JUSTIFICATION FOR CHANGE

PROJECT: Senior Citizen Center Construction

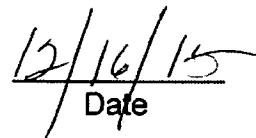

CONTRACT NO. 227-2014

CHANGE ORDER NO. 31

1. Necessity for change: The addition of this layer of geotextile fabric will increase the performance of the bioswale, decrease the frequency of required maintenance, and lengthen the effective life of the bioswale. The electrical duct bank is beneath the approach to the dumpster pad; replacing the asphalt with heavy duty concrete will help to protect the duct bank.
2. Is proposed change an alternate bid? ___ Yes X No
3. Will proposed change alter the physical size of the project? ___ Yes X No
If "Yes", explain. This change order expands the current limits of construction.
4. Effect of this change on other prime contractors: N/A
5. Has consent of surety been obtained? ___ Yes X Not Necessary
6. Will this change affect expiration or extent of insurance coverage? ___ Yes X No
If "Yes", will the policies be extended? ___ Yes ___ No
7. Effect on operation and maintenance costs: See above.
8. Effect on contract completion date: 0 working days

Description:

Please provide pricing to furnish and install geotextile filter fabric to be placed between the engineered soil layer and the crushed stone layer within the central low-impact BMP biofiltration swale. Filter fabric shall match the criteria of specification section 334600. Use previously approved filter fabric or submit product data for new fabrics prior to installation. Filter shall be installed flat against the crushed stone layer, and will not wrap up the sides of the swale. Filter fabric shall overlap at ends of each length of fabric per the manufacturer's recommendations.

Please let me know if there are any questions about the scope or nature of

Description:

Please provide pricing to replace asphalt at the approach to the dumpster pad with heavy duty concrete to protect underground electrical services. Please refer to the enclosed sketch for extents of concrete paving. Extents may be adjusted to coordinate with as-built locations of underground electrical ductbank. Adjustments should be discussed with the Architect prior to execution. Please break out pricing as follows:

- Credit for asphalt material/labor (w/ unit costs and quantities)
- Add for concrete materials/labor (w/ unit costs and quantities)
- Expansion joint material

To: 'Travis Harris'
Subject: RE: LFUCG-Asphalt / DGA Deduct.

Travis,
ATS Construction would propose a savings of \$1,584.00 (\$16.50 / SY) for the elimination of 96 SY of 1 inch of DGA, 5.5 inches of asphalt base and 1.5 inches of asphalt surface.

Let me know if you have any questions or need additional information.

Also, can you give me a rundown of the accepted changes and credits. I know we have proposed several credits and additions, but I am not sure where we stand on them. Also, if you could give me the updated contract amount for ATS.

Thanks,

Bryan Beasley

Re: Extra 8" Concrete Paving in Front of Dumpster @ Lexington Senior Center
195 Life Lane
Lexington, KY

Dear Jim,

We are pleased to offer the following scope of work for extra work at the above referenced job:

Scope of Work

- A. Furnish all labor, material & equipment to prep & pour concrete paving in front of Dumpster Pad

We submit this proposal for the Lump Sum of \$9,940.00. *Thank you for another opportunity!* Please call with any questions.

Labor & Material Breakdown

- A. Labor – \$3,840.00
- B. Materials - \$6,100.00

Sincerely,
Ronnie Joe Hubbard, Member
Hubbard Construction, LLC
