Lexington, KY 40511

RE: Proposal for Additional Services  
North Elkhorn Sanitary Pump Station Survey and Easement Services

Mr. Martin:

Banks Engineering is pleased to present this proposal for additional services related to the subject project. Based on recent discussions and the course of the project to date, we will be performing services beyond the scope of our original agreement. Changes to our scope involve the following work elements:

1. Boundary survey for a separate tract on the 1941 Hume Road parcel. At the time of our original contract, it was believed that this small parcel was incorporated into the larger tract.
2. Additional work on the plat being developed for 1941 Hume Road to show the Tract 2 described in Item 1 above, with it being consolidated into the larger Tract 1 (if the property owner requests the consolidation).

Below is a summary of the proposed fees for the work included in this proposal:

1941 Hume Road Tract 2 boundary survey: \$2,500

Additional plat information and details: \$2,000

Total Additional Fees: \$4,500

*endorsed  
C/tny 3-16-26*

Please review this proposal at your convenience and contact me with any questions or comments. Thank you for the opportunity to continue our work with you on this project.

Very truly yours,  
**Banks Engineering, Inc.**

John B. Steinmetz, P.E.  
Senior Engineer
