Laws and Regulations

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;

(2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

EQUAL OPPORTUNITY AGREEMENT

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Investigation / Design Services for Town Branch WWTP Primary Digester Complex Improvements

Lexington – Fayette Urban County Government (LFUCG) Division of Water Quality

The Lexington-Fayette Urban County Government is accepting proposals from interested consulting engineering firms for the Investigation / Design Services for Town Branch Wastewater Treatment Plant (WWTP) Primary Digester Complex Improvements.

1. General Project Description

The CONSULTANT shall perform professional services as hereinafter stated which shall include but is not limited to customary civil, structural, mechanical, electrical engineering, and programming services as related to the Investigation / Design for Town Branch WWTP Primary Digester Complex Improvements.

Per the Group Two Sanitary Sewer System and WWTP Remedial Measures Plan, the intent of the Primary Digester Complex Improvements Project is to replace equipment that has surpassed its useful life therefore increasing reliability and lowering operating cost by improving efficiency. Construction of the Digester complex improvements must be complete by December 31, 2018. Currently identified for replacement but not limited to are the mixing systems, covers, boilers, heat exchangers, motor control centers, pumps and waste gas flare for the three (3) primary digesters located at the Town Branch WWTP. Additional building work includes but is not limited to roof replacement and patching areas leaking inside the building. A Preliminary Engineering Report will be completed evaluating equipment replacement versus new processes/technology that might best utilize existing primary digester tanks and buildings.

As an additive alternative the Division of Water Quality would like to explore creating a digester gas master plan to include an evaluation of a combined heat and power (CHP) system that will utilize excess digester gas as a fuel source to provide power for the digester complex and the Solids Processing Building. The cost for the study and phases of design must be priced individually so that LFUCG can conduct an internal cost / benefit determination..

Funding for this project is 100% sewer fund revenue, no federal fund involvement is expected.

3. Scope of Work: Digester Gas Master Plan/CHP Project (Additive Alternative)

LFUCG would like to develop a Digester Gas Master Plan (to include grease usage) to include a design for a Combined Heat and Power (CHP) System at the Town Branch WWTP. The CHP system will utilize excess combustible digester gas produced by the three (3) anaerobic primary digesters supplemented with natural gas to provide a fuel source for the CHP project. The system shall be safe, energy efficient, economical, reliable, and operate continuously with minimal Town Branch staff involvement, and shall not negatively impact the plant digestion system and/or plant heating system. The CHP project scope includes all engineering, architecture, geotechnical, analytical, permitting, project management, and any other work required to design a fully functional and integrated CHP system at the Town Branch WWTP. The CHP system will also recover engine exhaust heat to supplement process and space heating demands in the form of hot water pumped in a closed loop interconnected to the existing primary heating loop in the digester complex. The gas treatment system associated with the CHP system will include H₂S removal, pressurization, moisture removal, and siloxane/VOC removal. The CONSULTANT will evaluate the most effective/efficient way to use the combustible digester gas and heat/steam created from the Town Branch WWTP Digester Complex. The CONSULTANT will evaluate and compare independent equipment/processes with waste to energy group's energy recovery systems.

Currently available onsite at Town Branch is a Building (The Engine Blower Building) which houses an old Waukesha internal combustion (IC) engine with attached Roots blower that is/was powered by a combination of methane gas (primary digester generated combustible gas) or natural gas and/or a combination natural/methane gas mixture. Currently, it is the opinion of Town Branch maintenance and management staff that the aforementioned engine/blower unit can no longer be cost effectively refurbished. Structurally and mechanically the building is in good shape and was designed and constructed with sound dampening properties. The building and existing IC engine/blower system has been evaluated by the Southeast Clean Energy Application Center (CEAC) at Mississippi State University, Final Report dated August 12, 2011, and was preliminarily considered a good application for a new generator and a waste heat recovery system using the old engine. However, LFUCG would prefer a new lean-burn IC engine for the new system being considered.

- A. Task 1: Kick-Off Meeting to Verify Project Scope

- (1) Interview Town Branch Wastewater Treatment Plant Operations and Management staff to establish the goal for a CHP system.
- (2) Review equipment and ideas the staff has researched.
