Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;

(2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

This assurance is required by subsection 21.7(a) (1) of the Regulations.

- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

Scope of Services

Design of West Hickman Salt Barn

Salt Barn Site – 645 West Hickman Plant Road, Nicholasville, Kentucky

The Lexington-Fayette Urban County Government (LFUCG) is accepting qualification statements from interested Consulting Engineering firms for the development of construction plans, specifications and bid documents for a site layout and structure design for construction of a Salt Barn and associated facilities at 645 West Hickman Plant Road, Nicholasville, Kentucky.

GENERAL PROJECT DESCRIPTION

LFUCG wishes to construct a 12,000 square foot / 7,000 ton capacity salt barn on the existing concrete pad located at the West Hickman Wastewater Treatment Plant (WHWWTP). The existing pad was constructed in the 1990's as a sludge composting pad. Existing infrastructure in direct proximity to the site includes:

- Sanitary sewer piping (existing compost drains)
- Storm water piping
- Electric power

LFUCG wishes to construct the new salt barn utilizing as much existing infrastructure as possible with a layout that allows for the construction of ancillary facilities at a later date. **LFUCG has a preferred salt barn design and intends to purchase the pre-engineered plans directly from the manufacturer and provide them to the selected consulting firm.** The preferred location and orientation of the barn is shown in Attachment A. The primary objective of this scope is to design a functional salt barn / site that contains the salt in an environmentally responsible manner and award a construction contract for such.

PRELIMINARY DESIGN MEMORANDUM

The Consultant shall prepare a Preliminary Design Memorandum (PDM) that provides a basis for final design. Using existing information provided by the LFUCG, the Consultant should develop a preliminary layout for the salt barn facility so that geotechnical evaluations and drainage improvements, separate from this scope, can be undertaken by LFUCG. The Preliminary Design Memorandum should be comprehensive enough to provide the following detail:

1. Preliminary site evaluation plan
 - a. Site topography and all existing features (trees, utilities, property lines, easements, and drainage features) within the footprint designated by LFUCG.

- b. Proposed location of the 12,000 square foot / 7,000 ton capacity salt barn and the general location of all utilities essential to provide functional service to the barn.
- c. Proposed locations for individual subsurface geotechnical exploration that will be conducted under a separate scope.
- d. Conceptual locations for future improvements, including but not limited to: location of salt brine maker, location of chemical storage tanks, location of a 5,000 square foot office facility serving as a “gate house” to the overall 200 acre facility, location of entrance / exist gates and perimeter fencing and the location of all utilities essential to providing future service the future improvements.

2. Text, no more than ten pages in length, identifying the following:

- a. Discussion regarding the approach in developing the PDM.
- b. The Consultants conclusions and recommendations.
- c. The Preliminary Site Evaluation Plan
- d. Identified risks contained in the PDM’s conclusions, site plan or recommendations.
- e. Separate and distinct preliminary cost estimates for:
 - i. Constructing the 12,000 square foot / 7,000 ton capacity salt barn and site improvements essential for the functional use of the barn.
 - ii. Installing the chemical tanks and salt brine maker along with the utilities essential for the functional use of those improvements.
 - iii. Installing the perimeter fencing and gates necessary for securing the site while allowing for the future construction of the 5000 square foot “gate house”.

PDM shall be submitted to LFUCG electronically in pdf format. Preliminary cost estimates, must be submitted electronically both in the PDM pdf format and in Excel format. The Preliminary Site Plan document shall utilize aerial photograph imagery, Geographical Information System (GIS) data, and limited digital topography as necessary to clearly illustrate the opportunities and constraints associated with the site. LFUCG will provide GIS shapefiles, record drawings and applicable available records necessary to supplement the content of the PDM.

FINAL DESIGN

Interested Consultants should base their design fee in the effort needed to prepare plans, edit specifications, and obtain permits, bid and award construction of the 12,000 square foot salt barn and site improvements essential to the functional use of the barn. At the conclusion of the PDM phase, LFUCG will determine if the other project elements will move forward to the design phase. Negotiations for additional design services may occur at that point, at the sole discretion of LFUCG.

Separate from this scope, LFUCG will procure the following services:

- A. Geotechnical Services – all geotechnical services will be completed by a firm procured by LFUCG. LFUCG will utilize information provided in the PDM to complete the geotechnical investigations then provide that information to the Consultant to use during the design phase. LFUCG will provide the Geotechnical Report for inclusion in the project specifications.
- B. Electrical Service – electrical service will be installed by LFUCG and its contractors to a point (service pole) determined during the PDM. The Consultant will be responsible for design of the electrical service from the service pole to the facilities.
- C. Site Stormwater Improvements – LFUCG will utilize the PDM to procure a separate consultant to design site stormwater improvements.

After review and acceptance of the Preliminary Design Memorandum (PDM), LFUCG will direct the Consultant to develop construction plans, edit specifications, review contract documents and develop a detailed cost estimate based on the plans and specifications. Construction plans shall provide sufficient detail to allow a general contractor to conduct the pre-engineered, 12,000 square foot / 7,000 ton capacity salt barn along with the essential utilities needed to operate the facility, The plans should reflect the location and capacity of the electrical service provided by LFUCG and define how stormwater from the barn site will be conveyed to the conveyance facilities provided by LFUCG. The plans should also provide sufficient detail for constructing any additional improvements authorized by LFUCG at the conclusion of the PDM phase along with reflecting areas designated for future use. **THE CONSULTANT IS RESPONSIBLE FOR THE OVERALL LAYOUT OF THE SITE SO THAT INGRESS AND EGRESS TO PRESENT AND FUTURE INFRASTRUCTURE IS AS EFFICIENT AS POSSIBLE.**

The construction plans shall be developed in accordance with the current editions of the LFUCG Design Manuals and the Kentucky Building Code, and shall generally include the following items:

- a. All topography, including utilities and utility pole ownership information. All mapping will be the responsibility of the Consultant.
- b. Proposed regrade contours shall be shown on the plans.
- c. A plan for erosion and sediment control as well as a Storm Water Pollution Prevention Plan utilizing BMPs as described in the LFUCG Storm Water Manual.
- d. All necessary general and site-specific sheets, including those of the selected building manufacturer, required to construct the salt barn and accessory features necessary for functionality of the salt barn. The building manufacture must have a Professional Engineering license in Kentucky certify the construction plans. As built plans certified by a

- licensed Professional Engineer in Kentucky shall be provided with acceptance of structure.
- e. Preparation of site for construction of a Salt Barn. The anticipated structure is a 12,000 +/- square foot pre-engineered structure utilizing continuous wall footers, with a floor system designed for storage and containment of road deicing material. A level asphalt pad shall be designed to accommodate a prefabricated structure having an approximate footprint of 170' by 90' and containing no columns, with 30' clearance on all sides.
 - f. Site facilities and general dimensions for the overall layout of the current compost pad layout including existing structures, salt barn and any other facilities included in the final design of this scope and all other future site improvements noted in Item 1.d of the Preliminary Design Memorandum scope.

The Consultant shall be responsible for ensuring that all applicable permits are obtained prior to issuing a Notice to Proceed (NTP) to LFUCG (LFUCG will be responsible for issuing a separate NTP to the selected contractor. Applicable permits include but not limited to:

- a. "Kentucky General Permit" (KYR10)
- b. KYR10 "Notice of Intent" (NOI) and "Notice of Termination" (NOT) for construction activity.
- c. Jessamine County Building Permit and Grading Permit (if applicable)
- d. In the event that Above Ground Storage Tanks (ASTs) are included in the final design documents, the Consultant will prepare and oversee submission of necessary permits and obtain approvals as required from the Kentucky Division of Solid Waste, the State Fire Marshall and the Jessamine County Division of Building Inspection.

3. Specifications

To the maximum extent practical, the Consultant shall utilize standard specifications as provided by LFUCG.

4. Detailed Cost Estimates

Two cost estimate submittals are expected: 1) the Preliminary Design Memorandum cost estimates and 2) the Bid Set detailed cost estimate.

Detailed construction cost estimates with the construction plan submittal shall include all improvement costs associated with project elements authorized by LFUCG prior to final design, including the following considerations:

- a. Connection of the salt runoff containment area to piping and surface water detention facilities constructed under a separate contract.
- b. Connection of a 500 amp power service from a pole location installed by LFUCG to outlets and fixtures essential for the functional operation of the salt barn facility. Outlets for plug in of 15 engine block heaters should be provided.

4. Rights-of-Way and Easements

It is anticipated that no right-of-way acquisitions are required for this project, and consequently, no acquisition plats.

5. Drawing Scales, Units, and Unit Conversion

All quantities measured, calculated, and specified shall be in English units (e.g., feet, pounds).

All drawings shall be prepared on Architectural D size sheets (24" x 36") and conform to the follow scales:

- | | |
|--------------------------|--|
| a. Site Plan | 1" = 50' horizontal
1" = 20' vertical |

| c. Profile Sheets | 1" = 20' horizontal
1" = 2' vertical |
| d. Cross sections sheets | 1" = 5' horizontal

6. Pavement Design

It is anticipated that pavement design efforts will be limited to the salt barn asphalt pad and barn approach aprons deemed essential to the overall functionality of the barn.

7. Utility Company Coordination

The site is an existing LFUCG facility and most if not all utilities are available downstream from LFUCG service meters. Any utility coordination required for this project will be coordinated by LFUCG's Division of Water Quality.

8. Distribution of Plans and Specifications for Bidding

The Consultant shall deliver all final bid documents to a local private printer for reproduction and distribution to all potential bidders. The private printer will be identified at a later date. The Consultant shall address, via addenda, questions that arise during Contractors’ preparation of bids.

If the parties cannot mutually agree to an extension of time or an adjustment, Section 6.5 under “DISPUTES” of this Agreement shall apply. 6.5. Disputes

Except as otherwise provided in this Agreement, any dispute hereunder may be resolved by agreement of the **OWNER'S** Agent (Section 8.1.1) and the **CONSULTANT**.
