5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

The Cabinet for Health and Family Services reports that 13.3% of adults in Kentucky had diabetes in 2019 - nearly doubling since their last report in 2000. 11% have pre-diabetes. Centers for Disease Control and Prevention reports that 8.5% of Fayette County adults have diabetes. The American Association of Diabetes states that "depression and other mental health related conditions are more commonly found in people with diabetes. In the U.S. 17.9% of the population is affected by a mental illness; however, for people with diabetes this is often greater and can have a serious impact on diabetes management." The Foundation for a Healthy Kentucky reports that 10% of Fayette County adults (18-64) are uninsured. The high costs associated with mental health care and diabetes management causes clients to delay the care they need because of the financial burden that healthcare can be to individuals and families living on low and no incomes.

The Diabetes Project at Mission Health Lexington weaves together mental healthcare, primary medical care, dental care, vision care, prescription assistance, and diabetes case management into one program specifically targeting adult residents of Fayette County who are living without insurance and below federal poverty guidelines. Our clients face financial, transportation, and language obstacles when accessing healthcare because they are uninsured, living in poverty, and often times ineligible for government funded assistance. By having all components together in one facility, we further remove barriers for our clients. We serve our most vulnerable neighbors in need who are experiencing gaps in access to services, many of whom are homeless or are at risk of homelessness.

5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each "unit of service" you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

Mission Health Lexington has a volunteer psychiatrist who holds a monthly clinic providing therapy and medication management; medical providers who treat mental health issues like depression and anxiety in conjunction with other health conditions like diabetes; an on-site lab for comprehensive panels, and an on-site pharmacy for clients to fill prescriptions. Free comprehensive healthcare services, including free medication and therapy, for impoverished and uninsured populations is rare. The Diabetes Project provides services specific to diabetic clients to assist them in achieving goals without the financial burden or expenses associated with therapy, medication management, diabetes case management, labs, and office visits with providers. Activities include counseling, individual diabetes case management, medication management, prescription filling, and routine labs. Additionally, patients have access to dental and vision services. Mission Health Lexington allows healthcare to be accessible.

Units of service vary by client as each client's needs are specific to their treatment plan. Examples include:

- > monthly medication management session with a provider
- > one 30-minute general health exam with blood work done monthly, quarterly, semi-annually, or annually as determined by a medical professional
- > 30-60 minute session with Diabetes Project Nurse Practitioner and Diabetes Project Case Manager occurring weekly, bi-weekly, or monthly
- > monthly 10-minute medication management session with a provider

5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

Current eligibility requirements for services at Mission Health Lexington are as follows:

- > Client must be a resident of Fayette County, Kentucky
- > Client must be 18 years of age or older
- > Client must be living at, or below, 185% of federal poverty guidelines
- > Clients must be uninsured

Mission Health Lexington does not charge for services rendered.

Clients are expected to maintain appointments, or call if they are unable to make a scheduled appointment. If a client has three consecutive missed appointments where they did not call in advance to notify staff they are placed on a six-month probation period and are provided appropriate referrals to outside clinics if needed. After the six-month probation period is over clients are able to schedule appointments again. No other requirements remain for participation in services.

5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are doing is best-practice.

The Diabetes Project is based on the Chronic Care Model featuring the following six components: Delivery System Design, Self-Management Support, Clinical Information Systems, Decision Support, Community, and Health Systems.

We integrate the six components in the following way:

- 1) Our delivery system design is team-based client care with psychiatrists, physicians, pharmacists, and case managers all working together with the client to address their care plan comprehensively.
- 2) Our self-management support utilizes all of the team members to provide clients with the knowledge and strategies they need to confidently manage their care.
- 3) Our clinical information system is our electronic medical records program where all members of the care team document care and resources so everyone is able to stay aware of the client's progress and identify any potential gaps in the care plan.
- 4) Our decision support component is goal planning (like a client progress report) where we encourage clients to participate in their care plan through the different care components offered.
- 5) Our community component is our ability to refer patients to outside resources to fill any gaps in their care.
- 6) Our health systems component is the overall program goal of promoting effective care by utilizing a team-based approach.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

Below are examples of Diabetes Project client achievements and goal examples for each particular achievement:

1 - Achievement: Decrease depressive symptoms

Goal: Client will track depressive symptoms and report them to provider to monitor

2 - Achievement: Adopt self-care methods when depression and anxiety symptoms increase

Goal: Client utilizes personalized self-care methods to decrease symptoms

3 - Achievement: Attend scheduled appointments at Mission Health Lexington

Goal: Client attends scheduled appointments and if unable to attend will cancel in appropriate time frame

4 - Achievement: Full understanding and adherence to medications

Goal: Client takes medications as prescribed and works with providers to understand medications through training

5 - Achievement: Improved labs and vitals (A1C, cholesterol, blood pressure, weight)

Goal: Client attends appointments and implements lifestyle changes including exercise, food choices, medication adherence

Each client is unique, so our service philosophy is meeting the client where they are. Successful completion of services is subjective and unique to each client. There is no ending to services. As long as clients continue to qualify for services then they can continue as their healthcare provider sees necessary. Examples: completing appointments, picking up prescriptions, taking medication as prescribed, working on personal relationships, applying for jobs that include insurance benefits, completing medical exams. As of today, all clients in the Diabetes Project have completed at least one achievement, even if it is as simple as arriving as scheduled for appointments.

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

Access to mental health and medical services saves lives and opens doors for the under-served in our community. Improved mental health can enhance the productivity and economic viability of the clients served. Value is added to the community through increased independence, stability, and growth. Clients see improved relationships, changes in attitude and behavior, and the ability to cope and manage everyday stresses like diabetic care. Clients are be empowered and motivated leading to improved employment, education, and housing opportunities.

Last week we had a patient come in for an appointment with his primary care physician. He let us know that he had found a job as a postal worker and now has insurance benefits and wanted help transferring his medical records to a new doctor and prescriptions to a new pharmacy. In the short time that he has been delivering mail he has already lost 8lbs from the walking. He reported that he was feeling great and shared feelings of optimism and hope. When he was unemployed and barely able to pay rent he was able to access comprehensive care at Mission Health Lexington. He didn't have to worry about being able to afford his prescriptions or having to skip appointments because he couldn't afford the visits. By being able to save his resources for rent, utilities, and groceries he was able to stay housed while he looked for a new job. This is just one example of the meaningful difference Mission Health Lexington services make in the lives of those we serve.

We also have been able to hire multiple bilingual employees in the last year allowing us to have translation services available to all services are accessible to more of our neighbors in need providing a safe and welcoming environment to all who feel they have nowhere else to turn.

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying "we provided this many 'units of service.'" How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

Evaluating the effectiveness of our services varies with each unique client and their specific treatment plans. We utilize a variety of tools including the PHQ and GAD7, lab results, client satisfaction surveys, and overall goal achievement. Symptom checklists are completed regularly to evaluate the effectiveness of the treatment plan. Participants in the Diabetes Project have lab work completed every three months. Individualized report cards are utilized to evaluate overall goal achievement. These are updated at each case management session. The tools we use are directly in-line with the desired outcomes of our clients.

Examples:

- If a client and provider agree that a lowered A1C is critical and after their baseline labs they have lowered their A1C then that desired outcome has been met.
- If a client scores a 15 on their GAD7 at their first appointment, works with the psychiatrist to better control their anxiety, and then scores a 10 a few months later than the decreased symptoms indicate the desired outcome has been met.

Every client is expected to participate in the evaluation process that best suits their individual care plan. This information is vital as we continue to grow and improve the program and continue to tailor their care specific to their individual needs. Additionally, feedback will help us adjust and expand service offerings and continue to fill gaps in care identified in the different assessment tools.

Program results are reviewed every six months.

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

Mission Health Lexington's comprehensive programs and services support LFUCG's priority focus of Mental Health & Community Wellness and Safety by providing medical and pharmaceutical services to Fayette County residents living without insurance, below federal poverty guidelines, and who are experiencing mental health symptoms that are affecting their overall health and wellness, ability to work and make community contributions, and overall emotional, physical, and social stability. Services are provided free of charge by volunteer licensed healthcare professionals. Many members of our Board of Directors are healthcare professionals who are past or active volunteers in our clinics. Each clinic has a Volunteer Director who works directly with staff to ensure programs are executed effectively and efficiently having the greatest impact. When Mission Health Lexington is unable to provide a service we provide referrals to local service providers like Surgery on Sunday, University of Kentucky, and Kentucky Cancer Link for specific medical needs. For social services we provide referrals to Maxwell Street Presbyterian Church Emergency Assistance Program. For food pantry needs we refer to God's Pantry.

Funding support comes from a variety of sources. Funds available to support the general operations of this project (rent, utilities, etc.) come from individual donors, fundraising events, and major civic benefactors and sponsors: Toyota, Delta Dental of Kentucky Foundation, Calvary Baptist Church, Quantrell Auto Group, United Way of the Bluegrass, Baptist Health Lexington, The Copia Foundation, Good Samaritan Foundation, Good Shepherd Episcopal Church, Cathedral of Christ the King, Lexington Lion's Club Endowment, and Faith Lutheran Church.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?

Our work countermands the systematic inequities that individuals in our community face everyday. We provide health and healing to our neighbors in need by providing access to free healthcare. We work to remove the barriers our clients face accessing the lifesaving care they need and deserve. The work of our clinic is directly in-line with the Mayor's Commission on Racial Justice and Equality Health Disparities Sub-Committee Recommendations. We work to build trust with each and every client with a diverse team of healthcare providers who provide culturally competent care. Our clients are our biggest source of outreach. Many of our clients live in close-knit communities and in multi-generational homes. They share details of our clinics within their communities. We work with partners (social services, churches, etc.) who provide direct referrals, feature our services in resources at their facilities, etc.

Our services are available to Fayette County residents who are living without insurance and below federal poverty guidelines. We are located at 230 S. Martin Luther King Blvd, Lexington, KY 40508, a single-level wheelchair accessible facility that is 0.1 mile from the City of Lexington Transit Center. We utilize multi-language forms and have staff on-site to provide assistance for patients who are unable to read/write. We have interpreters to assist with Spanish translation needs and utilize a telephone based medical interpreter that has 225 languages available. Clinics are offered Monday through Thursday and Saturday with hours varying (daytime, evening, weekends) to provide optimal accessibility. We also have bus passes available for clients with transportation barriers.

Laws and Regulations

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the

contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available workforce in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

Contractor acknowledges that the LFUCG is a governmental entity, and the contract validity is based upon the availability of public funding under the authority of its statutory mandate.

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

EQUAL OPPORTUNITY AGREEMENT

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

Bidders

We agree to comply with the Civil Rights Laws listed above that govern employment rights of minorities, women, Vietnam veterans, handicapped and aged persons.

Funding Priority Area: Community Wellness & Safety

Projected funding is \$900,000 of ESR Grant Program – Community Based Initiatives

LFUCG seeks to strengthen and enhance Community Wellness and Safety, by supporting programs and services addressing **Mental Health, Substance Misuse Disorder, and Community Violence Prevention**. LFUCG intends to award grants for priority-rated programs and services which originate with demonstrated client needs, establish clearly-defined outcomes, and are designed to best practices or evidence-based models. These programs may address one or more of the following areas, but shall not be limited to:

- **Substance Misuse Disorder**, which include prevention of alcohol and drug abuse; prevention and treatment of addictive and mental disorders through programs and services for individuals who suffer from these disorders; and harm reduction.
- **Mental Health**, which is defined as a state of well-being in which every individual realizes his or her own potential, can cope with the normal stresses of life, can work productively and fruitfully, and is able to make a contribution to her or his community. Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, relate to others, and make choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood.
- **Community Violence Prevention**, which includes **Youth Violence Intervention**, including Gang & Gun Violence, Child Abuse & Neglect Services, Sexual Violence Prevention, Elder Abuse Prevention, Suicide Prevention and Intimate Partner Violence Prevention and Stalking.

The term “client” is used throughout this proposal; however we understand that within the context of your work “client” may not mean an individual. For some agencies it may be helpful to think of “client” as whole system (such as a school) or as a neighborhood, group, or community.

5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement 15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

5.1.2 Service Delivery Model 15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

5.1.3 Client Eligibility and Requirements 5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

5.1.4 Evidence-Based/Best Practice 10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are proposing is best-practice.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn’t have to be complicated, evaluation is more than saying “we provided this many ‘units of service.’” How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community’s comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor’s Commission on Racial Justice & Equality?
