---

Please allocate \$110,000 to LFUCG- Division of Engineering.

#### Who:

This funding request supports the Lexington-Fayette Urban County Government's Division of Engineering in completing pedestrian safety and accessibility improvements at the intersection of Loudon Avenue and Bryan Avenue—a heavily traveled corridor in the 1st District that serves both residential neighborhoods and nearby commercial areas. The project directly benefits pedestrians, cyclists, and transit riders who use this route daily, including students, families, and seniors.

#### What:

Following a site review and design assessment, the proposed pedestrian crossing improvements have been evaluated and quantified using the LFUCG Division of Engineering's 2025 Unit Price Contract. The estimated construction budget is \$110,000, which will fund the completion of all necessary infrastructure upgrades, including:

- ADA-compliant pedestrian ramps and crosswalk striping,
- Enhanced traffic signalization or crossing signals,
- Improved signage and lighting for visibility and safety, and
- Minor sidewalk or curb adjustments to ensure accessibility and continuity.

This investment will finalize the project and move it from design to construction—delivering long-awaited safety upgrades for residents and commuters.

#### Why:

- **Enhances Pedestrian Safety:** Loudon Avenue and Bryan Avenue intersect in a high-traffic area with limited pedestrian infrastructure. This project will significantly reduce safety risks and improve walkability for all users.

- **Connects Neighborhoods:** The improvements support better connectivity between the East End, Castlewood, and North Limestone neighborhoods, making it safer for residents to access schools, parks, and transit routes.
- **Aligns with Citywide Goals:** The project aligns with Lexington’s Complete Streets and Vision Zero initiatives, reinforcing the City’s commitment to reducing pedestrian-related accidents and ensuring equitable access to safe transportation infrastructure.
- **Leverages Previous Work:** Preliminary assessments and design work have already been completed and incorporated into the LFUCG 2025 Unit Price Contract, allowing this project to move quickly to construction once funds are allocated.
- **Delivers Immediate Impact:** At \$110,000, this targeted investment will complete a shovel-ready project that residents have long requested—demonstrating tangible city responsiveness to community needs.
- **Supports Economic and Community Vitality:** Improved walkability and connectivity strengthen local business activity, encourage active transportation, and enhance the overall livability of the surrounding neighborhoods.

Please allocate \$40,000 to The Neighborhood Voices Project.

#### Who:

This request supports the launch of the Neighborhood Voices Project, a resident-driven initiative developed through Council to strengthen engagement, trust, and collaboration between Lexington neighborhoods and local government. The pilot phase will begin in Smittown, a historically underserved neighborhood with strong community identity and leadership potential.

#### What:

The \$40,000 requested will fund the pilot implementation of the Neighborhood Voices Project, designed to create a replicable engagement and investment model for neighborhoods across Lexington. Funds will support:

- Community engagement sessions and listening forums to gather resident input on local priorities, needs, and opportunities.
- Resident stipends and leadership development, ensuring authentic representation and compensating community members for their time and expertise.
- Technical support, design assistance, and neighborhood storytelling to help residents translate ideas into actionable projects.
- Seed capital for neighborhood-identified projects, establishing a foundation for future grant opportunities and capital leverage.

#### Why:

- **Empowers Residents as Co-Creators:** The project centers the voices of residents in planning and decision-making, ensuring investments reflect lived experience and real community priorities.
- **Builds a Scalable Engagement Model:** Starting in Smittown allows for testing, refining, and documenting best practices that can be applied to other neighborhoods in future phases.

- **Strengthens Neighborhood Capital:** By pairing engagement with seed funding for small-scale physical improvements, the project creates capital momentum and helps residents build visible results in their own community.
- **Encourages Collaborative Governance:** The project will bridge the gap between neighborhoods, city divisions, and Council Offices—fostering coordination, accountability, and trust.
- **Leverages Additional Funding:** The \$40K investment will position the project to secure external grants and philanthropic contributions, creating long-term sustainability and expanding the city’s reach.
- **Supports Lexington’s Equity and Resilience Goals:** The Neighborhood Voices Project directly aligns with Lexington’s strategic objectives of equitable development, participatory government, and neighborhood resilience.

**Date:** 10-7-25

**Subject:** FY2025 Council Fund Balance Project Proposal

---

Please allocate \$75,000 to Boy's and Girls Club Lexington Chapter. This request supports the start-up operations and youth programming for the newly established Boys & Girls Club Lexington Chapter, located in the Russell Cave Road corridor—a high-need area currently without access to structured, affordable after-school programming and youth programming. The program will initially serve 200 youth: 100 from Winburn Middle School and 100 from Bryan Station Middle School, both of which serve diverse and often under-resourced student populations in Lexington.

#### **What:**

The requested \$75,000 is a one time request and will fund critical operational and programmatic expenses including staffing, transportation, curriculum materials, meals/snacks, and administrative costs necessary to successfully launch and sustain the first year of programming. The Boys & Girls Club model offers evidence-based programs in academic support, mentorship, character development, career exploration, and health and wellness—creating a safe, nurturing space where young people can learn, grow, and thrive.

#### **Why:**

- **Addresses a Service Gap:** The Russell Cave Road area currently lacks after-school and youth engagement programming. This investment brings a proven national model directly into a community that needs it most, ensuring equitable access to enrichment opportunities.
- **Supports Working Families:** After-school care is a critical need for many households. This program provides a dependable, supervised environment during out-of-school hours, allowing parents and caregivers to maintain stable employment—directly contributing to economic stability for local families.
- **Improves Outcomes for Youth:** Boys & Girls Club programs are nationally recognized for reducing juvenile delinquency, increasing academic achievement, and strengthening emotional and social development. Establishing a Lexington chapter aligns with citywide goals for public safety, education equity, and youth empowerment.

- **Leverages Partnerships and Sustainability:** This seed funding will help the chapter secure matching dollars and grants from national Boys & Girls Club partners, local businesses, and philanthropic organizations. The \$75,000 investment signals local commitment and unlocks additional funding opportunities for long-term sustainability.
- **Strengthens Community Infrastructure:** Beyond programming, this chapter represents a community anchor—a trusted hub connecting schools, nonprofits, and local government around shared youth development goals.
- **High Return on Investment:** An initial \$75K contribution helps launch a program with the capacity to serve hundreds of students annually, create part-time and full-time jobs, and generate measurable improvements in family stability and youth outcomes.

Please allocate \$30,000 to Black and Williams Community Center.

This funding request supports the Black & Williams Community Center, one of Lexington's cornerstone facilities managed by Department of Housing Advocacy and Community Development. The center serves residents across several neighborhoods in the 1st District and beyond—providing vital space for youth development, senior engagement, recreation, and cultural programming.

#### **What:**

The requested \$30,000 aligns with the community center funding model initiated and approved by Council Member Tyler Morton, which designates equal support for programming at each community center.

Funds will be used to support:

- Program supplies and materials,
- Youth, senior, and family activities, and
- Community-based events and enrichment programs.

These funds will enhance the center's ability to deliver quality, inclusive programming that meets the diverse needs of the surrounding community.

#### **Why:**

- **Expands Access and Equity:** The Black & Williams Center serves as a community anchor for residents who rely on public facilities for recreation and educational engagement. Dedicated funding ensures this center receives equitable support relative to other facilities citywide.
- **Supports Year-Round Programming:** The \$30K allocation allows staff and community partners to plan, purchase, and implement consistent, high-quality programming throughout the year—helping reduce barriers to participation for youth and families.

- **Encourages Community Engagement:** With structured programs, activities, and cultural events, this investment strengthens neighborhood cohesion and provides safe, positive outlets for residents of all ages.
- **Promotes Efficient Use of City Resources:** Aligning with the existing Parks and Recreation community center budget model streamlines administration and accountability, ensuring all centers operate under consistent funding standards.

## Lexington-Fayette Urban County Council

### Memorandum

**To:** James Brown, Budget, Finance, and Economic Development Committee Chair

**From:** Councilmember Baxter

**Cc:** Kelley Farley, Budget Research Analyst

**Date:** October 9, 2025

**Subject:** FY2026 Council Fund Balance Project Proposal

Please allocate \$55,000 to the Corridors Commission for the purpose of removing the city's Wayfinding signs. Lexington's Wayfinding signs were originally erected in advance of the World Equestrian Games in 2010. Since then, the signs have not been maintained, and a significant portion of the 77 remaining signs have fallen into disrepair. The Corridors Commission has been working with Visit Lex to develop an updated Wayfinding Program. To start the process of improving the program, the current signs should be removed. Two options for removal are to outsource the removal or have our Division of Streets and Roads assist as they can. To outsource this project, it will be triple the cost. The recommendation of the Corridors Commission is to do this project in house.

Of the \$55,000 requested, \$40,000 (in account 71299) will be designated for the purchase of the crash trailer, with flexibility to adjust for final pricing variations due to shipping, tariffs, and steel costs. The crash trailer will allow for the safe removal of the signs and double as a beneficial piece of equipment for Streets and Roads. The remaining \$15,000 (in account 75101) will be used to offset other operational costs and expenses.

|                                                                                        |                                                                                                                                                                          |
