SUBJECT: Purchase of 4 mobile vehicle lifts and accessories from ARI

The Division of Fire and Emergency Services request authorization to purchase a set of 4 mobile vehicle lifts and accessories for the Vehicle Maintenance Bureau from ARI Phoenix, Inc.

Why are you requesting? Mobile vehicle lifts will increase the efficiency, safety, and ergonomics of repairing fire apparatus. They can be utilized in any bay within the shop and allow lifting additional types of apparatus the current in ground lift will not accommodate.

Department needs this action completed because: The Fire Department Vehicle Maintenance Bureau needs an additional method to lift large, heavy fire apparatus for service and repair. The shop currently has only one fixed, in ground vehicle lift capable of hoisting our apparatus. The mobile lifts will allow for a second fire apparatus to be lifted without restricting the location in which it can be utilized. It will increase the efficiency of the garage by enabling quicker repairs and improving visualization of components during inspections versus working from the ground. These lifts will also reduce the strain on technicians as they are making repairs.
