EQUAL OPPORTUNITY AGREEMENT

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

TO ALL PROSPECTIVE SUBMITTERS:

Please be advised of the following clarifications to the above referenced Bid:

1. Bid opening date has been changed to June 1, 2016, 2:00 PM.
2. Pre-bid Sign-in attached.
3. **QUESTIONS & ANSWERS:**
 - a. Q: Please provide the weight of the building structure. A: 18,500 LBS
 - b. Q: Are there lift points on the building? If yes, please provide some details. A: Accommodating lifting points are located on top of the shelter.
 - c. Q: Please explain the extent of the scope of electrical conduit. A: The PVC conduit is to be installed in the reinforced concrete pad to allow underground electrical service to the structure. The conduit is to be located directly under the electrical panel in the structure (Contractor to field verify location) and is to terminate 42" below the existing ground line, three feet outside of the concrete foundation. It should be noted that the steel structure's orientation is to be rotated 180 degrees from its current orientation.
 - d. Q: Please confirm that there is no electrical work other than conduit. A: Confirmed. The connecting conduit and electrical connection is to be installed by OWNER.
 - e. Q: What are the backfill requirements of the conduit installed in pavement? A: Not in this contract.
 - f. Q: Is weekend work allowed? A: Yes, if coordinated with OWNER.
 - g. Q: Who's responsibility is the concrete testing? A: OWNER
 - h. Q: Sheet S3, Note #2 states, "Site grading and drainage by Others". Please explain. A: As the construction is located in a paved asphalt parking lot there is no site grading and drainage necessary. The Contractor will repair the asphalt immediately adjacent to the concrete foundation to prevent surface water from entering the subsurface.

- i. Q: Please confirm that embed plates and Hilti tie down bolts are provided by Others.
A: The plates and mounting hardware are in the Owner's possession and will be made available to the Contractor on site.
- j. Q: Do you anticipate that rock will have to be excavated for the turn down edges? A: No geotechnical exploration of the site has been made by the Owner. All excavation is considered "unclassified".
- k. Q: Sheet S3, Note #1 refers to consultation with geotechnical engineer. Two questions: Who pays for the engineer? Is the foundation plan subject to change? A: The Owner will inspect the excavation and confirm adherence to soil bearing requirements. Foundation design changes are not anticipated. However, adjustments to the design may be made by the Owner if unforeseen site conditions are revealed during excavation. If this change condition results in an increase in work, it will be addressed as a change order to this contract.
- l. Q: The Owner will supply the Tornado Shelter. Are columns, beams, and ventilation system part of the Tornado Shelter supplied by the Owner? A: The necessary appurtenances associated with the Shelter are provided by the Owner.
- m. Q: The Plans show Generator being part of the Contractor's responsibility. However, the Specification and the Bid Package does not mention anything about Generator being the Contractor's responsibility. A: No Generator is associated with this project.
- n. Q: The Specification mentions that the Contractor will have to construct ADA Ramp. Please provide details, dimensions, location, and quantity of it. A: One ramp conforming to ADA design standards is to be constructed at the north entrance to the Shelter. The ramp is to be constructed to reinforced concrete and ties with dowels to the concrete foundation of the Shelter as to prevent differential settlement. This ramp is to be four (4) feet wide, six (6) inches thick, and approximately five (5) feet long. No hand rail is anticipated to be required.
