- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states: *The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.*

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

2. Pursuant to 24 CFR § 85.43, any Agreement executed as a result of acceptance of this bid can be terminated if the contractor fails to comply with any term of the award. This Agreement may be terminated for convenience in accordance with 24 CFR § 85.44 upon written notice by LFUCG. Either party may terminate this Agreement with thirty (30) days written notice to the other party, in which case the Agreement shall terminate on the thirtieth day. In the event of termination, the contractor shall be entitled to that portion of total compensation due under this Agreement as the services rendered bears to the services required. However, if LFUCG suspects a breach of the terms of the Agreement and/or that the contractor is violating the terms of any applicable law governing the use of Federal funds, LFUCG may suspend the contractor’s ability to receive payment by giving thirty (30) days’ advance written notice. Further, either party may terminate this Agreement for cause shown with thirty (30) days written notice, which shall explain the party’s cause for the termination. Such action shall include, but not be limited to the following:
  - (1) Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

- (2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.
- (3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.
- (4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- (5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.
- (6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

- (8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance.

Provided, however, that in the event a contractor becomes involved in or is threatened with litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The installer assumes full responsibility for proper mounting of the equipment and location of the installed equipment specified by Technical Services Unit based on providing ultimate safety to all passengers of the vehicle.

If mounting the equipment requires drilling holes the installer must be sure that no vehicle components or other vital parts could be damaged by the drilling process. Check both side of the mounting surface before drilling

begins. Also de-burr the holes and remove any metal shards or remnants. Install grommets into all wire passage holes.

All supplies wire that connects to the positive terminal of the battery must be sized to supply at least 125% of the maximum operation current and be fused at the battery to carry that load.

Connect the fuse wire to the positive terminal on the battery. There must not be more than two feet of the wire between the fuse and the battery.

For the equipment to operate at optima efficiency a good electrical connection must be made. No splices unless approved by a representative with the Technical Services Unit Allconnection needs to be terminated by the installer to the manufactures recommendation.

Refer to the vehicle owner's manual for the air bag deployment area.

If the equipment uses a remote device for activation or control, make sure that the device is located in an area that allows both the vehicle and device to be operated safely in any driving condition.

All wiring shall follow factory wiring routes and not deviate from the wiring schemes and directions from the Technical Services Unit. Further wiring diagrams will be provided upon bid award.

No wiring should be pulled tight due to short wire length, wiring path followed or by cable tie in a way that restricts motion of moveable items or limits access to connectors.

Equipment type, brand or location will be installed as directed by the schematics and directions of the Technical Services Unit. Installation guides and pictures will be provided by Technical Services Unit.

No tapping or splicing into factory or equipment wires unless directed by a Technical Services Unit technician (e.g. factory horn ring loop).

Example of connectors Lexington uses Molex MX-150- 2way, 3 way, 4 way, 6 way, 2x2, 16 way and a 20 way connector.

All wire SHALL be GXL type of the color, gauge as directed by the schematics.

Wires shall be wrapped in loom were required by Lexington, examples are in the grill area of the vehicle and for wire management to the core installed on the cargo box and underneath the vehicle where the wires are exposed for the running board lights.

All vehicles will be inspected and returned for correction if any of the above directions are not followed.

Overlooked installation problems do not relieve the installers of issues not found during the inspection.
