RE: **Federal Communications Commission License – Public Safety Radio Project**

Please find attached resolution between the Federal Communications Commission and Lexington-Fayette Urban County Government (LFUCG).

The Public Safety Radio Project is reaching a critical point as our vendor begins design of the infrastructure and orders equipment for the tower sites. Delays in the project while awaiting legislation could give the vendor a valid excuse to avoid penalties for failing to complete the project in time to meet the FCC requirement. The Division of Police is requesting approval of the attached resolution, authorizing Mayor Gray, or his designee, to execute any necessary documents with the Federal Communications Commission as part of this project. The documents are primarily administrative and enable this government to reserve certain FCC frequencies for public safety use.

Attached is a draft resolution prepared by David Barberie, Department of Law, which meets our needs for a resolution. It is imperative that this resolution receive two (2) reading prior to Council Break.

Upon approval and signing, please forward a copy of the resolution to my office.

A handwritten signature in cursive script that reads "Ronnie Bastin".
