile outreach takes place 3 to 4 times each week in order to connect with individuals who might not otherwise seek AVOL's services. Outreach takes place in environments where high-risk activity occurs.

AVOL also provides prevention education and testing at the Fayette County Health Department's needle exchange program weekly.

Specialists provide group harm reduction education sessions 4-5 times a month for organizations serving at-risk youth, drug treatment, and drug court, among others. These sessions cover HIV/HCV/STD 101, transmission, and risk reduction. Clients are introduced to topics like PrEP (a daily HIV prevention pill), syringe exchange programs, and other resources.

All service delivery is designed to increase awareness and reduce the risk of HIV/HCV/STD transmissions.

5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

HIV, HCV, and STI testing is free and anyone interested in receiving counseling and testing may do so. There are no waiting lists and testing times are available by appointment or during walk-in testing hours designed to be most convenient to the populations served.

The basic eligibility requirement for the expanded HIV prevention program is to be a person whose current behaviors and actions are considered high-risk for contracting or transmitting HIV/AIDS or other STDs. Though HIV can affect anyone, it disproportionately impacts minority populations, including African Americans, Latinos, MSM, PWID, and low-income individuals and women. For this reason, outreach and engagement is targeted to those groups most impacted by the HIV epidemic, engaging them in education, harm reduction education, and testing. Using AVOL's mobile testing unit, Prevention Specialists will frequent areas of town, businesses and organizations where they are most likely to encounter these at-risk persons.

Individuals involved in the enhanced program must be willing to share contact information with the HIV Prevention Specialist to facilitate communication and follow-up. To be eligible to receive HIV screenings, individuals must verbally consent to the test and participate in an individual counseling session.

5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are doing is best-practice.

AVOL adheres to Centers for Disease Control (CDC) HIV testing protocols. CDC research shows that outreach, education, access to free prevention supplies, and HIV testing are the most effective methods for HIV prevention. Because it is easy to administer, HIV testing has become a primary intervention tool because knowledge is power. Test results allow a person to plan accordingly whether they are HIV-positive or HIV-negative.

The theories of practice presented in this application for the expanded HIV prevention program model can be found supported in "Towards an integrated primary and secondary HIV prevention continuum for the United States: a cyclical process model" found in the Journal of the International AIDS Society by Tim Horn (2016). Horn's work conveys:

- The need for HIV prevention services to be repeating, comprehensive, outcomes-oriented and fixated on the goal of reducing risk to vulnerable populations
- Focusing on HIV retesting as a metric to gauge the effectiveness of HIV intervention and an opportunity to streamline successful linkage, engagement and viral load suppression through the HIV care continuum

With the assistance of funding from LFUCG ESR, AVOL has begun implementation of HIV re-testing protocols, which differs from a one-time transaction between AVOL and the client. Over the course of the past two years, our program has moved 34% toward confidential and repeated testing. There will be cyclical engagement for those who are testing negative but who are at high-risk. Their engagement will include ongoing follow-up, resource referrals, problem solving, and re-testing on regular intervals.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

AVOL aims to keep the HIV positive person maintaining low levels of virus in the body, which will prevent them from passing it to another person, and to keep the high-risk negative person negative.

HIV counseling and testing is successfully finished if the client completes a comprehensive risk assessment interview, takes the HIV test, participates in risk assessment counseling, receives their test results, and articulates a plan of prevention and receives needed prevention supplies. For example, if a client discloses to prevention staff that they inject drugs, they would work together to decide upon a realistic harm reduction approach (e.g. utilizing a syringe exchange, referral to a drug treatment facility).

For the high-risk, HIV negative individual, the process is successfully completed by attending regular check-ins and re-testing every six months. For the HIV positive individual, success requires following through with scheduled medical appointments, attending the AVOL service intake meeting, meeting with a LFCHD administrator who will assist in notifying sexual and drug use partners, and compliance with medical appointments and taking medications.

AVOL proposes testing 1,600 high-risk individuals per year. Our goal is that 1,584 will remain negative, and that all 16 individuals likely to test positive for HIV achieve or maintain reduced viral loads through support services, active engagement in medical care and adherence to their medications. 672 high-risk negative clients will receive long-term follow-up and retesting with the goal of maintaining their negative status. Many of these individuals will also begin taking PrEP to prevent HIV infection.

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

Poverty and health disparities go hand-in-hand. HIV/AIDS is no exception. Providing respectful, evidence-based sexual health education allows individuals to make healthy, informed decisions about their bodies and relationships, which results in increased self-esteem and personal empowerment. By helping low-income people access free information and safer sex supplies, AVOL helps reduce barriers to engagement in healthy behaviors.

By providing HIV, HCV and STD screenings, AVOL helps individuals know their health status and take necessary steps to access appropriate care. Through early diagnosis and timely treatment, individuals are less likely to suffer health crises that can lead to hospitalization and large bills for indigent care. People who are aware of their HIV status and who are receiving proper treatment are essentially unable to transmit the virus to others. Through empowerment education about personal choices and sexual health, AVOL helps reduce fear, ignorance, and misinformation about accessing health care in general. Individuals who engage in routine preventive health care visits and screening often avoid larger medical costs that arise during a health crisis.

People living with HIV who receive proper care and are stably housed enjoy an advantage in terms of education and employment as well as accessing other supportive services. Eligible low-income clients of the program who receive an HIV diagnosis are seamlessly connected to AVOL's housing and supportive services program. Prevention Specialists are able to refer clients with additional needs to necessary resources, including drug treatment, domestic abuse shelters and mental health counseling.

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying "we provided this many 'units of service.'" How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

Using both quantitative and qualitative data, evaluation activities will ensure that all project goals, objectives and outcomes are achieved in a satisfactory manner. Any project evaluation and/or management-related data that are collected, maintained or disseminated by the project will be handled in a manner that will protect the confidential information of participants.

All program data is reported to the CDC in a system called EvalWeb. EvalWeb is a dynamic database and reporting tool that will provide necessary data for reporting to track progress. Data and reports will be filed with LFUCG ESR on a quarterly basis and discussed at monitoring and evaluation meetings. Outcomes tracking outlined in section 5.2.1 will be tracked and reported in an ongoing manner. Conclusions drawn from evaluation activities will be reviewed by staff and AVOL board, and will be considered when planning future initiatives. In addition to service improvement, evaluation efforts also tend to uncover unmet needs. This information will be evaluated from a strategic planning perspective for long-term program development. AVOL will share information and consult our constituents, including clients, donors and volunteers to solicit additional feedback, insight, and creative ideas.

Several HIV-related planning and strategy groups exist at both the state and federal level and are always interested in a local perspective and learning. AVOL will share information and insights upward to the Kentucky HIV/AIDS Planning and Advisory Council, Dining Out for Life International, and the U.S. Housing and Urban Development's (HUD) Housing for Persons Living with HIV/AIDS planning group.

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

Matthew Brewer (BA) joined AVOL as Prevention Manager in 2015. Matt has provided support to individuals experiencing substance abuse issues, including those living with HIV, for a number of years. He founded a support group called Hope Positive for individuals living with HIV. He manages AVOL's HIV prevention activities and has directly contributed to a more effective and targeted team. He is a state-certified Harm Reduction Navigator and helps train community members on effective ways to reduce risk. Aaron Ashby-Boyd joined AVOL as a Prevention Specialist in 2017, coming to us from the Hope Center, where he maintained the role of Peer Mentor followed by Donation Assistant. Aaron has been helping guide people into treatment and sobriety for more than 5 years and has contributed to building an effective outreach team. Robert Stull has been with AVOL since 2018. Previously with AIDS Services of Austin, where he worked as an HIV Prevention Specialist. Since joining AVOL, he has worked to increase our outreach capacity within the LGBTQ+ community in Lexington. He has several years of experience working with HIV positive men to develop healthy decision-making and relationship building.

Staff employed through the ESR program will be entitled to the same training opportunities available to prevention staff funded through the Kentucky Department of Public Health. The Kentucky training system is called KY.TRAIN, and includes a number of modules useful to the HIV prevention staff. This comprehensive resource is very adequate to keep any HIV prevention professional up to date.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

AVOL collaborates with many community partners to reach high-risk individuals. AVOL fights HIV stigma and supports other stigma-fighting organizations and gatherings. These organizations include Lexington Fairness, Kentucky Fairness, PFLAG, UK Office of LGBTQ Resources, LGBTQ Consortium, Bluegrass Black Pride, TransKY, JustFund Kentucky, Pride Community Services Organization, various Black Lives Matter gatherings, etc.

AVOL maintains a close working relationship with UK's Bluegrass Care Clinic (BCC), which provides medical case management, medical services, and pharmacy services. AVOL and BCC form a continuum of care: AVOL refers clients with confirmatory HIV diagnosis to BCC, and BCC refers eligible clients back to AVOL for assistance with housing/supportive services and for prevention case management. AVOL collaborates with the LFCHD frequently to ensure the best possible outcomes for those who are high-risk. AVOL refers those newly diagnosed with HIV to the LFCHD. AVOL also provides HIV and HCV testing at the LFCHD's syringe exchange program every Wednesday. AVOL collaborates with various organizations to identify high-risk target audiences for HIV education and testing, including: Chrysalis House, Dismas House, Family Care Center, Community Inn, Coleman House, Arbor Youth, Pride Community Services Center, Fayette County Drug Court, BHG Suboxone Clinic, Hope Centers for Men and Women, Greenhouse 17, and area colleges and universities. AVOL's Board of Directors is entirely made up of volunteers, including individuals from high-risk populations. Volunteers play crucial roles at our events and education sessions. Some volunteers are also certified to provide HIV testing. AVOL's major funders include HUD and the CDC.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community?

AVOL's offices are located close to the center of Lexington's medical community and is handicap accessible. It is within .5 miles of the BCC, the primary area medical provider of most individuals living with HIV, a 10-minute walk to Lextran, and about 2 miles to Downtown. AVOL has in place extensive non-discrimination policies and is considered a human rights organization. AVOL has staff who are bilingual English/Spanish and utilize a telephone translation service for other languages. AVOL strives to be present at community and decision-making meetings, especially those associated with safe, affordable housing and public health. Most of AVOL's prevention outreach takes place in the community - not the office. We travel to locations where high-risk activities occur. For example, by utilizing our Mobile Testing Unit, we are able to maintain a regular, consistent presence in areas of town frequented by sex workers.

The LFCHD syringe exchange is a key HIV prevention activity and resource operating on limited resources. AVOL serves as a primary outreach component for syringe exchange and assists with on-site testing. The syringe exchange could benefit from more resources and focused outreach efforts driving individuals in need of clean needles to utilize the program.

Given the focus of this initiative being on marginalized or underrepresented populations, individuals who assume the roles funded by this initiative have extensive past connections with individuals using drugs as well as MSM. They will strengthen connection and outreach to focus populations.

6.0 Program Budget Summary Form Instructions

Proposal Submittal shall be considered incomplete and shall be rejected without completed Budget Summary Form. (Including total amount of ESR grant request.)

For organizations requesting funding for more than one program in this RFP, combine into a single Program Budget narrative for the proposal.

Please note that the Program Budget will be part of the grantee agreement with LFUCG and regular tracking and expenditure reporting will be required.

To ensure readability and uniformity, please use the Program Budget form included. Provide brief line-item detail as specified in each section below and verify all calculations.

This section provides a summary of the total proposed Program Budget for FY 2020. It requests the allocation of all projected funding amounts (City and non-City sources) for anticipated FY 2020 program expenditures.

Total Program Budget

Column A should reflect projected expenditures for the entire program (not just the proposed LFUCG ESR grant funding request portion). When the chart is completed this column should equal ESR Grant Funding Request plus other/non-ESR program funding. ($A=B+C$)

ESR Grant Funding Request

Column B is the grant amount being requested from this RFP to support this program's services to eligible Fayette County Participants.

Non-LFUCG Program Funding

Column C is the non-LFUCG ESR funding that is allocated to the Total Program Budget ($A-B = C$).

This form is for the budget for the PROGRAM applying for ESR funds, not the total agency budget.

For each category identify the amount requested and the amount to be leveraged through other programs or organizations (if applicable).

Staff Salaries – Identify the number of Full-time position salaries allocated to the program, and part-time positions allocated to the program, and the amounts of each allocated to Columns A, B, & C.

Consultant Services – In the "List Details" box, **briefly** describe any expenses associated with providing expanded supportive services or other services for which the organization intends to contract with another entity. Any of these expenses to be provided by the proposing organization should be included in other line items.

Space/Facilities – In the "List Details" box, **briefly** list the basis of the allocation of rental costs, utilities, janitorial costs, and any other facility costs for the Program. EQUAL OPPORTUNITY AGREEMENT

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.
