- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. Regardless of packaging availability, bid price for bulk product shall include delivery and transfer to LFUCG tank. Fleet Services and other divisions of government may require some product in 55 gallon drums.

3.2 The following oils are pre-qualified under this specification:

Phillips 66 Powerflow HE Hydraulic Oil

Citgo A/W Hydraulic Oil Super MV

Chevron Rando HD Premium Oil MV

3.3 Submitted bids shall include oil manufacturer's printed literature clearly indicating compliance with the standards referenced above. Original manufacturer of product shall be clearly stated. Original copies only. No photocopies, hand written documents, or distributor produced items will be accepted. Bid may include link to manufacturer's webpage containing the required references to comply with this section.

3.4 Successful bidder shall supply tank labels with descriptive product information and supply current MSDS for all products delivered.

3.5 Delivered product may be subject to random testing to insure compliance with this specification.

3.6 Submitted literature shall indicate all viscosity grades available for product bid; all grades shown on published literature for product bid will be covered under the terms of this contract. Final determination of ISO grade will be made when product orders are placed.

**4. DELIVERY**

4.1 Bid price shall include delivery to requesting division's location. Majority of product will be delivered in bulk form to the Division of Fleet Services facility at 669 Byrd Thurman Drive, Lexington, Ky.

## Product Description

**PresurFlo HiVi™** is a high performance anti-wear hydraulic fluid that is specifically designed to meet the needs of industrial, high pressure, and mobile equipment. The shear stable high viscosity index allows for a wide operating temperature range while maintaining maximum hydraulic efficiency. The products are formulated with the highest quality base oils and a proprietary additive system that provides extraordinary performance in high pressure hydraulic systems. **PresurFlo HiVi™** ISO 15 has a high dielectric strength (40 kV) for use in electrical service equipment, such as cherry pickers. **PresurFlo HiVi™** has been extensively tested in the laboratory and in-service field testing to provide quantifiable increases in hydraulic efficiency. Hydraulic efficiency benefits can translate to increased machine productivity and reduced fuel consumption. The energy efficiency of **PresurFlo HiVi™** relates solely to the fluid performance when compared to a conventional hydraulic fluid.

## Product Features and Benefits

Quantifiable hydraulic efficiency provides up to 8% increase in hydraulic pump efficiency when compared to conventional hydraulic fluids.

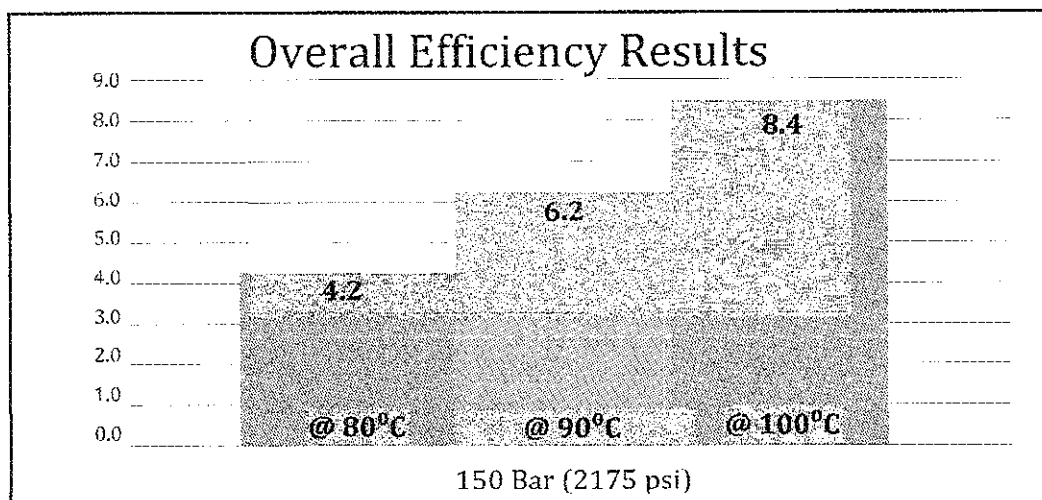

Superior varnish control reduces system deposits leading to increased component life.

Outstanding air release properties prevent aeration and cavitation damage in low residence time systems.

Shear stable high viscosity index delivers greater lubrication over a wide temperature range.

Excellent anti-wear protection helps reduce wear and protects pumps and components for extended equipment life.

Superior oxidation control and thermal stability may lead to extended oil drain intervals even under severe operating conditions.

## Typical Applications

Industrial and mobile equipment hydraulic systems operating at high pressures and temperatures.  
 Hydraulic systems where cold start-up and high operating temperatures are typical.  
 Hydraulic systems requiring a high load-carrying capability and anti-wear protection.

**PresurFlo HiVi™** ISO 15 can be used in applications requiring hydraulic fluids with dielectric strength, such as:

Hydraulic elevators, hoists and lifts

Electrical service equipment (cherry pickers), mobile construction equipment, and hydraulic control systems for machine tools and presses.
