**4. BID SCHEDULE – SCHEDULE OF VALUES**

The Bidder agrees to perform all the Work described in the Specifications and shown on future Plans for the following proposed unit prices, if applicable, which shall include the furnishing of all labor, materials, supplies, equipment and/or vehicle usage, services, all items of cost, overhead, taxes (federal, state, local), and profit for the Contractor and any Subcontractor involved, within the time set forth herein. If unit prices are applicable, Bidder must make the extensions and additions showing the total amount of bid.

In addition to completing the following schedule of values, bidders shall enter their unit prices on the attached Excel spreadsheet (Available through the LFUCG Economic Engine Marketplace), titled *Construction Unit Price Contract P&R Bid Schedule.xls*, and submit it with their bid on a CD or flash drive. Any discrepancies between entries in the table below and the electronic spreadsheet will defer to the unit price as written in the schedule below.

**The Bidder is not required to bid on every item listed in the bid schedule. In instances where the Bidder chooses not to bid on a specific item, the Bidder shall enter the phrase “No Bid” in the unit price column for that respective item. However, Bidders are cautioned that failure to submit a unit bid price on an item will disqualify the Bidder from any project requiring that item, even if they have submitted unit bid prices for all other work items pertaining to that particular project.**

Form of proposal must include unit bid prices written in words and unit price written in numbers per line item OR bid may be considered non-responsive. In case of price discrepancy, unit bid price written in words will prevail followed by unit price written in numbers per line item.

If the unit price and the item total are illegible or are omitted, the bid may be determined nonresponsive.

For a unit price based bid, the sum of the item totals is the bid amount the Division uses for bid comparison.

The LFUCG’s decision on the bid amount is final.

Mobilization, Traffic Control, Construction Staking, and E&S Permitting will be paid on a sliding percentage scale for increments of the final price for Work, per the table below.

For example, if the final total of Bid Item Prices for the Work is \$24,000, Mobilization would be (\$10,000 X 15%) plus (\$10,000 X 10%) plus (\$4,000 X 5%) = \$2,700).

No additional compensation will be paid beyond a contract price of \$100,000. For example, the mobilization cost for a \$100,000 price of Work will be identical to that for a \$110,000 price of Work.

Applicability of Traffic Control, Construction Staking, and E&S Permitting will be agreed upon individually for each Purchase Order.
