

JUSTIFICATION FOR SOLE SOURCE CERTIFICATION

Sole Source Purchases are defined clearly, based upon a legitimate need, and are limited to a single supplier. Sole source purchases are normally not allowed except when based upon strong technological grounds such as operational compatibility with existing equipment and related parts or upon a clearly unique and/or cost effective feature requirement. The use of sole source purchases must be justified and shall be limited only to those specific instances in which compatibility or technical performance needs are being satisfied.

Sole Source Services are defined as a service provider providing technical expertise of such a unique nature that the service provider is clearly and justifiably the only practicable source available to provide the service. The justification shall be based on the uniqueness of the service, sole availability at the location required, or warranty or defect correction service obligations of the service provider.

This form must be filled out for the request to purchase any good or non-professional service that requires a competitive procurement process (informal quotes (\$1001-\$10,000), formal quotes (\$10,001 - \$19,999.99), or formal bid (\$20,000 or more) as defined in the LFUCG's Purchasing Manual. This form must be completed in its entirety and attached to the purchase requisition.

Note: Sole Source Purchase requests for goods exceeding \$20,000 will require approval by the Urban County Council by submitting an Administrative Review Form. A copy of this form must be signed off by Central Purchasing and attached to the Administrative Review Form.

Requesting Division

Name Robert Stack Division/Dept Division of Enhanced911

Phone 859-280-8200 Email rstack@lexington911.ky.gov

Type of Purchase: () Goods/Materials/Equipment (X) Services

Cost: \$23,598.40 in FY21 and \$34,667.60 in FY22.

Sole Source Request for the Purchase of:

SDWAN circuits for 911 telephone and internet.

One Time Purchase To Establish Sole Source Provider Contract
(subject to annual review and approval by Central Purchasing and/or Urban County Council)

Vendor Information

Business Name Windstream Communications

Contact Name John Flora

Address 151 N. Martin Luther King Blvd., Lexington KY 40507

Phone 859-357-6003

JUSTIFICATION FOR SOLE SOURCE CERTIFICATION

STATEMENT OF NEED: (Add additional pages as needed)

My division/department's recommendation for sole source is based upon an objective review of the product/service required and appears to be in the best interest of the LFUCG. I know of no conflict of interest on my part, and I have no personal involvement in any way with this request. No gratuities, favors, or compromising actions have taken place. Neither has my personal familiarity with particular brands, types of equipment, materials, persons or firms been a deciding influence on my request to sole source this purchase when there are other known suppliers to exist.

1. Describe the product or service and list the necessary features this product provides that are not available from any other option.

Windstream is Lexington's Incumbent Local Exchange Carrier (ILEC) and it is essential for E911 to be connected to the ILEC for the delivery of 911 calls from various Competitive Local Exchange Carriers (CLECs) and sellers of VoIP and internet based services. Presently, E911 has an agreement for two MPLS circuits that provide redundant circuit paths and internet, but wants to switch the type of service to four SDWAN circuits, thus providing more resiliencies and less risk of loss of telephone service to the primary and back-up 911 dispatch centers. The agreement includes a 90 day test period using SDWAN. If the test is not successful, an agreement allows E911 to switch back to MPLS circuits at the same price it currently pays.

2. Below are eligible reasons for sole source. Check one and describe.

Licensed or patented product or service. No other vendor provides this. Warranty or defect correction service obligations to the consultant. Describe why it is mandatory to use this licensed or patented product or service.

Existing LFUCG equipment, inventory, custom-built information system, custom-built data inventory system, or similar products or programs. Describe. If product is off-the-shelf, list efforts to find other vendors (i.e. web site search, contacting the manufacturer to see if other dealers are available to service this region, etc.)

Uniqueness of the service. Describe.

The LFUCG has established a standard for this manufacturer, supplier, or provider and there is only one vendor. Attach documentation from manufacturer to confirm that only one dealer provides the product.

Factory-authorized warranty service available only from this single dealer. Sole availability at the location required. Describe.

Used item with bargain price (describe what a new item would cost). Describe.

X Other – The above reasons are the most common and established causes for an eligible sole source. If you have a different reason, please describe:

Windstream is the ILEC primary provider of landline and fiber network connectivity in Fayette County in which other providers contract to provide this service indirectly. Windstream has established connections with competitive local exchange carriers (CLECs) and connects circuits to Lexington's Central Kentucky 911 Network.

JUSTIFICATION FOR SOLE SOURCE CERTIFICATION

3. Describe efforts to find other vendors or consultants (i.e. phone inquires, web site search, contacting the manufacturer to see if other dealers are available to service region, etc.).

Windstream is the only Incumbent Local Exchange Carrier for Lexington-Fayette County.

4. How was the price offered determined to be fair and reasonable?

(Explain what the basis was for comparison and include cost analyses as applicable.)

Pricing provided for this application is the price provided other 911 centers in the state that have Windstream as their ILEC.

5. Describe any cost savings realized or costs avoided by acquiring the goods/services from this supplier.

If the switch from MPLS Circuits to SDWAN is successful, the savings will be \$699 monthly.
