MEMORANDUM

Members of the Council

FROM: *Beth K. Mills*
Beth Mills, Commissioner

DATE: October 17, 2011

SUBJECT: Amendment to Approved Purchase of Service Agreement ("PSA") – Chrysalis House

Chrysalis House has requested an amendment to the Addendum to the approved FY12 Partner Agency PSA. This amendment is necessitated by a the loss of Substance Abuse and Mental Health Services Administration (SAMHSA) grant funding in the amount of \$500,000, which represents about 20% of the agency's total budget. As a result, Chrysalis House is seeking other funding sources and making adjustments to existing programming.

Chrysalis House was provided with \$33,300 in Partner Agency funding for FY12, which has been used to provide treatment to high-risk adolescents. They request Council approval to use the remaining \$19,425 of these funds to help maintain their core programming – treating women with substance abuse and mental health disorders. A revised Addendum is attached for Council approval.

ADDENDUM
Service Agreement October, 2011
Lexington-Fayette Urban County Government and Chrysalis House

Specific use of funds:

The funds provided by LFUCG to Chrysalis House will be used to pay a majority of the salary of a Certified Alcohol and Drug Counselor specializing in the treatment of women's issues.

New admissions to Chrysalis will be met by their therapist who will lead her treatment team at the facility in which the new client will reside. All Chrysalis therapists maintain degrees and certification/licensure to provide therapeutic services or are supervised by experienced and qualified professionals while working toward certification. Thorough mental health and substance abuse assessment begins at this initial meeting and continues over the first 48 hours. Following this extensive diagnostic interview, review of medical records from previous treatment episodes, and psychological testing, mental health diagnoses are rendered if applicable. Clients will receive a minimum of weekly individual and group therapy to address mental health difficulties. Treatment for mental health disorders is fully integrated with substance abuse treatment and continues throughout residential treatment, usually 6-8 months. Within 7 days of admission, the therapist will also work with the client to develop an individualized treatment plan to address problems with substance dependence, mental disorders, and medical problems, and other difficulties. The treatment plan includes goals and objectives for resolving problems and a timeline of completion for each goal and objective. The treatment plan is reviewed monthly or as situations change.

It has been estimated that 37% of alcohol abusers and 53% of drug abusers also have at least one serious mental illness. Conversely, it has been estimated that 29% of all people diagnosed as mentally ill abuse either alcohol or drugs. At Chrysalis the incidence of co-occurring disorders is over 80% of the population served, therefore we offer the highest level of care.

Outcomes

Long Term:

- Clients receiving services will experience a reduction in relapse and recidivism.
- Clients will report improvement in physical and mental health.
- Pregnant clients will deliver healthy babies.

Short Term:

- Clients receive substance abuse and mental health services, meeting individually and in a group setting with a mental health professional.
- Pregnant clients receive pre- and post-natal care.
- Clients receive case management services, working toward improved wellness, employment, parenting, housing, and self-sufficiency.
- Clients receive frequent and random urine tests.

Dear Commissioner Mills,

Chrysalis House is a wonderful place for women and children to heal and grow. For the past seven years, Chrysalis House has received a \$500,000 grant each year from the Substance Abuse and Mental Health Services Administration (SAMHSA). This grant provided for services to our pregnant and post partum women...helping babies be born to clean and sober women. Unfortunately, Chrysalis House was not funded in this 3-year cycle. This grant was a substantial source of our funding and the cut represents about 20% of our total funding. The competition was much greater due to nationwide state budget cuts, and interestingly, over 30% of the awards were made to California programs. No Kentucky programs were funded or re-funded. This, along with other reductions in grant sources, combined with the loss of the Bureau of Justice Assistance grant means that Chrysalis House needs your help to continue working with a very vulnerable population.

Chrysalis House is the only program in the region that provides residential treatment services for pregnant and postpartum women, and the only agency in central Kentucky in which children may accompany mothers to treatment. We prioritize admission of pregnant women and served over 40 pregnant women last year. The need was there to serve more if we had the bed space and funding. The Chrysalis House Board and staff are aggressively seeking other sources of funding and reducing or adjusting programming. Over the years, Chrysalis House has brought millions of dollars in SAMHSA grants into this community to provide services for women and their children--and we will continue to apply to SAMHSA in the future.

Chrysalis House received \$33,300 from LFUCG this fiscal year to fund a full-time therapist to work with our adolescents. We request your approval to use the remaining \$19,425 of these funds, as of mid-November, for our core programming—treating women with substance abuse and mental health disorders. Chrysalis House will continue working with the adolescents in our program through the transition period, making referrals as necessary. Please see attached information. Thank you.

Sincerely,

Lisa Minton
Executive Director

ADDENDUM
Service Agreement July, 2011
Lexington-Fayette Urban County Government and Chrysalis House

Specific uses of funds:

The funds provided by LFUCG to Chrysalis House will be used to pay a majority of the salary of a psychotherapist specializing in the treatment of adolescent issues. This adolescent therapist will accept referrals into the program for adolescents who are at high risk for development of substance use, early sexual activity, and/or criminal activities.

The adolescent therapist will conduct a full assessment of each referred adolescent to include developmental delays, mental health status, current substance use, legal difficulties, academic problems, and family issues. Collaborative information will also be obtained from the participating parent(s) and, if applicable, their teachers. Following assessment, a comprehensive treatment plan will be completed with input from the adolescent his/her parent(s), and teachers.

The adolescent therapist will meet with the adolescent in individual sessions to address issues on the treatment plan. Referrals for any needed medications, psychiatric care, legal assistance, and tutoring will be made and follow-up will be monitored. The therapist will also act as an advocate when dealing with the local school system or with legal entities. Family sessions will be conducted when parental involvement is indicated. The adolescent therapist will also meet with the parent(s) alone when parenting skills are lacking.

In addition to the individual and family counseling, the adolescent therapist will host a weekly teen drop-in group. Each group will have two components: education and support. The educational components consist of presentations from three evidence-based curricula. The first curriculum, Life Skills, is designed to address substance use and peer pressure. The second curriculum, Promoting Alternative Thinking Strategies addresses adolescent social and emotional development. The final curriculum, Becoming a Responsible Teen, addresses sexual activity, pregnancy, and sexually transmitted diseases. The support component each week allows for open discussion of current issues which the adolescents face. Each discussion will be carefully supervised by the adolescent therapist.

Finally, the adolescent therapist will provide pro-social activities for the participating adolescents. Past activities have included trips to museums, historical sites, and to college campuses. It is expected that similar activities will take place in the coming fiscal year.
