This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

### **Kentucky Equal Employment Opportunity Act**

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded

contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;

- (4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

- (1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.
- (2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

## The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

*The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.*

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

*The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.*

\*\*\*\*\*

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

**Scope of Services**  
**RFQ 22-2017**  
**Design and Surveying Services for Sidewalk and Trail Projects**  
**Citation Trail**  
**Elizabeth Street Sidewalk**  
**Rosemont Garden Sidewalk**  
**Todds Road Sidewalk**

The Lexington-Fayette Urban County Government (LFUCG), the Local Participating Agency (LPA), is accepting Statements of Qualification (SOQ) from interested consulting firms for professional engineering and registered land surveying services (Consultant) for the *Sidewalk and Trail Projects*. This Request for Qualifications (RFQ) will serve as the basis for the selection of firms assigned to four projects: Citation Trail; Elizabeth Street Sidewalk; Rosemont Garden Sidewalk; and Todds Road Sidewalk. It is the intention of LFUCG to select four different firms, one each being assigned one of the four projects. However, LFUCG reserves the right to select and assign firms to projects based on the best interest of the government.

The projects vary in scope and may entail sidewalk, curb and gutter, and/or multi-modal trail construction. The Scope of Services includes topographic and cadastral surveying; preparation of preliminary & final design plans, bid documents, easement descriptions and right-of-way drawings (if required); compliance with the Kentucky Division of Water Floodplain Management Section and FEMA (if required); and completion of paperwork to satisfy the requirements of the Kentucky Transportation Cabinet's LPA Project Guide. Design funding for all four projects is through Federal Highway Administration, Transportation Alternatives Program grants and local funds.

Utilizing descriptions and plats prepared by the consultant, the LFUCG will conduct negotiations for acquisition of rights of way (if required) and easements as needed.

### **Project Description**

The LFUCG through its Division of Engineering (DOE), intends to perform three separate sidewalk projects and one multimodal trail project. The Consultant shall complete a full design including construction plans, right of way plans, specifications, bid documents, easement descriptions and plats (if required) for the specified limits as generally shown on the attached project location maps.

Submitting consultants should demonstrate proficiency in residential street design, multimodal trail design, surveying, right-of-way/easement acquisition on LPA projects, flood studies and FEMA submittals, and should be familiar with applicable AASHTO publications. KYTC pre-qualification is required in Urban Roadway Design and Surveying.

### **Project Backgrounds**

Citation Trail (See Exhibit A)

A shared use trail is planned to connect the existing bike lanes/sidewalks on Citation Boulevard to Jacquelyn Lane and to Masterson Station Park. The planned trail will begin at the existing trail at Citation Boulevard, pass through the Mable Lane Greenway, across Lucille Drive and then split with one segment continuing north through Masterson Hills Park to Jacquelyn Lane and the other continuing west along Bracktown Branch creek to the end of the LFUCG's property. The western segment will eventually connect to a trail, to be built in conjunction with the Villages at Great Acres development, which will provide a link to Masterson Station Park. The project will involve the addition of approximate 4,400 feet of 12' wide shared use trail.

The planned trail will likely pass around water features including but not limited to the Zone AE FEMA floodplain and the floodway. Design shall include all necessary drainage calculations and modeling for the trail, as well as coordination with, Kentucky Division of Water, the US Army Corps of Engineers and FEMA to comply with required permitting.

The engineer shall coordinate with the developer of the Village at Great Acres to ensure the trail designs are contiguous.

#### Elizabeth Street Sidewalk (See Exhibit B)

There are currently no sidewalks on either side of Elizabeth Street from Waller Avenue to Transcript Avenue (except for the northernmost block on the east side). This project will involve the addition of approximately 1250 feet of sidewalk, curb & gutter and storm improvements along various sections of Elizabeth Street:

- Sidewalk from Waller Ave. to University Ave. to State St. to Conn Terrace (East and West Side). Sidewalk from Conn Terrace to Transcript Ave., (West Side).
- Curb, gutter and storm improvements from Waller Ave. to University Ave. to State St. to Conn Terrace (East and West Side). Curb, gutter and storm improvements from Conn Terrace to Transcript Ave., (to Mid-block West Side).

The new sidewalk can likely be constructed within existing ROW. However, it is anticipated that acquisition of temporary construction easements will be necessary.

No section of the project appears to be within a Zone AE floodplain.

#### Rosemont Garden Sidewalk (See Exhibit C)

There are currently no sidewalks on either side of Rosemont Garden from Southland Drive to mid-block between Southport Drive and Cherrybark Drive. This project will involve the addition of at least 1400 feet of sidewalk and header curb along the both sides of Rosemont Garden that will connect to the existing sidewalks at each end. Design will include additional improvements, such as replacement of the existing drainage structures and retaining walls.

Minimal calculations will be required to estimate the storm sewer load from Rosemont Garden, from the intersection of Southport Drive to Southland Drive, that can be conveyed to Wolf Run creek at the intersection of Southland Drive and Rosemont Garden. Hydrologic/hydraulic modeling of the Wolf Run creek is beyond the scope of this project.

Design shall also include modifications to the western end of the project to improve pedestrian access and safety. Ingress and egress to the commercial lots shall be evaluated, and a pedestrian crossing across Rosemont Garden at Southland Drive / Lafayette Parkway with ped signals shall be added.

Under a separate contract, streetscape design of Southland Drive from Rosemont Garden to Nicholasville Road is nearing completion. Design will include coordination with the Southland Drive Streetscape consultant to ensure geometric consistency where the two projects meet.

A significant portion of the project appears to be within the floodway. Coordination with the Kentucky Division of Water will be necessary to determine the extent of required permitting.

#### Todds Road Sidewalk (See Exhibit D)

There are currently no sidewalks on either side of Old Todds Road between Woodhill Drive and Catera Trace. This project will involve the addition of approximately 1600 feet of sidewalk, curb and gutter along the north side of Old Todds Road that will connect the existing sidewalk at Woodhill Drive to the existing sidewalk east of Catera Drive. Minimal calculations will be required to estimate the storm sewer load from Old Todds Road, from the intersection of Catera Trace to Woodhill Drive and that it can be conveyed to the existing storm sewer system. An evaluation of the existing drainage structures will be performed to ensure that the existing storm sewer system has capacity.

The improvements shall be constructed within existing ROW, with the back of sidewalk generally two feet from the ROW. Temporary construction easement acquisition requirements will be determined through the design process.

No section of the project appears to be within a Zone AE floodplain.

Note: Although this project is along Old Todds Road, the TAP funding agreement identifies this project as “Todds Road Sidewalk”.

### **Scope of Services**

#### **1. Pre-Design Conference and Review of Existing Information**

- 1.1. Meet with DOE staff to discuss the project requirements and proposed Scope of Work. The meeting shall include a project site visit.

- 1.2. Review all project related information as provided by DOE. Obtain available LFUCG GIS data for the area, mapping including parcel lines, aerial photography, and existing infrastructure. The most recent aerial photography for the project area licensed by LFUCG will be made available to the Consultant.

## **2. Field Survey and Related Research**

- 2.1. The Consultant shall perform sufficient field survey to be confident in his design. Sufficient field survey should be done to confirm, at a minimum:
  - a) Topography;
  - b) Existing sidewalks, edge of roadway, entrances, turn lane configurations, etc.
  - c) Storm and sanitary sewers, and related structures (horizontal and vertical);
  - d) Location of overhead and underground utilities, including poles or towers ownership information;

Dear Ms. Loveday:

The Kentucky State e-Clearinghouse is the official designated Single Point of Contact (SPOC) for the Commonwealth pursuant to Presidential Executive Order 12372, and supported by Kentucky Statutes KRS 45.03. The primary function of the SPOC is to streamline the review aforementioned process for the applicant and the funding agency. This process helps in vocalizing the statutory and regulatory requirements. Information in the form of comments, if any, will be attached to this correspondence.

This proposal has been reviewed by the appropriate state agencies in the e-Clearinghouse for conflicts with state or local plans, goals and objectives. After receiving this letter, you should make it available to the funding agency and continue with the funding agencies application process. This e-clearinghouse SPOC letter signifies only that the project has followed the state reviewing requirements, and is neither a commitment of funds from this agency or any other state or federal agency. Please remember if any federal reviews are required the applicant must follow through with those federal agencies.

The results of this review are valid for one year from the date of this letter. If the project is not submitted to the funding agency or not approved within one year after the completion of this review, the applicant can request an extension by email to Lee.Nalley@ky.gov. If the project changes in any way after the review, the applicant must reapply through the eclearinghouse for a new review. There are no exceptions.

If you have any questions regarding this letter or the review process please contact the e-Clearinghouse office at 502-573-2382, ext. 274.

Sincerely,

A handwritten signature in blue ink that reads "Lee Nalley".

To minimize impacts to the aquatic environment the Kentucky Dept. of Fish & Wildlife Resources recommends that erosion control measures be developed and implemented prior to construction to reduce siltation into waterways located within the project area. Such erosion control measures may include, but are not limited to silt fences, staked straw bales, brush barriers, sediment basins, and diversion ditches. Erosion control measures will need to be installed prior to construction and should be inspected and repaired regularly as needed. Please contact Dan Stoelb @ 502-564-7109 ex. 4453 or Daniel.Stoelb@ky.gov if you have further questions or require additional information.

In the event construction activities encroach upon state maintained right of way, it may become necessary to obtain a standard encroachment permit. Permit requests and questions may be directed to: Randi Feltner, District Seven Highway Dept. Permits Engineer, 763 W New Circle Road, Lexington, KY 40512 (859.246.2355 / randi.feltner@ky.gov). This review was based upon the information that was provided by the applicant through the Clearinghouse for this project. An endorsement of this project does not satisfy, or imply, the acceptance or issuance of any permits, certifications, or approvals that may be required from this agency under Kentucky Revised Statutes or Kentucky Administrative Regulations. Such endorsement means this agency has found no major concerns from the review of the proposed project as presented other than those stated as conditions or comments.

All solid waste generated by this project must be disposed at a permitted facility. If underground storage tanks are encountered, they must be properly addressed.

The Division of Water recommends that in the construction of the project Best Management Practices (BMPs) be utilized to prevent nonpoint-sources of water pollution and, thereby, control stormwater runoff and sediment damage to water quality and aquatic habitat. For technical assistance on the kinds of BMPs most appropriate for this type of construction, please contact the local Soil and Water Conservation District or the Division of Conservation of the Natural Resources and Environmental Protection Cabinet. The Division of Water, also, has available BMP construction manuals.

If the proposed project site is in a designated flood hazard area, application must be made to the Division of Water for a floodplain construction permit. Permission, or exemption, depends upon design and the exact site.

Projects that cross a stream will require a Section 404 permit from the US Army Corps of Engineers and a 401 Water Quality Certification from DOW.

If the construction area disturbed is equal to or greater than 1 acre, the applicant will need to apply for a Kentucky Pollutant Discharge Elimination System (KPDES) stormwater discharge permit from the Division of Water.

Kentucky Division for Air Quality Regulation 401 KAR 63:010 Fugitive Emissions states that no person shall cause, suffer, or allow any material to be handled, processed, transported, or stored without taking reasonable precaution to prevent particulate matter from becoming airborne. Additional requirements include the covering of open bodied trucks, operating outside the work area transporting materials likely to become airborne, and that no one shall allow earth or other material being transported by truck or earth moving equipment to be deposited onto a paved street or roadway. Please note the Fugitive Emissions Fact Sheet located at [http://www.air.ky.gov/homepage\\_repository/e-Clearinghouse.htm](http://www.air.ky.gov/homepage_repository/e-Clearinghouse.htm)

Kentucky Division for Air Quality Regulation 401 KAR 63:005 states that open burning is prohibited. Open Burning is defined as the burning of any matter in such a manner that the products of combustion resulting from the burning are emitted directly into the atmosphere without passing through a stack or chimney. However, open burning may be utilized for the expressed purposes listed on the Open Burning Fact Sheet located at [http://www.air.ky.gov/homepage\\_repository/e-Clearinghouse.htm](http://www.air.ky.gov/homepage_repository/e-Clearinghouse.htm)
