All federally-funded projects are set up in phases (design, ROW, utilities, construction). No work can begin on any phase of a project until the CABINET provides a written notice to proceed for that phase. Funding for this project will be programmed with FHWA as each phase is approved. Effective December 26, 2014, FHWA requires a project end date for each federal project phase programmed. As each phase of the project is programmed with FHWA a supplemental agreement will be sent to the project sponsor to add the funding and adjust the project end date. Any expenditure incurred by the project sponsor after the end date will not be eligible for reimbursement. If the project sponsor requires an extension, they must notify the Administering Office thirty (30) days before the project end date.
