This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;

(2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

**Latex and water based paint, motor oil, motor oil filters and batteries (auto and boat) will be accepted at the event, at the discretion of LFUCG, but will need to be invoiced (or credited) separate from the other material, since the cost for disposal isn't covered by the Kentucky Department of Environmental Protection grant.

Please note, the vendor may not be responsible for handling all the latex and water based paint, some of it may be handled by a local non-profit recycler.

***Cylinders include the following categories: small, medium, large, propane, freons, helium, fire extinguishers.

Unacceptable Items

Dangerous items (explosives, ammunition, radioactive materials, etc.) will not be accepted per grant restrictions, with the exception of small caliber ammunition which will be managed by the LFUCG Department of Public Safety.

- appliances (microwave oven, toaster, air conditioner, hair dryer etc.)
- asbestos-containing material

- electronics (TV's, computer gear, etc).
- explosives/ammunition
- infectious waste
- medical waste
- pharmaceuticals
- radioactive materials
- smoke detectors
- tires
- white goods (dishwasher, clothes washer, dryer, etc.)

F. STATISTICS & QUANTITY ESTIMATES

Please see Tables 1, 2, 3, 4, 5 and 6 for information from the last Household Hazardous Waste Collection events held by the LFUCG in 2014, 2016, 2017, the spring and fall of 2018 and the spring of 2019. Approximately 1,200 – 1,600 vehicles were serviced at these past events. The quantities are presented below to aid vendors in pricing and preparing estimations for a Fall 2019 event. These quantities are not guaranteed for the event.

Respondents should note the LFUCG reserves the right to divert select wastes from the waste stream on the day of the event so that these can be optimally managed and to reduce costs to the LFUCG. For example, the LFUCG desires that some of the usable water-based (latex) paint be diverted out of the collection process at the event for reuse through our existing partnership with Habitat for Humanity ReStore to the extent practical.

Similarly, it may be advantageous for the LFUCG to contract directly with vendors (to include vendors that may not have responded to the RFP) that would pay for materials received during the HHW event that have an obvious marketable value (such as lead acid batteries). Respondents are encouraged to indicate how they would manage these types of materials and how much they will credit (pay) the LFUCG for these materials in Part III – Household Waste Collection Proposal Price sheet. The LFUCG reserves the right to utilize vendors other than the successful vendor for these marketable items should we determine it is advantageous to do so.

LFUCG is restricted from paying for disposal of certain materials using Kentucky Department of Environmental Protection grant funds. The LFUCG may want to accept

these materials but manage them in alternate ways if that proves acceptable to the state. Used oil is one example. The LFUCG may enter into a recycling arrangement with vendors to recycle used oil at no cost to the state.

LFUCG asks that the contractor be staffed and prepared for internal LFUCG Divisions to drop off materials on the Friday afternoon directly prior to the public event. Materials to be expected during this internal collection will be consumer products that had been abandoned at public properties, consumer materials separated out of solid waste collection and recycling processes, and expired or unused products from LFUCG operations. For this internal collection, LFUCG will be the generator as a Conditionally Exempt Small Quantity Generator (CESQG) for all materials. Contractor will collect, package, manifest and bill separately. Disposal will be at the same waste category rates as quoted for the public HHW event unless otherwise indicated by the vendor in the RFP response. Quantities will vary, and staff will prepare a list of anticipated items prior to the internal collection event. Manifests and invoices from the Spring 2019 event are attached.

Household Hazardous Waste Collection Events Proposal

Part I: Vendor Qualifications

Please describe vendor qualifications, including examples of relevant work performed in the recent past. Include the name and phone number of a contact person for each example provided. Attach to this sheet proof of all necessary state and federal licenses and permits needed for the transportation and disposal of wastes; copies of any notices of violations, administrative orders, or other enforcement actions taken by regulatory agencies within the last five years against the primary vendor, parent company, or probable sources of waste disposal; and copies of any letters of recommendation, awards or other recognition received in the last five years.

Household Hazardous Waste Collection Events Proposal

Part II: Site Set-up

The event(s) will take place at the LFUCG old landfill pad, located at 1631 Old Frankfort Pike, Lexington, KY. Cars will enter the site through Jimmie Campbell Drive and exit on Old Frankfort Pike.

Please provide examples of set-up diagrams for events conducted by your company, especially those with a high volume of traffic that include four lanes. Diagrams should include the following areas: Vehicle Unloading, Material Identification and Separation, Material Bulking, Non-Regulated Waste Disposal, and Truck Loading. Please include plans for handling overflow of traffic and materials, including plans to add more lanes for unloading and plans to bring in materials from outside to accommodate excess wastes. Please attach a description of spill and fire prevention plans, an emergency response plan, and a detailed outline of any volunteer training program provided by the vendor. The protocols for testing for unknown substances and packaging/transporting lithium batteries should also be attached.

Please note that the site of the event is a landfill cap with an asphalt pad cover. Tents cannot be staked and grounding rods cannot be used on the asphalt. Grounding rods can be driven off the pad. The pad and surrounding area will need to be maintained to be in the same condition that existed prior to the event.

Household Hazardous Waste Collection Events Proposal

Part III: Pricing

The Total Disposal Cost (Part III- Household Hazardous Waste Collection Proposal Price Sheet) should be calculated by using the quantities listed below. The amounts listed below are estimates for price comparison only and are not guaranteed. Note: the quantities are specified in **pounds**, the preferred pricing method, unless otherwise stated. Respondents should also specify in their pricing the amount to be remitted/credited to the LFUCG (if any) for any items that have marketable value such as lead acid batteries.

The estimated amounts on the Pricing Sheet are to be used by LFUCG to compare proposals. The actual characterization of the material collected at the event will likely be different. See Tables 1 – 6 for previous collection totals.

The pricing will go into effect and be used for any future events planned by the LFUCG while the agreement with the selected vendor is in place.
