WHEREAS, pursuant to Kentucky Constitution Section 164 and Kentucky Revised Statute 67.083, the Lexington-Fayette Urban County Government is authorized and empowered to award cable television franchises, and

WHEREAS, Section 621(a)(1) of the Communications Act of 1934 (the "Cable Act") prohibits franchising authorities from unreasonably refusing to award competitive franchises for the provision of cable services (47 U.S.C. § 541(a)(1)), and

WHEREAS, the Federal Communications Commission ("FCC") in the FCC's Report and Order and Further Notice of Proposed Rulemaking, 22 FCC Rcd 5101 (2006), in *Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as amended by the Cable Television Consumer Protection and Competition Act of 1992 ("FCC Order")*.has found that new entrant providers of cable television service, "face 'steep economic challenges' in an 'industry characterized by large fixed and sunk costs,' without the resulting benefits incumbent cable operators enjoyed for years as monopolist in the video services marketplace," (FCC Order at 63) and

WHEREAS, the FCC's record indicates that "a competitive video provider who enters the market today is in a fundamentally different situation from that of the incumbent cable operator" because the new entrant must "win every customer from the incumbent" and thus does not have "anywhere near the number of subscribers over which to spread the costs." (FCC Order at 63), and

WHEREAS, the FCC has determined that its construction of Section 621(a)(1) "best serves the [Communications] Act's purposes of promoting competition and broadband deployment." (FCC Order at 43), and

WHEREAS, the FCC has expressly recognized that it is unlawful for a franchising authority "to refuse to grant a competitive franchise on the basis of unreasonable build-out mandates," (FCC Order at 43) and

WHEREAS, the FCC has found that "[b]uild-out requirements... impose significant financial risks on competitive applicants, who must incur substantial

construction costs to deploy facilities within the franchise area in exchange for the opportunity to capture a relatively small percentage of the market,” (FCC Order at 43)

THEREFORE, BE IT ORDAINED BY THE LEXINGTON-FAYETTE URBAN COUNTY COUNCIL:

That this Ordinance be and hereby is adopted as the “Revised Competitive Cable Television Ordinance” for the Lexington-Fayette Urban County Government:

The letter of credit shall be used to insure the faithful performance by the Grantee of all of the provisions in this Ordinance; and compliance with all orders, permits and directions of any agency, commission, board, department, division or office of the Government having jurisdiction over its acts or defaults under this Ordinance and the payment by the Grantee of any claims, liquidated damages, liens and/or taxes due the Government which may arise by reason of the construction, operation or maintenance of the System.
- (b) The letter of credit shall be maintained at fifty thousand dollars (\$50,000.00) during the entire term of the franchise, even if amounts are withdrawn pursuant to subsections (a) or (c) of this section.
- (c) If the Grantee fails, after receipt of thirty (30) days written notice, to pay to the Government any claims, liquidated damages, liens and/or taxes due the Government, or fails to repay the Government, within such thirty (30) days, any damages, costs or expenses which the Government is compelled to pay by reason of any act or default of the Grantee in connection with the Grantee's franchise; or fails, after thirty (30) days written notice of such failures by the Grantee to comply with any provision of this Ordinance which the Government reasonably determines can be remedied by demand on the letter of credit (subject to compliance with the procedure described in Section 34(c)), the Government may immediately request payment of the amount thereof, from the letter of credit. Upon such request for payment, the Government shall notify the Grantee of the amount and date thereof.
- (d) The rights reserved to the Government with respect to the letter of credit are in addition to all other rights of the Government, whether reserved by this franchise or authorized by law, and no action, proceeding or exercise of a right with respect to such letter of credit shall affect any other right the Government may have.
- (e) The letter of credit shall contain the following endorsement:

“It is hereby understood and agreed that this letter of credit may not be canceled or not renewed by the surety nor the intention to cancel or not to renew be stated by the surety until thirty (30) days after written notice to the Government of surety’s intention to cancel or not to renew.”

Section 10. PAYMENT TO THE GOVERNMENT

- (a) During any period of time during which the Government opts to forego collecting a Franchise Fee in lieu of participating in the Multichannel Video Programming and Service Tax scheme under KRS 136.600 et seq., Grantee shall not be required to pay Franchise Fees. If at any time the Government opts to exercise its constitutional right to collect Franchise Fees, Grantee’s first Franchise Fee payable under this chapter shall be paid to the Government sixty (60) days after the Government gives notice to Grantee that the Government has opted to exercise its constitutional right to collect Franchise Fees.
- (b) The excise tax distribution from the state is not a payment in lieu of any tax, fee or other assessment except as specifically provided in this Ordinance, or as required by applicable law. By way of example, and not limitation, permit fees and business license taxes are not waived and remain applicable as provided by law to the extent they are not Franchise Fees. Such payments shall be made at the times and in conformance with the requirements of the Cable Ordinance.
- (c) If the Government exercises its constitutional right to collect Franchise Fees, (i) Grantee shall pay Franchise Fees for the reason that the Roads to be used by the Grantee in the operation of its system within the boundaries of the Lexington-Fayette Urban County Government are valuable public properties, acquired and maintained by the Government at great expense to its taxpayers, and that the grant to the Grantee to use said Roads is a valuable property right without which the Grantee would be required to invest substantial capital in right-of-way costs and acquisitions, and (ii) the Franchise Fee shall be in an amount equal five percent (5%) of Grantee’s Gross Revenue.
- (d) Notwithstanding anything to the contrary in this Franchise, Grantee shall not be obligated to pay any Franchise Fee to the Government unless such Franchise Fee is applied equally to all parties who have been granted a franchise to operate a Cable System by the Government.
- (e) Grantee agrees to timely pay all of the fees applicable to Grantee associated with Chapter 17C of the code of ordinances, including any future amendments. Nothing herein shall be deemed a waiver of any right of Grantee to challenge the imposition of any fee as inconsistent with applicable law.
- (f) Subject to Section 622 of the Communications Act and the Kentucky Franchise Law, the payment of the Franchise Fee shall be in addition to any other tax or payment owed to the Government by Grantee.
- (g) If any Franchise Fee is owed to the Government under subsection (c), above, it shall be payable quarterly to the Government and the Grantee shall file a complete and accurate report, signed by and certified as accurate by an officer of the Grantee, of all Gross Revenues received within the territorial limits of the Lexington-Fayette Urban County Government during the previous three month period, and said payment shall be made to the Government no later than forty-five (45) days after the expiration of the quarter when due. The Gross Revenue report from operations of the Grantee within the franchise area shall include: a schedule of Gross Revenue by category by month; a schedule of the number of Subscribers by category of service by month; and a schedule of Gross Revenue upon which the Franchise Fee is based.
- (h) If any Franchise Fee is owed to the Government under subsection (c), above, upon reasonable notice, the Government shall have the right during Normal Business Hours to inspect the Grantee’s relevant revenue records at the

Grantee's office, the right to audit and to re-compute any amounts determined to be payable under this Ordinance; provided, however, that such audit shall take place within twelve (12) months following the close of each of the Grantee's fiscal years. If, as a result of such audit or review, the Government determines that Grantee has underpaid its fees to the Government in any twelve (12) month period by ten percent (10%) or more, then, in addition to making full payment of the relevant obligation, Grantee shall reimburse the Government for all of the reasonable costs associated with the audit or review, including costs for attorneys, accountants and other consultants. Any additional amount due to the Government as a result of an audit or review shall be paid within the thirty (30) days following written notice to the Grantee by the Government, which notice shall include a copy of the audit report and copies of all invoices for which the Government seeks reimbursement.

- (i) In the event that any franchise payment or recomputed amount is not made to the Government on or before the applicable dates heretofore specified, interest shall be charged from such date at the annual rate of 2% over prime interest rate.
- (j) The Government reserves the right to require the Grantee, to collect any consumer or other tax or other fee that may be lawfully imposed by the Government, the Commonwealth of Kentucky, or the federal government on Cable Services.
- (k) No acceptance of any payment by the Government shall be construed as an accord and satisfaction that the amount paid is in fact the release of any claim that the Government may have for further or additional sums payable under this Ordinance.

Section 11. NON-WAIVER

Except as provided in federal law, Grantee shall not be excused from complying with any of the terms and conditions of this Ordinance by any failure of the Government, upon any one or more occasions, to insist upon the Grantee's performance or to seek Grantee's compliance with any one or more of such terms or conditions.

Section 12. CONDITIONS OF ROAD OCCUPANCY

(a) General Grant of Right. The Grantee acquiring this franchise shall have the right and privilege of constructing, erecting, operating and maintaining a Cable System, equipment and apparatus, upon, through, along, under and over the Roads within the territorial limits of the Lexington-Fayette Urban County Government; subject to the provisions hereof and to all powers (including police power) inherent in, conferred upon or reserved to said Government.

(b) Conditions.

(1) Grantee must fully comply with the provisions of Chapter 17C of the code, including any future amendments. To the extent of any conflict between or among the provisions of this franchise and Chapter 17C of the code, this franchise shall apply.

(2) When the Grantee enters upon any Road for the purpose of constructing, erecting, operating, maintaining and/or removing equipment and apparatus, it shall prosecute the work, at its own cost and expense, with due diligence and shall dig and close up all trenches and exposed places as rapidly as possible, and shall leave the Roads in the same condition as when it entered the same for said purpose or purposes. To the extent required of other parties with facilities in the rights-of-way, all such repairs shall be maintained by the Grantee pursuant to the requirements of the Lexington-Fayette Urban County Government Code of Ordinances, including, but not limited to, Chapter 17C. In the event the Grantee fails, refuses or neglects to comply with the above provisions, the Government shall have the right, notwithstanding any other provision of this Ordinance,

after notice in writing having first been given to the Grantee, or any officer or agent representing it, to do said work or make said repairs, and the cost and expense thereof shall be paid to the Government by the Grantee within thirty (30) days from the date on which an itemized bill is presented to the Grantee.

- (3) In the construction or reconstruction or maintenance or removal of any of said equipment and apparatus, the Grantee shall have due regard for the rights of the Government and others, and shall not interfere with, or in any way injure the property of the Government or others, under, on, or above the ground. Said Grantee shall comply with all the laws of the Commonwealth of Kentucky and Ordinances of the Government as to placing lights, barricades, flags, danger signals or warning signs and shall be liable for any and all damage that may arise by reason of Grantee's failure or neglect to comply with such Ordinances and laws. Work by the Grantee hereunder shall be done in a workmanlike manner and so as not to unnecessarily interfere with public use of any of said Roads.

(c) Government Changes.

- (1) Whenever the Government or any of its departments, agencies and/or agents, servants or employees shall grade, regrade, construct, reconstruct, widen or alter any Road or shall construct, reconstruct, repair, maintain or alter any other municipal public works (including but not limited to storm sewers, sanitary sewers and street lights) therein, it shall be the duty of the Grantee, after receiving thirty (30) days notice by the Government, to change, remove, relay and relocate its equipment and apparatus, poles, wires, cables, conduits and other fixtures, in the Road at its own expense so as to conform to the established grade or line of such Road and so as not to interfere with such municipal public works so constructed, reconstructed or altered.
- (2) The Grantee shall be given access to all Road plans and specifications in possession of the Government.

- (d) The Grantee shall, at the request of any Person holding a moving permit issued by the Government, temporarily raise or lower its wires to permit the moving of buildings. The expense of such temporary removal or raising or lowering of wires shall be paid by the Person requesting the same, and the Grantee shall have the authority to require such payment in advance. The Grantee shall be given not less than ten (10) business days advance notice to arrange for such temporary wire changes.
- (e) The Grantee shall have the authority to trim trees upon and overhanging public Roads so as to prevent the branches of such trees from coming in contact with the wires and cables of the Grantee. Any trimming, removal or other disturbance of trees shall conform to all Ordinances, requirements and directives of the Government.
- (f) In all areas within the territorial limits of the Lexington-Fayette Urban County Government, where the cables, wires, and other like facilities of public utilities are placed underground, the Grantee shall place its cables, wires, or other like facilities underground. Grantee shall be allowed to utilize micro-trenching technology and construction procedures for the placement of its facilities underground throughout the territorial limits of the Lexington-Fayette Urban County Government. Notwithstanding the foregoing, the Division of Engineering reserves the right to disapprove, which disapproval shall not be arbitrary, discriminatorily or unreasonably applied under the circumstances, the use of micro-trenching on a case-by-case basis by Grantee.
- (g) Micro-trenching. Subject to the following requirements, the Grantee shall have the ability to use micro-trenching construction procedures to install cabling in the Roads:

1. The Grantee's application to utilize micro-trenching construction procedures in the Roads shall be complete and meet all the requirements of the Lexington-Fayette Urban County Government Code of Ordinances, including, but not limited to, Chapter 17C (along with the Utility Regulation, collectively the "Construction Ordinances");
 2. The Grantee shall adhere to the micro-trenching construction procedures set forth in Appendix A(1);
 3. The Grantee's use of micro-trenching construction procedures will not adversely affect the health, safety or welfare of any person;
 4. For purposes of crossing roads, the Grantee shall limit its use of micro-trenching construction procedures to areas where the Grantee uses micro-trenching to install its mainline. For the avoidance of doubt, micro-trenching is different than cross street and directional boring. When cross street or directional boring, the Grantee may install its facilities at a depth of 18 to 24 inches below the pavement or surface;
 5. The Grantee shall comply with all reasonable guidelines adopted by the Government from time-to-time to govern micro-trenching construction in the Roads.
- (h) The Grantee shall provide plans and specifications for all construction within streets to the Government for its review at least 30 days prior to the start of construction unless otherwise agreed to by the Government and Grantee in a separate document governing construction procedures. Any generally required approval of the Government is necessary before construction commences. This provision shall apply to each construction sequence if the construction is accomplished in phases.
- (i) In addition to the provisions contained in this section, Grantee shall comply with all generally applicable local Ordinances pertaining to Road occupancy.
- (j) The Government acknowledges that the vast majority, if not all, of Grantee's facilities that are or would be used to provide Cable Service are Mixed Use Facilities. To the extent that such Mixed Use Facilities use or would use public rights-of-way and such use is also governed by an ordinance or written agreement other than this Ordinance, the provisions of this Section 12 shall not apply to Mixed Use Facilities.
- (k) Utility Easements. Pursuant to the Construction Ordinances, the Grantee is not required to obtain a permit or pay fees before installing aerial or underground facilities (including micro-trenching) in utility easements. The Grantee shall provide the Government notice of its activities through issuance of daily "Street Sheets" to the Government identifying where its crews will be working within the Urban Service Boundary the following day(s) and type of installation activity to be performed (e.g. installation of cable, boring, new pole placement, etc.). Notwithstanding the above, Grantee shall be responsible for complying with any other any other permitting requirements in the Construction Ordinances
- (l) Construction Activity. The Government shall use its commercially reasonable best efforts to process all construction permits and perform all inspections required for the Grantee's project in such a manner that the Grantee may complete up to 450,000 feet of underground and aerial construction a month. Such efforts may include, but are not limited to, adding more personnel to review permit applications and perform inspections. Such commitment is expressly conditioned upon the Grantee's complying with all applicable material provisions of this Ordinance, the Franchise and the Construction Ordinances.
- (1) The Grantee will issue daily "Street Sheets" to the Government identifying where its crews will be working and what type of activities will be performed within the Urban Service Boundary the following day(s). To inform residential consumers of the Grantee's construction

activities, Grantee shall perform the notification process set forth in Appendix A(2). The Grantee shall also work with the Government to integrate its residential customer notification process with the Governments' LexCall customer services processes. The Grantee shall not be required to communicate to the Government its activities with respect to customer service installations.

(m) Permitting Fees: The Grantee shall pay the following permitting fees to the Government:

- (1) \$100 if boring does not exceed 3" in diameter and if coring used for potholing does not exceed 6" in diameter, with the understanding that if coring restoration does not perform as intended then it reverts to surface cut requirements (\$250). Notwithstanding the provisions of this subsection, said borings shall qualify as surface cuts in all manners other than fee amount.
- (2) Micro-trenching qualifies as a surface cut (\$250).
- (3) Subject to Section 12(m)(1) and (2), all other permitting fees as set out in the Construction Ordinances.

Section 13. ERECTION, REMOVAL AND COMMON USES OF POLES (a) No poles or other wire-holding structures to be used exclusively for the provision of Cable Service and/or Mixed Use Facilities shall be erected by the Grantee without generally required prior approval of the Government with regard to need, location, height, type, and any other pertinent aspect. Notwithstanding the foregoing, the Division of Engineering may promulgate separate policies or regulations governing the placement of Grantee's poles or wireholding structures in the right-of-way and utility easements. However, no location of any pole or wireholding structure of the Grantee shall be a vested interest and such poles or structures shall be removed or modified by the Grantee at its own expense whenever the Government determines that the public health, welfare and/or safety would be enhanced thereby.

(b) Poles. Subject to the following requirements, the Grantee shall have the ability to place poles in the Roads:

1. the Grantee's application to place the requested poles in the Roads shall be complete and meet all the requirements of the Lexington-Fayette Urban County Government Code of Ordinances, including, but not limited to, Chapter 17C (along with the Utility Regulation, collectively the "Construction Ordinances") and those set forth in Appendix A(3);
 2. the Grantee is unable to use existing poles in the general area where it wishes to place the requested poles due to high make ready costs or extensive delays gaining access to the existing poles;
 3. the requested poles shall be added to an existing pole line;
 4. the requested poles shall be located on the same side of the road as an existing pole line;
 5. the Grantee will utilize a standoff bracket to attach the Grantee's cable to the requested poles but shall not be allowed to box in other attachers on the poles unless such other attachers are already boxed in;
 6. the Grantee agrees to make any reasonable accommodation requested by the Government to improve the aesthetics of the requested poles in the areas where they are to be located;
 7. the location of the requested poles shall not adversely affect the health, safety or welfare of any person;
9. The Grantee shall make the requested poles available to any other communications provider on just and reasonable terms subject to loading requirements and space

availability. (c) If Grantee locates distribution facilities to be used exclusively for the provision of Cable Service where poles or other wireholding structures already existing for use in serving the Lexington-Fayette Urban County are available for use by the Grantee, but it does not make arrangements for such use, the Government may require the Grantee to use such poles and structures if it determines that the public health, welfare and/or safety would be enhanced thereby and provided the terms of the use, including the time frames to access the poles and structures, available to the Grantee are just and reasonable.

(d) Where the Government or a public utility serving the Government desires to make use of the poles or other wire-holding structures of the Grantee that are used exclusively for the provision of Cable Service, but agreement thereof with the Grantee cannot be reached, the Council may require the Grantee to permit such use for reasonable and proper consideration consistent with applicable law, if the Council determines that the use would enhance the public health, welfare and/or safety and if such use would not unduly interfere with Grantee's operations.

Section 14. CONSTRUCTION STANDARDS AND SPECIFICATIONS

- (a) The Grantee shall at all times comply with the following codes and standards to the extent that such codes and standards are applicable and consistent with local law: (i) National Electrical Code (published by National Bureau of Fire Underwriters)(however the Government reserves the right to require, by generally applicable ordinance, observation of greater standards of safety than said Code); (ii) Standards of Good Engineering Practices for Cable Measurements on Cable Televisions Systems (published by National Cable Television Association); (iii) standards of the Occupational Safety and Health Administration; and (iv) Standards for Steel Antenna Towers and Antenna Supporting Structures (published by the Engineering Department of the Electronic Industry Associations). To the extent that such codes and standards are inconsistent with other provisions of this franchise or with local law, the latter will govern.
- (b) All new construction and new installation shall comply with the National Electrical Safety Code (published by the National Bureau of Standards).
- (c) Installation and physical dimensions of any tower constructed for use in the Cable System shall comply with all appropriate Federal Aviation Agency regulations.
- (d) Any antenna structure in the Cable System shall comply, to the extent applicable, with Construction, Marking and Lighting of Antenna Structures, 47 C.F.R. § 17.1 et. seq.
- (e) The Grantee shall at all times use ordinary care and shall install and maintain in use commonly accepted methods and devices for preventing failures and accidents which are likely to cause damage, injuries, or nuisances to the public.
- (f) The Grantee shall construct and operate the system and related facilities in accordance with all generally accepted related industry codes and standards that are applicable.
- (g) To the extent that such Mixed Use Facilities use or would use public rights-of-way and such use is also governed by an ordinance or written agreement other than this Ordinance, the provisions of this Section 14 shall not apply to Mixed Use Facilities.

Section 15. LINE EXTENSIONS

- (a) The Grantee is hereby authorized to provide Cable Services over a Cable System within the jurisdictional boundaries of the Government, including any areas annexed by the Government during the term of this Franchise. The parties acknowledge that Grantee is the not the first entrant into the wireline video market in the Government's jurisdictional boundaries. The Government

acknowledges the Grantee's position that as a new entrant, investment in and expansion of Grantee's Cable System should be driven by market success, and not a contractual requirement for ubiquitous coverage. The Grantee acknowledges that the Government desires wireline competition throughout the entire Government jurisdictional boundaries so all residents may receive the benefits of competitive Cable Services.

- (b) No later than four years from the Effective Date, Grantee's Cable System shall be technically capable of providing Cable Services as described in the Ordinance, without deployment of additional non-Customer Premises Facilities to all of the Dwelling Units in the Baseline Coverage Area.
- (c) Grantee shall not be obligated to expand its Cable System beyond the Baseline Coverage Area until 27.5% of the Dwelling Units in the Baseline Coverage Area purchase Cable Services from Grantee as reported annually to the Government pursuant to Section 39(d) of the Franchise ("Initial Subscription Threshold"). Once Grantee achieves the Initial Subscription Threshold, Grantee shall expand its Cable System beyond the Baseline Coverage Area so that an additional 5% of the Dwelling Units are able to receive its Cable Services ("Increased Coverage Area"). Thus, once Grantee extends its Cable System to cover all of the Increased Coverage Area, 75% of the Dwelling Units will be able to purchase Cable Services from Grantee. Grantee shall have two years from the close of the fiscal year in which the Initial Subscription Threshold was met to expand its Cable System so that all of the Dwelling Units in the Increased Coverage Area are capable of receiving Grantee's Cable Services. For avoidance of doubt, once the Initial Subscription Threshold is met, Grantee shall be obligated to extend its Cable Services into the Increased Coverage Area regardless of whether Grantee's penetration level in the Baseline Coverage Area falls below the Initial Subscription Threshold at any time thereafter.
- (e) Grantee shall not be obligated under this Franchise to expand Grantee's Cable System beyond the Increased Coverage Area until 27.5% of the Dwelling Units in the Increased Coverage Area purchase Cable Services from Grantee as reported annually pursuant to Section 39(d) of this Franchise ("Additional Subscription Threshold"). Once Grantee achieves the Additional Subscription Threshold, Grantee shall expand its Cable System so that an additional 5% of the Dwelling Units are able to receive Cable Services ("Additional Increased Coverage Area"). Thus, once Grantee extends its Cable System to cover all of the Additional Increased Coverage Area, 80% of the Dwelling Units will be able to receive Cable Services from Grantee. Grantee shall have two years from the close of the fiscal year in which the Additional Subscription Threshold was met to expand its Cable System so that all of the Dwelling Units in the Additional Increased Coverage Area are capable of receiving Grantee's Cable Services. For avoidance of doubt, once the Additional Subscription Threshold is met, Grantee shall be obligated to extend its Cable Services into the Additional Increased Coverage Area regardless of whether Grantee's penetration level in the Increased Coverage Area falls below the Additional Subscription Threshold at any time thereafter.
- (f) The process described in subsection (e) shall be repeated until Grantee is capable of providing service to 98% of the Dwelling Units in the Government ("Maximum Coverage Requirement"). For avoidance of doubt, under no circumstances shall subsection (e) be interpreted to require Grantee to be capable of providing Cable Service to more than 98% of the Dwelling Units in the Government.
- (g) Notwithstanding anything to the contrary in this Section 15, Grantee shall receive credit against future buildout requirements for any voluntary expansions of its Cable System within any Unserved Area beyond the requirement of this Section 15.
- (h) At such time as Grantee is required to meet a 98% coverage obligation, Grantee shall also be required to offer Cable Service to all Dwelling Units within five

thousand (5,000) route-feet of the nearest network aggregation point at which Cable Service is distributed, but shall not be required to relocate or add network aggregation points to so long as the 98% coverage obligation is met.

- (i) Throughout the construction of the Baseline Coverage Area and each subsequent expansion of Grantee's Cable System thereafter, Grantee shall offer Cable Services to Dwelling Units that fall below the median income level as measured by census block group data. During the term of this Franchise, Grantee shall work with the Government in good faith on ways to expand coverage of Grantee's Cable System to Dwelling Units that fall below the median income level.

Section 16. ACCESS TO COMMUNICATIONS FACILITIES AND PROGRAMMING

- (a) The Grantee shall provide TDD (or equivalent) equipment at the Grantee's office that will allow such subscribers to contact the Grantee for any reason relating to the system.
- (b) All television signals transmitted on the cable system shall include any associated closed captioning information for the hearing impaired provided by the programming originator and DVR equipment provided by the Grantee shall be capable of recording all television signals transmitted on the cable system which include associated closed captioning information for the hearing impaired.

Section 17. PUBLIC EDUCATIONAL AND GOVERNMENTAL (PEG) CHANNELS

- (a) The Grantee shall dedicate and activate at no cost to the Government channels for the carriage of non-commercial public, educational and governmental access which shall be available to all subscribers served by the Cable System as follows:
 - (1) one (1) full-time public access channel;
 - (2) one (1) full-time government access channel (herein after referred to as "LEX TV");
 - (3) one (1) full-time access channel for the Fayette County School system;
 - (4) one (1) full-time access channel for the Fayette County Library; and
 - (5) two (2) full-time access channels for the University of Kentucky.
- (b) All channels designated for PEG access purposes shall be available for PEG access programming on a 24-hour basis subject to the provisions of this section. Neither the Grantee nor the Government shall engage in any program censorship or other control of the content of the access programming on the cable system, except as otherwise permitted or required by law.
- (c) Public Access Channel Interconnection.
 - (1) The Government acknowledges that it is in the public interest for all providers of Cable Service in its jurisdiction to offer a public access channel with the same programming and programming schedule so as to eliminate the need for duplicative production and to ensure consistent and predictable programming schedules between what may be multiple providers of Cable Service within the jurisdiction.
 - (2) To the extent that Grantee does not operate a public access studio of its own, Grantee shall be obligated to make commercially-reasonable efforts to obtain, at Grantee's own expense, Public Access Content from a party that operates a public access studio, to the extent that a party does so.
 - (3) To the extent that Grantee's commercially-reasonable efforts to obtain such content are unsuccessful, Grantee's obligation to provide a public

access channel pursuant to Section 17(a) shall be deemed to have been fulfilled, subject to the following:

- (A) Prior to providing Cable Service without a public access channel, Grantee must have engaged in no less than three (3) months of commercially-reasonable efforts to secure access to the Public Access Content. Such period may have been completely prior to the Effective Date.
 - (B) Commencing on the Effective Date or in the first calendar month in which Grantee offers Cable Service without a public access channel, no less than once per calendar month or within ten (10) business days of written request, but no more frequently than twice in any calendar month, Grantee must provide the Government a written description of commercially-reasonable steps that it has taken in attempting to secure access to the Public Access Content. Grantee's continuing obligation to engage in such commercially-reasonable efforts shall expire six (6) months after beginning to provide Cable Service, although Grantee shall be obligated not to unreasonably refuse a commercially-reasonable offer from a party that operates a public access studio in a manner that would be contrary to Sections 17(c)(4)(A) and (B).
 - (C) For avoidance of doubt, Grantee shall be deemed to be engaging in commercially-reasonable efforts to obtain the Public Access Content during periods in which the Grantee is awaiting provisioning of necessary facilities by a party that provides a public access channel within the Government at the time.
- (4) For purposes of this Section 17(c), Grantee shall not be considered to have been engaged in commercially-reasonable efforts under any of the following conditions:
- (A) It is unwilling to reimburse the party that operates a public access studio no less than annually for a share of reasonable actual public access studio, program processing, and program scheduling costs (which may include an allocation of staffing and overhead) attributable to the creation and processing of Public Access Content based on a reasonable estimate of Grantee's share of the wireline video market in the Government for each of the period of time to which such payment pertains.
 - (B) It is unwilling to pay market-based retail rates for video signal transport facilities reasonably necessary for the Public Access Content to be delivered to Grantee by the party operating a public access studio should such party be unwilling to permit Grantee to acquire the Public Access Content at the Grantee's premises.

Section 18. EMERGENCY ALERT OVERRIDE AND CHANNEL

- (a) The Grantee shall comply with applicable Federal and Kentucky law and regulations regarding the Emergency Alert System and, to the extent not consistent therewith, shall incorporate into its cable television system the capability which will permit the Government, in times, of emergency, to override, by remote access, the audio of all channels simultaneously.
- (b) The availability of this service is provided for the benefit of the community and neither the Government nor the Grantee nor any of their agents, employees, or officers shall be liable in any manner for failure to use or for misuse of the override system.

As provided in applicable law, the Grantee shall cooperate with the Government in the use and operation of the emergency alert override system.

Section 19. ANTENNAS AND ANTENNA SWITCHES

The Grantee shall not, as a condition to providing Cable Television Service, require any Subscriber, or potential Subscriber, to remove any existing antenna for the receipt of over-the-air television signals.

Section 20. STANDBY POWER

The Grantee shall install and maintain equipment capable of providing two (2) hours standby power for the headends.

Section 21. PROOF OF PERFORMANCE TESTING

(a) Tests and Measurements Generally. To the extent Grantee's Cable System is subject to the provisions of 47 C.F.R. 76.609, Grantee shall perform tests and measurements to ensure compliance with technical standards in a manner that is consistent with the provisions of 47 C.F.R. 76.609, et seq., to the extent applicable and as amended from time to time.

(b) Government's Rights.

(1) When there have been similar complaints made, or where there exists other evidence, which, in the reasonable judgment of the Government, casts doubt on the system's compliance with applicable FCC technical standards or any of the standards contained in this Ordinance, the Government shall have the right and authority to compel the Grantee to produce copies of the reports of testing performed to comply with Section 21(a) above with respect to the performance of the Cable System of the Grantee or to test, analyze and report on the performance of the system. Such test or tests shall be made, and the reports of such test or tests shall be delivered to the Government as required in Section 22.

(2) The Government's right under this provision shall include, but not be limited to, requiring tests, analyses, and reports covering specific subjects and characteristics based on complaints or other evidence when and under such circumstances as the Government has reasonable grounds to believe that the complaints or other evidence require that tests be performed to protect the public against substandard Cable Service.

(3) Said tests and analyses shall be supervised by a registered professional engineer, not on the permanent staff of the Grantee and selected jointly by the Government and the Grantee. The aforesaid person shall sign all records of special tests and forward to the Government such records with a report interpreting the results of the tests and recommending actions to be taken by the Government. Any tests or measurements required by the Government to be taken pursuant to this Section should be reported to the Government within fourteen (14) days after such tests or measurements are performed. Such report shall include the following information: the nature of the complaint which precipitated the special tests; what system component was tested, the equipment used and procedures employed in said testing; the results of such tests; and the method in which such complaints were resolved.

(4) The costs of testing required under this Franchise shall be borne by Grantee if the tests demonstrate the Grantee is not in compliance with applicable FCC standards. Otherwise, the cost shall be borne by the Government.

Section 22. PROOF OF PERFORMANCE RECORDS

(a)(1) The results of all tests and measurements required to be taken by the

Grantee in Section 21 of this Ordinance shall be delivered to the Government within thirty (30) days after such tests or measurements are performed upon request.

(a)(2) Upon request, the Grantee shall prepare a technical report that describes details of any initial cable system construction plans as described in this section. The technical report shall include the following details and be submitted and approved by the Government before construction:

A. Justification of the site selected, including:

- i. listing of television and FM radio stations carried on the system
- ii. location of microwave terminals
- iii. location of local origination centers
- iv. location of antenna site
- v. distance from antenna site to farthest area served by the system
- vi. height of tower
