Any examination shall be at the expense of the Government.

10. Government may designate such persons as may be necessary to monitor and evaluate the services rendered by the Organization. The Government, its agents and employees, shall, at all times, have unrestricted access to all places where or in which the services required hereunder are being carried on and conducted. Inspection and monitoring of the work by these authorities shall in no manner be presumed to relieve in any degree the responsibility or obligations of Organization, nor to constitute the Organization as an agent of the Government.

11. Organization shall provide equal opportunity in employment for all qualified persons, shall prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and shall cause each of its subcontracting agencies to do so. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

12. Organization shall adopt a written sexual harassment policy, which shall, at a minimum, contain a statement of current law; a list of prohibited behaviors; a complaint process; and a procedure which provides for a confidential investigation of all complaints. The trust department may utilize its regular short-term one hundred percent (100%) US Treasury Fund for daily funds investment.

The election of option 1 or 2 should be made consistent with the relative cost incurred and in the case of option 2 the cost shall be competitive among local trust departments.

5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement

15 Points

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

Science Explorers (SE) is an award-winning childhood development program provided by the Living Arts and Science Center (LASC) as a free service. SE addresses the need for low-income children to participate in out-of-school activities; to get more involved in science, technology, engineering and math (STEM); and develop skills and proficiency that support life-long engagement in STEM. SE is the only out-of-school STEM program designed for students in Title I elementary schools in Fayette County. SE address the factors that contribute to lower average rates of achievement in STEM for low-income and minority students, including disparities between Title I schools and schools for more affluent families. In many Title I elementary schools, funding for science labs and STEM specialists has been cut. SE also addresses family and environmental stressors that make learning difficult for children in poverty, by engaging families in learning activities, reducing language and cultural barriers, and addressing transportation needs.

SE's target population is students in grades 3-5 and their families in the following Title I Fayette County elementary schools: Breckinridge (41.9% African American; 27.5% Hispanic), Cardinal Valley (72.6%Hispanic; 13.2% African American), Dixie (23.3% African American; 16.9% Hispanic), Millcreek (32.7% African American; 14.8% Hispanic) and Russell Cave (70.6% Hispanic; 15.8% African American). All students are from low-income households and qualify for free or reduced lunch. In 2021, these schools were among the lowest performing schools on state proficiency assessments, with considerable deficiencies in science. Combined with time lost in the classrooms due to COVID-19, our students need the Science Explorers program in the coming years more than ever.

5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

In FY 2023, LASC educators will provide: 1) one-hour outreach presentations in all grade four classrooms in five Title 1 schools introducing urban ecology and reaching more than 350 students. 2) 90 minute after-school sessions focused on first-hand learning activities in five schools for eight weeks each semester, serving a total of 250 students. Each session will be limited to 25 students, and facilitated by two or more educators. 3) a two-hour Celebration Night each semester at LASC. Attendance for Celebration Nights will be about 400 students and family members. 4) two family field trips during the school year for 300 students and adult family members, dependent on health regulations. The field trip to McConnell Springs will last 3 to 4 hours; the trip to Big Bone Lick State Historic Site, 6 to 8 hours. 5) Other family engagement activities, including a "Water is Life" Discovery Saturday and student and family participation in Lexington's annual Reforest the Bluegrass event. 6) one one-week summer camps at LASC, lasting 6 hours per day for a total of 30 hours, allowing 25 students who have demonstrated leadership in SE to continue learning in the summer. 7) 20 Scholarships for other science-related camps for Science Explorer students.

Activities will improve learning and skill development, support Title I schools and school teachers, engage families in students' educational progress, build students' confidence, allow opportunities for students to demonstrate leadership with peers and siblings, and connect underserved families with the natural environment.

5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

LASC provides all SE activities at no cost to participating students, families and schools. To be eligible, children must be in grades 3-5 in the Title I elementary schools listed above. Schools provide classroom space for after-school sessions, ensuring that sessions are readily accessible to students, and teacher liaisons help us to achieve our enrollment goals. To enroll a child for the semester, we ask the child's parent or guardian to sign a form giving the child permission to participate and agreeing to help the child participate in SE consistently. Students are asked at the beginning of the semester to treat teachers and equipment respectfully, and encouraged to have fun exploring and learning. Children are enrolled on a first-come, first-serve basis.

Through outreach and teacher support, we ensure that we have a different cohort of students each semester. Themes and activities change from one semester to the next, so SE is new and exciting every fall and spring. We encourage enrolled students to attend all SE activities throughout the semester, including family engagement events. Participation in the summer camp will be limited to students who have consistent attendance in after-school sessions and have demonstrated leadership as peer mentors.

5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are doing is best-practice.

SE emphasizes the following evidence-based practices that lead to positive outcomes for children and youth: 1) early intervention and positive reinforcement for children whose daily challenges may interfere with successful learning, 2) first-hand, participatory learning that support social skill development as well as greater proficiency in STEM, 3) encouraging students and family members to communicate and participate in learning activities together, 4) communicating with adult family members in Spanish in schools with high percentages of English Language Learners (ELL), and 5) coordinating with classroom teachers and supporting their instruction of Next Generation Science Standards (NGSS).

SE implements these practices through closely mentored, hands-on collaborative projects aligned with NGSS in after-school sessions and family engagement events. SE newsletters and all printed SE materials are provided in English and Spanish.

In 2019, we began offering a free summer camp for SE students to address summer learning loss. The pilot year was such a success; it will continue in 2022. Studies show that summer learning loss can be more severe for children from low-income households, and summer programs help students to maintain enthusiasm for learning. Sources for best practices include the National Science Teachers Association (NSTA). According to NSTA, students learn best when they are involved in first-hand exploration and investigation; instruction builds directly on the student's conceptual framework; and content is organized around broad conceptual themes. SE is focused on engaging themes and topics that connect students and families with the natural environment, and maintains a supportive, non-competitive environment that makes learning fun.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define "successful" completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

SE encourages underserved children and families to explore and develop an enthusiasm for learning, and helps them to set goals that will allow the SE program to reach its maximum potential for success. We ask enrolled students and families to participate in all SE activities. Newsletters and family engagement activities are developed to encourage engagement and communication between the students and their adult family members. We also provide students learning materials to share with families and scholarships that allow students to take spring break and summer classes at the LASC for free.

Our service philosophy is focused on building broad community support for low-income and minority children, developing a rich STEM learning ecosystem that contributes to higher levels of academic achievement, and inviting children and families to have fun discovering and learning. The elements of success are consistent attendance in SE activities for all enrolled students; high percentages of enrolled students attending family engagement events with their families; improvements in students' STEM knowledge, and receiving useful feedback from adult family members and teacher liaisons. We also look for evidence that students are improving their performance in school, and that students and families are participating more frequently in LASC's other programs. Our rates average about 80% of students consistently attend after-school sessions; more than 60% of students attend family engagement events with their families; and approximately 30% of SE students and families return to LASC for additional programs.

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

SE is free for participants and designed to address some of challenges that low-income students and families face. We make SE after-school sessions readily accessible, assist with transportation for SE activities that take place outside of the schools, communicate consistently with Spanish-speaking families in Spanish, and create enriching learning environments in which students learn and become mentors to peers and siblings. Through these efforts, SE has a meaningful impact in the lives of participating students and families. This was especially evident during the Covid shutdown, when students invited younger and older siblings, parents and grandparents to participate in science lessons. SE helps students to be inspired by STEM and supports improvements in academic achievement in underperforming schools. It creates new and additional opportunities for families to be involved in their students' education and facilitates greater communication between students and families. Family involvement is an essential element of children's academic development and progress. Students improve their confidence in learning and social skills, as well as develop an enthusiasm for STEM and the natural world. The value that SE adds to local communities is greater pride in their students and schools, more effective partnerships linking communities, schools, and educational nonprofits, greater knowledge and appreciation of STEM, and a recognition that learning science can be fun and people of all ages and abilities can participate and benefit from it. SE plays a crucial role in Fayette County's STEM learning ecosystem, by expanding learning opportunities in STEM, making opportunities accessible to a broader range of communities, building stronger relationships between the LASC and low-income families, and supporting students in lifelong pursuits of STEM knowledge and skills.

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying "we provided this many 'units of service.'" How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

We track each student's attendance in SE activities and maintain records of total attendance for after-school sessions and family engagement events. SE educators keep journals recording observations of students' engagement, and noting improvements in students' confidence and skills. SE educators administer pre-and post-tests to students each semester assessing their knowledge of key STEM topics. Over the course of eight weeks of activities, we regularly see students' scores improve by 60% or more on the tests. We administer surveys to adult family members during family engagement activities. In 2019, family members were given questions on if they see SE as beneficial and if they believe it helps improve their child's academic performance. The average rating was an astounding 4.5 on a scale of 5, with 5 "being strongly agree."

SE educators meet with school teacher liaisons each semester to discuss the program and ensure that it supports classroom learning. Through the evaluation process, we continue to develop and refine the SE program. We have seen increases in the percentages of students consistently attending all SE activities and levels of family engagement each semester. We expect these trends to continue. We plan to work with schools to gather additional data on students' school attendance and performance in school to assess the broader impacts of the program.

SE students write in their science journals on a weekly basis. The journals are a measurement of students' understanding of scientific vocabulary words and the scientific method.

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

Our project manager is Kathryn Wallingford, a STEM Discovery Educator. Kathryn has Master's degrees in Biology and Education. Kathryn, who is bilingual in English and Spanish, will be principally responsible for the development, planning, and implementation of curriculum and activities for the Science Explorer program. She will be assisted as needed by a Discovery Educator who specializes in STEM education. Part-time educators and volunteers will work together on the instruction of all SE curriculums. We have been approved to host an environment instructor for a year through the AmeriCorps Environmental Education Leadership Corp. Details and confirmation on this process will be received in the coming months.

Shrode Hargis, Grant Program Manager, will assist with program planning, evaluation, and the preparation of reports. Lori Halligan, Executive Director, will supervise the completion of all project activities. Major stakeholders include administrators, teachers, students, and students' families at the participating Title I schools throughout Lexington. In addition, LASC's staff regularly collaborates with a wide range of scientists, wildlife experts, and environmental educators in Central Kentucky, and will continue these collaborations in the implementation of the proposed programs and activities.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community’s comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

LASC's programs contribute to community wellness and safety by providing enriching, supportive environments for children and youth when they are out of school. Most of the LASC's programs take place in our new facility, which serves as an anchor for community development for the North Martin Luther King neighborhood and other nearby neighborhoods.

SE is the LASC's signature after-school program; most SE activities take place in the participating schools after the school day ends, supplementing other after-school care or activities, and allowing students to learn and build relationships with SE educators. To offer SE, the LASC has formal agreements with participating Title I schools. We collaborate with STEM specialists at the University of Kentucky, who visit after-school sessions and give presentations as volunteers each semester. SE also relies on the help of volunteers from the community, especially for Celebration Nights and other family engagement events. SE educators work with and schedule presentations, featuring live animals, by the Kentucky Reptile Museum, Newport Aquarium and other wildlife experts each semester. We collaborate with staff at McConnell Springs Park, UK Arboretum and Big Bone Lick State Historic Site to provide fun, educational field trips. The LASC is a member of the NASA Kentucky Space Grant Consortium. SE educators will work with Space Tango and other partners to schedule field trips and guest speakers. SE receives additional support (reflected in our budget) from the LG&E and KU Foundation, the LFUCG Stormwater Incentive Grant program, and the NASA KY Space Grant Consortium. Our program partners also include Bluegrass Greensource and the Kentucky Department of Energy & Environment.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor’s Commission on Racial Justice & Equality?

SE is focused on serving children in underperforming schools with high percentages of students living in poverty. We promote the program frequently in a variety of formats to eligible students and their families. We emphasize that the program is open to all students, including those with disabilities and who are ELL. After-school sessions, as well as activities at LASC, are fully accessible to students with physical disabilities.

In FY 2023, we will take the following steps to reach a diverse range of students and families each semester: 1) We will work with school teachers on planning and promoting SE. 2) Outreach presentations will be provided on urban ecology and other STEM topics to all 4th grade students in the five SE schools to generate broad interest in SE. 3) We will send home weekly newsletters with updates, news, and suggestions for activities that support students' learning. 4) All program materials will be printed in both English and Spanish. 5) We will provide transportation for students and one adult family member per student for fall and spring field trips, as health regulations allow.

LASC's strategic plan, which guides the policies of the SE program, establishes that LASC will ensure equal access to programs and opportunities for children and adults of all backgrounds and abilities. LASC is currently working with consultant Mitzi Sinnott, CEO of All Here Together, to develop a Cultural Equity Plan that focuses on diversity, inclusion and other equity policies.

Laws and Regulations

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;

- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the

contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available workforce in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

Contractor acknowledges that the LFUCG is a governmental entity, and the contract validity is based upon the availability of public funding under the authority of its statutory mandate.

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

Bidders

I/We agree to comply with the Civil Rights Laws listed above that govern employment rights of minorities, women, Vietnam veterans, handicapped and aged persons.

Funding Priority Area: Childhood and Youth Development

Projected funding is \$650,000 of ESR Grant Program – Community Based Initiatives

LFUCG seeks to strengthen and enhance **Childhood and Youth Development** by supporting programs and services for early childhood through teenage populations (birth through 18 years old). LFUCG intends to award grants for priority-rated programs and services which originate with demonstrated client needs, establish clearly-defined outcomes, and are designed to best practices or evidence-based models.

These programs shall consist of an intentional, pro-social approach that engages youth within their communities, schools, organizations, peer groups, and families in a manner that is productive and constructive; recognizes, utilizes, and enhances youths' strengths; and promotes positive outcomes for young people by providing opportunities, fostering healthy relationships and supporting positive leadership.

These programs may address one or more of the following areas, but shall not be limited to:

- Affordable access to early care & education for children under 5 years of age
- Development services focusing on life skills, social skills, employment mentoring, enrichment, language tutoring, & leadership skills
- Services focused on Kindergarten readiness
- Parental, caregiver, & kinship resources and support
- Improving reading & math proficiency
- Reducing poverty rates among children & youth
- Services for limited English language learners & for overcoming cultural barriers
- Transportation access for child & youth programming
- Addressing student learning loss (*specifically kindergarten through 12th grade*)
- Youth Violence Prevention
- Mentorship

The term “client” is used throughout this proposal; however we understand that within the context of your work “client” may not mean an individual. For some agencies it may be helpful to think of “client” as whole system (such as a school) or as a neighborhood, group, or community.

5.1 Program Proposal & Design

5.1.1 Needs Statement—Purpose of the Program Proposal / Problem Statement **15 Points**

Using local data, provide a description of the problem in Fayette County. Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

5.1.2 Service Delivery Model **15 Points**

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

5.1.3 Client Eligibility and Requirements **5 Points**

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are proposing is best-practice.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying “we provided this many ‘units of service.’” How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?
