SUBJ: Sole Source Procurement for Century Equipment

The Division of Facilities and Fleet Management is requesting sole source status for Century Equipment for the purpose of providing genuine Toro replacement parts for LFUCG mowers repaired by the Division of Facilities and Fleet Management and the Division of Parks and Recreation. No other dealer bid for Toro parts during an open bid for mower and grounds maintenance parts.

The Lexington-Fayette Urban County Government maintains more than 70 mowers and a sundry of grounds maintenance equipment manufactured by Toro spread throughout government in several divisions. To insure the availability of these pieces of equipment the Division of Facilities and Fleet Management and other divisions utilizes genuine Toro parts for the repairs and maintenance as dictated by each of our internal workloads.
