IAPro 17th Annual Users Conference

Tuesday, November 15th through Thursday, November 17th, 2022

Anaheim Marriott Hotel • Anaheim, California

Join IAPro, EIPro and BlueTeam users in Anaheim, California, November 2022 for 3 days of learning and exploration of the premier Professional Standards solution. During this once-a-year gathering, attendees will learn new skills, network with users from across the USA and Canada, and discover best practices for advanced usage.

THE 2022 CONFERENCE WILL INCLUDE:

- Detailed review of new features in the latest IAPro NextGen release
- Includes BlueTeam, EIPro, MakeNote and other NextGen products
- Basic training classes for new users
- Advanced usage sessions
- Customer feedback forums
- Specialized IA investigations training
- Plus, invaluable opportunities to meet and network with fellow customers

For more information or to register, please contact us at conference@iapro.com or 1-800-620-8504 extension 730.

Supporting today's high expectation environment

Public safety today operates in an environment of high expectations as never before, with best practices and proactive approaches fast becoming the norm across organizations of all sizes.

LOOK TO IAPRO FOR THE PROTECTION YOU NEED.

In-use by over 950 public safety agencies in four countries, IAPro — along with companion products BlueTeam, EIPro and MakeNote — is the leading Professional Standards solution used by Public Safety, worldwide.

IAPRO IS FEATURE RICH, USER FRIENDLY AND BEST OF ALL, EVER ALERT.

IAPro is uniquely tailored to fit the requirements of your Professional Standards or Internal Affairs unit.

IAPro's comprehensive case management features assist in monitoring and reporting on complaints and other incidents that may indicate patterns of employee misconduct, behavioral or performance shortfalls. In-depth support for use of force, pursuit, and other critical incident reporting is also offered.

However, the single most important benefit of IAPro is its ability to alert in advance of issues that could, if left unchecked, put the community and the reputation of your agency at risk.

Finally, the IAPro solution is more than just software. It includes on-site training, with each IAPro training specialist bringing years of Professional Standards experience to the table. This is supplemented by comprehensive online user documentation including training videos, webinars, and a three-day annual users conference tailored to a variety of customer needs.

Complaints Management

IAPro NextGen's advanced visual interfaces provide state-of-the-art incident management. Cases nearing or past due are readily identified. Automatic reminders and notifications speed the progression of cases through established processes.

Early Intervention Support

Support for proactive EI is an essential part of the IAPro solution! Threshold-based alerts combine with real-time analytical interfaces to support identification of, and responses to, areas of concern.

## NextGen Ad-hoc Reports and Charts

The exciting new "web reports" allows users to create ad-hoc reports and charts with zero IT assistance required. Real-time data access filtering ensures that no unauthorized information access will occur.

Security and Access Controls

Users' access to information is fully controlled and audited. Multi-layered information filtering, feature access restrictions and "stovepipe" screening are included.

Automated Correspondence and Forms

Huge time savings can be realized using IAPro's correspondence templates. Templates are easily created by the customer — no high-priced specialists required!

The Next Generation of IAPro

- Built using the latest, most secure enterprise frameworks and technologies, IAPro NextGen joins companion products BlueTeam, EIPro and MakeNote on CI Technologies' next-generation software application platform.

- With its modernized, forward-compatible interface, long-time customers can transition to IAPro NextGen with minimal or no additional training necessary.

- IAPro NextGen is available to all current customers at no additional cost as part of our normal product upgrade services.

OUTSIDE THE BOX SERVICES

IAPro is ready to go, right out of the box. That means you can be up and running in just a few days. To meet any additional unique needs your agency may have, we will be pleased to quote on specialized services such as:

DATA MIGRATION
Don't leave years of valuable data behind! We take on the task of converting data collected on older systems to IAPro format, so you can move forward with confidence.

INTEGRATION
IAPro can be adapted to access your department's HR and other systems in order to eliminate duplicated upkeep of employee information as well as for enhanced early intervention support.

SPECIFICATIONS
Application server: Windows Server 2012 R2 and newer.

Browser: Modern browsers including: Edge Chromium, Chrome, Firefox, etc.

Database: MS SQLServer 2012 and newer.

IAPRO TIMELINE	2014	2016	2018	2019	2021
	▶ 10th Annual IAPro Users Conference in St. Petersburg Beach, Florida	▶ California customers pass 100 with the adoption by San Diego Police Department	▶ IAPro goes live at one of the largest police forces in the world — New South Wales Police, Australia	▶ Continued strong growth sees IAPro approach 850 customers ▶ The 15th Annual IAPro Users Conference in Nashville sees a record 650+ in attendance	▶ Roll-out of IAPro NextGen to all customer sites
