The Lexington Healing Arts Academy (LHAA) conducts a Yoga Teacher Training program which requires internship experience in the yoga industry. This internship may include, but is not limited to, observing yoga classes, assisting yoga classes, or teaching yoga classes. Healing Arts Academy has agreed to provide this internship experience. Therefore the internship provider, now referred to as the affiliating institution, and the school, enter into the following agreement:

The purpose of the internship is to provide students with an understanding of how to sequence poses and structure a class, provide proper cuing, how to communicate with students as well as with management of businesses, class timing, student rapport, student retention and referral, networking, professionalism, and critical thinking processes and whatever else the affiliating institution deems useful for the student's education. Completion of required classroom documentation at the externship site will be the responsibility of the student but may require the confirmation and signature of a representative of the affiliating institution.

Students will be under the supervision of the professional staff of the affiliating institution. The clinical instructor employed by the school will not be

onsite of the affiliating institution. The clinical instructor(s) will make assignments such as written assignments and journaling and will evaluate each student's performance using the evaluation instruments provided by the school.

The school recognizes that the affiliating institution has a service responsibility to its clients. If a student jeopardizes this responsibility in any way, the affiliating institution has the right to demand that the student be removed from the clinical experience immediately.

The agreement will begin on August 1, 2015 and will be reviewed annually by both parties before the agreement is renewed. A 90 day notice will be given by either party if the agreement will not be renewed.

The affiliating institution and the school will not discriminate in any way in regard to student learners, according to state and federal laws.
