Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded

contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;
- (3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and
- (4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

- (1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.
- (2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

- (1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification

shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

**Request for Proposals
2017 Lexington Corridors Beautification Design Services**

Scope of Work

1. Project Background and Summary

The Lexington-Fayette Urban County Government (LFUCG) is seeking proposals from qualified firms to provide Landscape Architectural services for design of landscaping in several locations within Fayette County along major corridor routes leading into the city of Lexington. The requested services will include site selection, soil sampling, development of conceptual schematics and plant species lists, coordination with LFUCG and Kentucky Transportation Cabinet (KYTC) staff, leading project team meetings, development of final plans suitable for bidding, development of cost estimates, contact with local and regional nurseries and construction assistance during installation.

The goal of this project is to continue the success of the Breeders' Cup beautification planting beds by designing landscaping for four corridors to provide an aesthetically pleasing impact for travelers and residents as well as showcase plants and trees native to the Bluegrass area.

The scope of each corridor will vary depending upon the project area available, site and other KYTC/Federal Highway Administration (FHWA) restrictions, soils, slopes, etc. It is expected that designs will include trees, shrubs, perennials, ornamental grasses, annuals, and seed mixes (including wildflower seed mixes). Perennials will be preferred although small areas for annuals are possible.

The Division of Environmental Services will manage the project in conjunction with a Project Team to include representatives from the Mayor's Office, Corridors Commission, Tree Board, several city divisions, and other stakeholders. The design process will be collaborative, in that input and comment from the project team will be provided at scheduled points throughout the process.

Funding for the installation is in the process of being secured. It is expected that the design plans resulting from the selected firm's work will be installed in phases as funding becomes available. A majority of the plantings will be bid for installation by private contractors, however some work may be performed by in-house staff within the Division of Environmental Services. Once installed, all plantings will be maintained by the Division of Environmental Services.

All proposed work areas are within the State or Federal right-of-way, and therefore will require encroachment agreements and approvals from the KYTC. Approvals from the FHWA are required at I-75 interchanges. The design services shall be provided in such a way as to receive buy-in and approvals from appropriate KYTC staff throughout the process. In addition, any and all impacted public and private utilities shall be coordinated with to avoid underground and overhead utility conflicts.

The goal of this Request for Proposal (RFP) is to create individual design plans and specifications for each beautification area, sufficient either to bid or to install through city crews. Consultants shall be selected for each project area. Consultants are given the opportunity to submit proposals for one, some, or all of the project areas.

1.1. Project Site Locations, Descriptions, and Anticipated Budgets

Selection of specific project sites is part of this project scope. Four corridors have been selected for design of beautification areas with this RFP. In order to allow proposers to provide a cost estimate for their services, a general project description and a not-to-exceed construction/installation budget estimate for each area is provided. Developed designs will be prioritized and constructed as funding allows. Therefore, all projects may not be constructed this coming year and they may be constructed in phases over a series of years.

ZONE A: North Broadway and Paris Pike (from Loudon Avenue to Kingston Rd);

Construction Estimate \$250,000: This zone has a variety of locations and options to evaluate. The Paris Pike @ I-75 interchange is on a list for possible reconfiguration. This does not preclude some improvements within the interchange area, but a majority of the investments should be planned in other areas. The plan should include low-maintenance perennials/bulbs within the narrow entrance/exit medians. For the area within the Federal Highway Administration's purview (interchange to end of all ramps), federal encroachment approvals are required. Expect more restrictions. Access for maintenance is of particular concern. N. Broadway is a tight corridor with little space. There is an historical horse watering trough at the railroad crossing near New Circle Rd that should be incorporated into the design as a visual point of attraction with possible signage. KYTC shall be approached with the possibility of replacing concrete medians with landscaped medians in certain locations.

ZONE B: Athens-Boonesboro @ I-75 Interchange; Construction Estimate \$150,000: This project area allows for larger landscaping beds with trees and shrubs organized in a pattern. Wildflowers are to be considered at this location. This area is within the Federal Highway Administration's purview and will require Federal as well as the standard State encroachment permits. Expect more restrictions. Access for maintenance well off the shoulder must be available. (Proposers are encouraged to consider the approach used at the I-75 at West Chester, Ohio interchange to consider for this location and Zone D. Other innovative approaches are also welcome.)

ZONE C: Richmond Road Medians; Construction Estimate \$200,000: See attached maps for beautification areas. Expected beautification to include a strip of landscaping in the middle of the medians that encompass the existing trees.

ZONE D: Winchester Road @ New Circle Road Interchange; Construction Estimate \$200,000: This project area allows for larger landscaping with potential for trees and shrubs organized in a pattern at this cloverleaf interchange.

All project sites are located within the public right-of-way.

1.2 Design Standards

Design plans and specifications shall meet the requirements of the LFUCG Planting Manual and the American National Standards Institute (ANSI) where applicable. LFUCG shall provide a tree and shrub planting detail for inclusion in the contract documents.

1.3 Project Phasing and Schedule

For Zones C and D, proposers should assume a fast track planning and design process. Anticipated Notice to Proceed is December 15, 2016. This will allow for bidding and encumbering funds for construction by June 2017.

For Zones A and B, given the permitting requirements associated with FHWA required approvals, extra time is provided in the schedule for these reviews and approvals.

All projects will be designed concurrently. If a proposer is selected for more than one project area this schedule still applies.

The general project phasing is:

Planning Phase

- a. Site Investigation
- b. Site Analyses (soils, utilities, constraints, etc.) and coordination with KYTC, FHWA, and Utilities
- c. Prepare conceptual layouts and plant lists
- d. Review and comment by Project Team
