Description: This quotation includes equipment, and installation by Ceragon technicians to replace the obsolete inside microwave 1500R equipment with current-production IP20 equipment. No tower work is required as IP20 equipment is compatible with existing ODUs.

Installation includes install, turn up and test the equipment and link.

Equipment comes with one-year standard manufacturer's warranty.
24/7 Level 2 Technical Support included under current Maintenance Agreement.

Notes: Terms and Conditions are governed by the current Purchase Agreement and all change orders and amendments thereto.
