

MEMORANDUM

TO: Planning Commission

THROUGH: Susan Plueger, Director

FROM: Tim Queary, Urban Forester *T.Q.*

CC: Jeff Neal, Director, Traffic Engineering
Nancy Albright, Commissioner, Environmental Quality and Public Works

DATE: March 31, 2021

RE: Proposed text amendment to the Land Subdivision Regulations

The Divisions of Environmental Services and Traffic Engineering in the Department of Environmental Quality and Public Works are proposing a text amendment to the Land Subdivision Regulations; Article 6-10(b)(2) and 6-10(c)(1). The proposed text amendment is noted below.

No street tree shall be located in the right-of-way within (75) feet of the intersection. The current regulations list the distance at (50) feet.

The text amendment will help to insure that street trees planted in the right will not obstruct intersections in future developments.
