The Government, its agents and employees, shall, at all times, have unrestricted access to all places where or in which the services required hereunder are being carried on and conducted. responsibility or obligations of Organization, nor to constitute the Organization as an agent of the Government.

11. Organization shall provide equal opportunity in employment for all qualified persons, shall prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and shall cause each of its subcontracting agencies to do so. 14. Organization agrees that it shall apply all funds received by it from the Urban County Government in accordance with the following investment policy guidelines:

(2) Utilize the professional investment management facilities of a local bank trust department acting in a fiduciary capacity within the same approved investment policies and federal, state, local and trust laws and regulation. The trust department may utilize its regular short-term one hundred percent (100%) US Treasury Fund for daily funds investment.

The election of option 1 or 2 should be made consistent with the relative cost incurred and in the case of option 2 the cost shall be competitive among local trust departments.

C. Investment Policies - - Safety and Prudence.

(1) Short-term liquidity funds shall be invested in "riskless" investment, i.e., deposits in Kentucky commercial banks or savings and loan associations that are fully federally insured or deposits collateralized by U.S. Treasury securities with a current market value of at least one hundred percent (100%), or in direct obligations of U.S. Treasury securities.

Investments shall be diversified according to maturity in order to meet projected cash flow needs.

Collateral pledged to secure uninsured deposits shall be held at a federal reserve bank with the receipt providing absolute control by the agency.

(2) Retirement funds, endowment funds, long-term capital reserve funds and any other special funds may be held and invested by a local bank trust department under investment objectives and diversification in accordance with the individual nature of the funds and pursuant to the "prudent man" investment rule as well as general trust law.

(3) All investments shall be reviewed monthly by a finance or investment committee of the agency.

(4) Local brokerage firms may hold and invest funds provided that investments are located within Kentucky and are full insured.

D. Audit - - All investments shall be audited at least annually by independent certified public accountant who shall express an opinion as to whether or not investments during the year audited have conformed with state and local law and regulation and with the approved investment policies.

## 5.1 Program Proposal & Design

### 5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

Research has shown that Food Insecurity(FI) leads to negative consequences regarding diet quality and nutritional status. FI is closely associated with an increased risk of chronic disease such as being overweight, obesity, type 2 diabetes, hypertension, and ultimately, higher healthcare costs. It may also lead to a change in family eating habits and the home food environment. Often, high calorie processed foods are more affordable than healthier alternatives, leading to an increase in poor nutritional consumption for families and children.

Six months into the pandemic, respondents to one survey indicated a 47% increase in the purchase of high calorie, nonperishable, processed foods, with about one third of participants reporting an increase in the consumption of snack foods, desserts, and sweets.

According to the USDA Economic Research Service, 12 of Lexington ' s census tracts are low income, low access areas, meaning residents have limited access to healthy food within 1 mile. Residents in these areas also have limited access to transportation including personal vehicle ownership and reliable public transportation options. The latest numbers for Lexington show that 1 in 5 of the residents experience FI.

Seedleaf is working to address these challenges by teaching families to grow their own food, and Glean Kentucky is redistributing surplus fresh food from retailers and farmers to food pantries. FoodChain will meet families where they are by providing home delivery of locally grown foods with recipes and educational materials to empower families to gain fluency and familiarity with nutritious, accessible meals.

### 5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

FoodChain provides services that eliminate barriers to fresh, local food for families by focusing on transportation, affordability, and education.

Families receive a weekly Nourish Box on their doorstep, containing a sandwich kit with supplies to prepare sandwiches with premade sides, and either an 8 serving meal kit or frozen meals. Meal kits include prioritized locally-sourced items such as proteins, dried goods, fresh produce, milk, eggs; also donated, gleaned, surplus, and lightly-processed perishable items. Educational materials provided include recipes, family activities, and nutrition lessons. Through WIC and SNAP education partnerships, families learn how to use their benefits to access locally grown produce. FoodChain will collaborate with education providers to create culturally relevant, diverse recipes to highlight flavors representative of the participating populations.

Our boxes help families overcome the financial, educational, and transportation-based barriers to fresh, local food outlined in 5.1.1. The boxes are free to the recipient, thus removing financial barriers. Transportation barriers are eliminated by doorstep delivery. Finally, the educational information will increase nutritional literacy and provide instructions on how to prepare the ingredients allowing recipients to develop a cooking toolkit.

Additionally, FoodChain will work with the Lexington Farmers Market to provide education for youth through the Power of Produce Club and offer Summer Food Services. To reduce transportation barriers, FoodChain plans to partner with churches and community centers to provide shuttle services. This will diversify the markets ' customer base, while connecting more Lexington residents with nutritional assistance programs (ie Double Dollar, SR and WIC Vouchers)

### 5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

Client eligibility is determined through self-identified need, the only paperwork requested will be evaluative surveys to assess the effectiveness of the program. Families are not required to live in the designated Census Tracts identified in the Needs Statement above, however we will target these high needs areas through outreach to community centers and FCPS Family Resource Coordinators at these Census Tract Priority areas to identify families who would benefit from this program and may be unable to access other services.

### 5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are doing is best-practice.

" Exploring Perceived Importance of a Novel Emergency Food Program during COVID-19 and Program Recipient Characteristics " published in the International Journal of Environmental Research and Public Health in 2021, examines the impact of community based free meal distribution programs during the pandemic, reviewing characteristics of recipients. Among missing food groups, recipients were lacking in fruits (46.7%), vegetables (41.3%), and dairy (33.7%), followed by protein (27.2%) and grains (21.7%). Their meal program participation allowed them to have access to healthier food options that they may not have had access to without. Three participants additionally shared that the program changed their dietary intake such as by eating foods they were " unfamiliar with and enjoyed " , and that they were provided " delicious meals " they otherwise wouldn ' t make at home, and as a result, ate " more veggies " .

Researchers have found that students' diets are directly impacted by their involvement in the preparation of the food. Programs like Share our Strength: Cooking Matters and the National Farm to School Initiative have been promoting programs that teach families to cook at home; two different studies in 2014 found that both adults and students show improved diets, positive food choices, food behaviors and health outcomes with hands-on food preparation.

Food assistance programs that extend beyond the provision of food and/or meals with community empowerment, training, and education have the potential to not only address FI in the short-term, but also target the root causes of FI and improve social belonging of marginalized populations.

## 5.2 Program Measures & Evaluation

### 5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

FoodChain’s Nourish Boxes and meals will increase recipients’ access to nutritious meals and knowledge on how to provide wholesome meals for their families.

Our service philosophy is that we eliminate barriers to nutritious, local, and wholesome products for all kids and their guardians in Lexington. Goals will be set to increase consumption of locally grown produce, increase knowledge of cooking techniques and learn new ways to obtain affordable fresh produce.

By coordinating shuttles from the identified census tracts directly to the Lexington Farmers Market, we will provide direct access to services that increase access to local and fresh foods in Lexington. Participants will learn about and participate in WIC, Senior vouchers, KY Double Dollars, POP kids club, and Summer Food Service Program available at the Lexington Farmers Market, allowing participants to make their own food choices for their families while increasing income for Kentucky farmers.

Success will be defined as continued consumption of the Nourish Boxes, including the preparation of meals with the kit and recipe items offered, with a target of 75% of the components to be consumed by recipients. In addition, we will look at the number of people who utilize the shuttle to go to the Farmers Market, the frequency of repeat visits, and the increased use of Double Dollars, WIC vouchers, Senior Vouchers, and new children participating in the POP kids club. This data will be collected through collaboration with the Lexington Farmers Market and surveys to gather feedback on consumption and knowledge changes over time.

### 5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

The impact of these services is felt across the community. Nourish Box recipients feel reduced stress due to ease of access to a reliable, convenient food source and increased health benefits because of the fresh produce consumption from the kits. Families are able to easily and productively spend more time learning together about the history of foods, exploring food tastes and new flavors, and how to access local foods through the educational components included in each box. Long term, this benefits recipients by positively influencing their mental well being and physical health. Our Program evaluation found that participants reported decreased stress, anxiety, and depression, as well as better health, increased energy and feelings of wellness. For this grant period, FoodChain would like to partner with UK Healthcare to measure health outcomes related to hypertension, heart disease, type 2 diabetes, and obesity.

This program positively benefits the local food economy, channeling funds directly to small businesses and farmers. Produce, meat, and eggs are purchased directly from local farmers for both the Nourish Box program and by increasing attendance at the Lexington Farmers Market for families to use their KY Double Dollars, Senior and WIC vouchers. By providing boxes of free food to families, they have more disposable income to spend on other sources of food and self-care (ie family night etc). Because our programs are need-blind, families experiencing food insecurity at different income levels are able to benefit from home delivery and relief to focus on other aspects of family life.

### 5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying "we provided this many 'units of service.'" How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

We will evaluate this program's efficacy with surveys, distributed with the Nourish Boxes once a month. Surveys will allow us to determine if they are enjoying the food provided, and solicit suggestions for alternatives or desired menus/ingredients and education to be included. We will conduct pre and post surveys to determine changes in dietary habits, including the frequency and number of servings that families consume of fresh fruits and vegetables. By surveying at regular intervals throughout the program, we will be able to determine if clients report increases in consumption habits, frequency of youth participation in cooking activities, and any self reported health, wellness, and positive psychosocial benefits.

Based on our current enrollment in the Nourish Meal Delivery program, we know that many families retain this service for the duration that it is offered, allowing us to track many of the same individuals over time. This will allow us to determine overall effectiveness in improving health, access to fresh foods, and increased food literacy.

For the Lexington Farmers Market Shuttle, we will work with our Nourish Box recipients and other community organizations to identify shuttle sites to and from the market. We will be able to track use by individuals and families and work with the Lexington Farmers Market to identify any increases to participation in their services. By surveying clients and analyzing data from shuttle use, we can determine best times for shuttles, target neighborhoods, demand for shuttles, and other transportation needs in Lexington.

## 5.3 Capacity & Sustainability

### 5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

Leandra Forman- Director of Operations. She has been with FoodChain for 7 years. Leandra manages the aquaponics farm, helped design and build the Teaching/ Processing Kitchen and worked to create and implement many of the programs at FoodChain, including the Nourish Box program. She uses her personal experience with food assistance to inform efforts at FoodChain and advocacy work with the statewide Kentucky Food Action Network.

Kristin Hughes- Education & Outreach Director. Kristin has overseen and directed Education at FoodChain for 3 years. She has grown the Power of Produce Program to include Wednesdays at the Alexandria Dr. Market, expanded and diversified afterschool/summer food literacy programs and introduced multilingual instruction and outreach. Her work has been essential to growing the Nourish Lexington work and providing educational components within each box for families.

Becca Taylor- Nourish Delivery Coordinator. Becca Taylor has been organizing and coordinating the Nourish Lexington Delivery Program since Summer 2021. She has successfully created efficient routes for delivery drivers, communicated with volunteers, and implemented a Rapid Response program for last minute deliveries. She serves as a direct point of contact for families receiving services and is able to offer assistance in both English and Spanish.

Amber Lawrence- Kitchen Manager. Amber has been with the Nourish program since inception in April 2020. She manages meal production and cultivation of locally sourced meal boxes & recipes. Her roles include training workforce employees, ensuring meals meet and exceed nutritional standards, kitchen safety, and cultivating a healthy environment for employees and food distribution.

**5.3.2 Partnership & Resource Leverage**

**5 Points**

How do your programs and services support our community’s comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

For the past decade, FoodChain has built an excellent network of partners. For purchasing, we partner with organizations such as Black Soil: Our Better Nature, as well as individual local farms and coordinate with LFUCG ’ s Director of Local Food and Agricultural Development. We have partnered closely with the Lexington Farmers Market since 2017 with the Power of Produce Club. FoodChain also partners with CRCKY and Journi ’ s Hope to get newly resettled refugee and immigrant communities in Lexington direct access to emergency food assistance and fresh produce and culturally appropriate foods. We partner directly with FCPS to provide youth education and programming, including the Family Care Center and the Audrey Grevious Center. Additionally we work with after school programs such as the West End Community Empowerment program, serving low income youth and getting them fresh meals and snacks after school and on school breaks. Another key partnership for this program is with the new local business Delivery Co-op- an employee and restaurant-owned food delivery company focused on fair, inclusive, hyper localized service will use gita for safe, contactless neighborhood deliveries, which provides about 75% of the home delivery services for our Nourish Box program.

We are the main financial recipient of the Nourish Fund at BGCF to help support wholesome meal access for families in need while supporting our local economy. We have the continued fundraising support of our Board of Directors as well as maintaining a strong relationship with VisitLEX paired with our strong ties to local farmers and chefs.

**5.3.3 Outreach & Inclusion Strategy**

**15 Points**

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor’s Commission on Racial Justice & Equality?

Many families that live in the USDA designated low income, low access areas of Lexington, also have limited access to transportation. By delivering Nourish Boxes directly to families, we ensure that transportation barriers do not negatively impact a resident ’ s ability to access quality food. We will work with community partners to prioritize families unable to access food and transportation services, including immigrant and minority communities, ensuring that the meals we provide are culturally appropriate and ethnically diverse. Our Education Director and Nourish coordinator are fluent in Spanish and provide educational materials and surveys in English and Spanish. We also work with organizations and churches to translate into the many other languages represented in Lexington.

In Recommendation #2 from the Mayor ’ s Commission on Racial Justice & Equity Health Disparities report, our delivery method of Nourish Box distribution is a mobile food distribution, as explicitly recommended. By coordinating Lexington Farmers Market shuttles, we will increase food security and reduce hunger by providing children and low income individuals access to food, a healthy diet, and nutrition education in a method that supports American agriculture, locally grown produce, and inspires public trust and confidence. This portion of our program allows participants to make their own food choices, build relationships with Kentucky farmers, and remove transportation barriers for our residents.

FoodChain affirms that fresh, wholesome food should not be out of reach for anyone, regardless of their income, race, ethnicity, ability, housing status, age, gender identity, or sexual orientation.

### **Laws and Regulations**

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

### **Equal Employment Opportunity**

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

### **Kentucky Equal Employment Opportunity Act**

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the

contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available workforce in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

### **LFUCG Non-Appropriation Clause**

Contractor acknowledges that the LFUCG is a governmental entity, and the contract validity is based upon the availability of public funding under the authority of its statutory mandate.

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

### The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:  
*The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.*
- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

*The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.*

\*\*\*\*\*

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

## Funding Priority Area: Food Insecurity and Nutritional Access

Projected funding is \$600,000 of ESR Grant Program – Community Based Initiatives

LFUCG seeks to strengthen and enhance **Food Insecurity and Nutritional Access** by supporting programs and services for the provision of addressing having reliable access to a sufficient quantity of affordable, nutritious food and providing nutritional services. LFUCG intends to award grants for priority-rated programs and services which originate with demonstrated client needs, establish clearly-defined outcomes, and are designed to best practices or evidence-based models.

Food security is a situation that exists when all people, at all times, have physical, social and economic access to sufficient, safe and nutritious food that meets their dietary needs and food preferences for an active and healthy life. Nutrition includes management for congregate and home delivered meals, delivering quality meals to nutrition sites and homebound clients so clients have nutritionally sound meals.

### USDA Definitions:

- **High food security:** no reported indications of food-access problems or limitations.
- **Marginal food security:** one or two reported indications—typically of anxiety over food sufficiency or shortage of food in the house. Little or no indication of changes in diets or food intake.
- **Low food security:** reports of reduced quality, variety, or desirability of diet. Little or no indication of reduced food intake.
- **Very low food security:** Reports of multiple indications of disrupted eating patterns and reduced food intake.

The term “client” is used throughout this proposal; however we understand that within the context of your work “client” may not mean an individual. For some agencies it may be helpful to think of “client” as whole system (such as a school) or as a neighborhood, group, or community.

## 5.1 Program Proposal & Design

### 5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement 15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

### 5.1.2 Service Delivery Model 15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

### 5.1.3 Client Eligibility and Requirements 5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

### 5.1.4 Evidence-Based/Best Practice 10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are proposing is best-practice.

## 5.2 Program Measures & Evaluation

### 5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

### 5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

### 5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying “we provided this many ‘units of service.’” How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

## 5.3 Capacity & Sustainability

### 5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

### 5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

### 5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?
