Subj: Reclamation at Andover

The Andover Board of Directors have approved the grant and reclamation costs for the permanent easement and construction easement to access the work to be done on hole number 16, Andover Trunk Sewer, at Andover Golf & Country Club.

We are authorizing the easement in exchange for the estimated \$57,261.05 and are doing so with the understanding that we will receive those sums upon signing said easement.

Thank You

Ken Hill  
President  
Andover Golf & Country Club
