This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

- (4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

- (1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.
- (2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

AMERICAN RESCUE PLAN ACT

AMENDMENT 1 — CERTIFICATION OF COMPLIANCE FOR EXPENDITURES USING FEDERAL FUNDS, INCLUDING THE AMERICAN RESCUE PLAN ACT

The Lexington-Fayette Urban County Government (“LFUCG”) may use Federal funding to pay for the goods and/or services that are the subject matter of this bid. That Federal funding may include funds received by LFUCG under the American Rescue Plan Act of 2021. Expenditures using Federal funds require evidence of the contractor’s compliance with Federal law. Therefore, by the signature below of an authorized company representative, you certify that the information below is understood, agreed, and correct. Any misrepresentations may result in the termination of the contract and/or prosecution under applicable Federal and State laws concerning false statements and false claims.

The bidder (hereafter “bidder,” or “contractor”) agrees and understands that in addition to all conditions stated within the attached bid documents, the following conditions will also apply to any Agreement entered between bidder and LFUCG, if LFUCG uses Federal funds, including but not limited to funding received by LFUCG under the American Rescue Plan Act (“ARPA”), toward payment of goods and/or services referenced in this bid. The bidder also agrees and understands that if there is a conflict between the terms included elsewhere in this Request for Proposal and the terms of this Amendment 1, then the terms of Amendment 1 shall control. The bidder further certifies that it can and will comply with these conditions, if this bid is accepted and an Agreement is executed:

1. Any Agreement executed as a result of acceptance of this bid may be governed in accordance with 2 CFR Part 200 and all other applicable Federal law and regulations and guidance issued by the U.S. Department of the Treasury.
2. Pursuant to 24 CFR § 85.43, any Agreement executed as a result of acceptance of this bid can be terminated if the contractor fails to comply with any term of the award. This Agreement may be terminated for convenience in accordance with 24 CFR § 85.44 upon written notice by LFUCG. Either party may terminate this Agreement with thirty (30) days written notice to the other party, in which case the Agreement shall terminate on the thirtieth day. In the event of termination, the contractor shall be entitled to that portion of total compensation due under this Agreement as the services rendered bears to the services required. However, if LFUCG suspects a breach of the terms of the Agreement and/or that the contractor is violating the terms of any applicable law governing the use of Federal funds, LFUCG may suspend the contractor’s ability to receive payment by giving thirty (30) days’ advance written notice. Further, either party may terminate this Agreement for cause shown with thirty (30) days written notice, which shall explain the party’s cause for the termination. If the parties do not reach a settlement before the end of the 30 days, then the Agreement shall terminate on the thirtieth day. In the event of a breach, LFUCG reserves the right to pursue any and all applicable legal, equitable, and/or administrative remedies against the contractor.
3. The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:
 - (1) Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and

applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

- (2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.
- (3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.
- (4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- (5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.
- (6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.
- (7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part, and the contractor may be declared ineligible for further government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
- (8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance.

Provided, however, that in the event a contractor becomes involved in or is threatened with litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

EQUAL OPPORTUNITY AGREEMENT

Standard Title VI Assurance

The Lexington Fayette-Urban County Government, (hereinafter referred to as the "Recipient") hereby agrees that as a condition to receiving any Federal financial assistance from the U.S. Department of Transportation, it will comply with Title VI of the Civil Rights Act of 1964, 78Stat.252, 42 U.S.C. 2000d-4 (hereinafter referred to as the "Act"), and all requirements imposed by or pursuant to Title 49, Code of Federal Regulations, U.S. Department of Transportation, Subtitle A, Office of the Secretary, (49 CFR, Part 21) Nondiscrimination in Federally Assisted Program of the Department of Transportation – Effectuation of Title VI of the Civil Rights Act of 1964 (hereinafter referred to as the "Regulations") and other pertinent directives, no person in the United States shall, on the grounds of race, color, national origin, sex, age (over 40), religion, sexual orientation, gender identity, veteran status, or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Recipient receives Federal financial assistance from the U.S. Department of Transportation, including the Federal Highway Administration, and hereby gives assurance that will promptly take any necessary measures to effectuate this agreement. This assurance is required by subsection 21.7(a) (1) of the Regulations.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

Public Safety Logging Recorder

Introduction

Lexington 911, in partnership with other Lexington-Fayette Urban County Government (LFUCG) Divisions, is seeking bids for a logging recorder solution. All responses submitted should be for a solution that is compatible with the current NexGen 911 (NG9-1-1) goals and objectives defined by the National Emergency Number Agency (NENA) in NENA-STA-010.3e-2021, NENA i3 Standard for Next Generation 9-1-1.

In addition to NG9-1-1 roadmap compliance all proposed solutions should be able to demonstrate existing interoperability with the technology utilized by LFUCG through references from other agencies where this solution is deployed. Current LFUCG technology that a logging recorder must integrate with includes; Solacom Guardian (9-1-1 Call Handling), Tait P25 Radio Core and an Avaya IP administrative phone system. Additional details regarding these solutions can be found below.

Project Description

Our agency is seeking a qualified and experienced contractor or contractors to provide a Next Generation 9-1-1 (NG9-1-1) System to handle logging of all calls placed to 9-1-1 regardless of the network of origin (PSTN, VoIP, or other IP based originating sources) or type of call (IP, Analog, Text, Multimedia Data, etc.).

The agency recognizes that a robust NG9-1-1 system capable of logging all inbound and outbound requests for assistance in an efficient and accurate manner is critical to the safety of both the public and field responders. The agency desires to purchase an NG-1-1 capable system that will meet both its current and future needs. Reduced overall system cost is certainly a goal. However, interoperability, innovation, cybersecurity, enhanced capability, diagnostics, and a system architecture designed to accept future types of calls are some of the most important objectives of this project.

The intent of this RFP is to replace the existing logging recorder system(s) with a truly capable NG9-1-1 solution. This RFP focuses on supporting a complete turnkey installation that meets all operational requirements and includes specifications for not only interconnected systems but truly interoperable Systems. Lexington 911 seeks a solution that provides us the ability to log requests for emergency assistance and all related data such as location information and callback numbers from the public, then process and share the information obtained in those requests both during and after a call for service (CFS) has ended for quality control, liability, and investigative purposes.

General Instructions

The evaluation and selection of a contractor and the contract will be based on the information submitted in the vendor's proposal plus references and any required on-site visits or oral presentations.

Each point-by-point response from the bidder must be answered with one of the following responses:

Comply – The proposed solution will fully meet the requirement(s), functionality is currently supported in the current product software release.

Exception – The proposed solution complies partially with this requirement; with exceptions explained in detail. If a vendor takes exception but an alternative to the requirement is recommended, the alternative must be explained, and any cost identified. Exceptions will be evaluated and considered but are not necessarily acceptable solutions to the requirement as expressed nor are they automatic disqualifications.

Does not Comply – The proposed solution does not fully comply with this requirement.

Vendor Response / Explanation – All responses require a detailed explanation of the vendor's answer.

Respondents must complete and return the entire RFP packet. Once all packets have been received, opened, and recorded, a team representing Lexington's stakeholder divisions will evaluate the information provided and make a recommendation to the purchasing authority. Lexington shall be the sole judge in determining how the evaluation process shall be conducted and what vendors shall be considered. Lexington may conduct such investigations, as it considers necessary, to assist in the evaluation of vendor-provided information to establish the responsibility, qualifications, and financial ability of any potential vendor. Vendors are expected to put forth their "best and final" pricing as a component of this bid. While price will not be the only factor considered in selecting a vendor, cost to the organization is a critical factor. Lexington reserves the right to reject any and all Proposals, in part or in whole, and to award to the most responsive and responsible firms as deemed in the best interests of the Agency; further, the right is reserved to waive any formalities or informalities contained in said proposals. All proposals and copies thereof are to be prepared and submitted at the submitter's expense. Also note, upon submittal to Lexington, the proposals may become a public record and are subject to the Agency's FOIA guidelines. The respondent may request certain sections of the response that contain proprietary business intelligence or system technical details be redacted if such redaction is allowed under agency policy and governing law.

All optimization procedures shall be executed prior to conducting the field ATP and the final as-built documentation shall be complete and ready for LFUCG review.

Warranty Maintenance and System Support

The Proposer guarantees that all equipment supplied pursuant to this solicitation will be new and of first quality throughout. The Proposer shall warrant that the System shall be free of Errors and Bugs. The system warranty shall commence on the day that the LFUCG grants final system acceptance. The Vendor shall provide the Services specified in Maintenance.

All items (material and labor) shall be warranted for a minimum of one (1) year after the date of final system acceptance, unless otherwise specified in the specification. This warranty shall include repair or advanced replacement of any defective equipment, system, subsystem, hardware and/or software which becomes defective through normal wear and usage or is deemed as such between the LFUCG and the Proposer.

When parts under warranty are replaced, the LFUCG requires that the replacement part also be new and not factory-refurbished. The Proposer shall fully integrate and test all spare parts prior to final system

acceptance. No replacement parts shall be integrated that provide less functionality or diminished capacity than the original equipment to be replaced. A new twelve-month warranty period should begin when a new part is installed as a replacement to a defective part under warranty. All warranty and maintenance issues shall be tracked by the Proposer and its service organization using an electronic database that the LFUCG can query at any time.

Proposer support is defined as the ability of the Proposer to remedy to LFUCG satisfaction any hardware and/or software problem with any equipment and services provided as part of this offering. Proposer support shall take the form of a 24x7x365 technical support hotline, two-hour on-site response time, advanced board replacement, product engineering, field service technicians, and field engineering. Proposer support also requires the Proposer to be able to provide new and/or equivalent spare/replacement hardware and software equipment for the proposed offering for not less than four (4) years from the date of final system acceptance. Equivalent spare/replacement hardware and software provided during the entire support timeframe shall not necessitate any platform upgrade or subsystem reconfiguration.

System Software and Hardware Warranty

The equipment supplied pursuant to this solicitation and any subsequent agreement is warranted by the Proposer to be free from defects in materials, workmanship and otherwise for one year from final acceptance of the proposed system unless otherwise provided in this solicitation and any subsequent agreement.

The Proposer shall warrant that the system and each component of the system shall perform in strict accordance with the requirements of this solicitation and any subsequent agreement and shall be completely free of system defects, including latent defects for at least one year after the date of final system acceptance. Unless otherwise provided herein, all equipment shall be warranted for a period of one year after the date of final system acceptance. The warranty period for non-Proposer manufactured equipment is as specified by its manufacturer, but not less than one year after the date of final system acceptance. The Proposer maintains sole responsibility for settling and coordinating all warranty issues with OEM Proposers on behalf of LFUCG throughout the entire warranty and maintenance period.

The proposed system release/platform being offered shall not be the last of its type or version regarding future software and hardware compatibility. The next software release compatible with the system shall not require new hardware to support the existing functions of the system. If parallel system software development has been undertaken by the Proposer, and the software release in LFUCG's system is abandoned (no further development or support) or obsoleted, the Proposer shall completely upgrade LFUCG's system to the surviving software release at no expense to LFUCG.

At no additional cost to LFUCG, the Proposer shall provide and completely integrate all hardware, firmware, software releases or patches that are required to correct any latent functionality or software defect that may exist in the proposed system (including system failures resulting from software problems, functionality fixes, and software upgrades to LFUCG's system), for a four (4) year period from the date of final system acceptance. This responsibility is to include any upgrades to fixed network

equipment, and system management systems. For the life of the contract and the contract maintenance period, the Proposer shall provide, at a minimum, the opportunity to refresh software for all system equipment on a semi-annual basis to take advantage of enhancements and defect resolutions.

In the event a defect is found in another customer or field system that utilizes the same or similar release as LFUCG's system, the Proposer shall notify and advise LFUCG of the defect and when a new hardware, firmware, software release or patch will be available to correct the problem. At such time, LFUCG shall decide whether it will require an upgrade prior to observing the defect. Notification should occur regardless of whether LFUCG is currently affected by this defect. The Proposer shall be responsible for providing monthly product quality bulletins for all Proposer and OEM equipment and software contained in the proposed network in electronic fashion to LFUCG Project Manager and System Manager during the course of system implementation and the entirety of the warranty and contract maintenance phases.

The software release in LFUCG's system at the time of final system acceptance shall be the latest version available at the time of shipment from the Proposer's development and manufacturing facility. The Proposer assumes responsibility for all equipment and services to implement the latest system equipment software versions prior to final system acceptance. Under all warranties provided, all parts shall be replaced free of charge including labor. The Proposer may replace equipment, software, or components rather than repair them, at the Proposer's option.

Whenever defective work (and damage resulting from such a remedy) has been corrected, removed, or replaced under warranty, the warranty period with respect to such defective work shall be extended for an additional period of one (1) year after such correction or removal and replacement has been satisfactorily completed.

Equipment Support

The Proposer shall warrant support in the form of replacement parts for all system hardware and software equipment for four (4) years from the last date of manufacture of the product. The Proposer shall use commercially reasonable efforts to identify and to obtain replacement parts to meet or exceed LFUCG's specific maintainability requirements. The Proposer shall electronically issue all product cancellation notices to LFUCG Project Manager and System Manager throughout the entire system implementation and maintenance periods. The Proposer shall provide product cancellation notices within two weeks of the official announcement. These cancellation notices serve the basis for the four (4) year support guarantee. The Proposer is responsible throughout the project implementation and contract maintenance period for remedying and re-designing, at no cost to LFUCG, any system design affected by the cancellation of equipment or software which reduces the four (4) year product support guarantee. Prior to final system acceptance, no equipment or software shall be included with the system offering that has been identified or announced for cancellation.

Spare Parts Inventory

The cost of replacement parts shall be quoted as part of the Proposer's proposal. Parts pricing shall be in the form of a standard discount from the OEM or Proposer's list price equivalent to those provided to

dealers or Proposer-authorized service shops. This discount level shall be part of the attached pricing sheets. The Proposer also shall provide a comprehensive pricing matrix or book defining the OEM and Proposer list prices for all relevant hardware and software for the proposed system platform. This comprehensive pricing matrix shall serve as the definitive ordering guide for all future system equipment purchases. The parts pricing level shall remain intact for a period not less than four years following final system acceptance.

Spare parts required for this system shall include sufficient parts, modules and components to restore the system to full redundancy during a system or subsystem failure. The Proposer shall fully integrate and test all spare parts prior to final system acceptance. When not specifically addressed in this specification, the Proposer shall recommend and price accordingly the spares necessary to maintain the required availability levels for the various subsystems.

Warranty Maintenance Performance Levels

The Proposer shall provide all labor, parts, tools, and test equipment required for the maintenance of the system through the warranty period and any extensions thereof covered by a contracted maintenance agreement. The Proposer shall provide a recommended system management plan (personnel and location) to ensure operational efficiency, monitoring, and control. The Proposer also shall provide information regarding key personnel; training/specialization; number of personnel; equipment required for analysis and troubleshooting; optimization; and schedules for preventive maintenance.

The Proposer shall propose a yearly maintenance program for 3 years and to commence after the conclusion of the system warranty period. This maintenance plan shall include parts and labor; 24/7/365 infrastructure support; 2-hour response for Critical issues; 24-hour response for High Priority issues.

Severity Level, Problem Types

Critical - Response is provided continuously - Major System failure - Issues and problems that jeopardize or degrade any part of the System. - This level is meant to represent a major issue that results in an unusable system, sub-system, Product, or critical features from the Customer's perspective. No Work-around or immediate solution is available.

High Priority – Initial response during same standard business day - Significant System Impairment not to exceed 33% of system down - System problems presently being monitored - This level is meant to represent a moderate issue that limits a Customer's normal use of the system, sub-system, product, or major non-critical features from a Customer's perspective

Non-critical - Intermittent system issues - Information questions - Upgrades/Preventative maintenance - This level is meant to represent a minor issue that does not preclude use of the system, sub-system, product, or critical features from a Customer's perspective. It may also represent a cosmetic issue,

including documentation errors, general usage questions, recommendations for product enhancements or modifications, and scheduled events such as preventative maintenance or product/system upgrades.

Proposals shall provide a complete description of the intended preventive maintenance methodology and shall specify the frequency of preventive maintenance required for all proposed equipment and systems. Preventive maintenance shall be performed according to a schedule that is mutually acceptable to LFUCG and the Proposer. The Proposer shall include in its proposal an example of an actual, completed preventive maintenance regimen representative of what will be provided with the proposed system and corresponding maintenance phases. The schedule shall be consistent with the operation requirements of LFUCG and shall be based upon the specific needs of the equipment being maintained.

The Proposer shall include in its proposal a description of any remote administration and maintenance service arrangements that will be provided with the proposed system. The qualifications and individual resumes (noting years of experience, training, schooling/degree, customer references, etc.) of all proposed maintenance service provider staff shall be provided in the Proposer's proposal response. All service providers may be required to submit to routine background investigations conducted by LFUCG to ensure system integrity in concert with security policies and initiatives. In the pricing response, the Proposer shall quote the annual costs for comprehensive, turnkey system maintenance for all proposed equipment for a period of three (3) years following final system acceptance noting all available discounts, incentives, and economies of scale. The Proposer also shall include a standard contractual service agreement and associated comprehensive, detailed statement of work with the maintenance quotation.

Maintenance Documentation

The Proposer shall furnish to LFUCG enough equipment and maintenance manuals and customized system drawings of commercial standard with sufficient information included therein so that an average technician or engineer with basic electronic knowledge and experience, but unfamiliar with the system, will be able to define its operations and perform corrective and preventive maintenance. The manuals shall note in detail any special circuitry, special wiring, special interfacing, special tools/instruments and custom or non-standard procedures required to operate, maintain, and install any of the equipment furnished under this solicitation and any resulting agreement. All documentation shall be specifically applicable and customized to the system, except documentation for standard issue equipment which may be standard issue documentation. The Proposer shall warrant that any inability of County or subcontracted technicians or engineers to perform corrective and preventive maintenance on the scheme caused in whole or in part by the Proposer's failure to provide accurate or sufficient information in provided manuals will cause the Proposer to be liable for damage if such failure results in damage to or interruption of the system.
