Agency: Children's Advocacy Center of the Bluegrass

Priority Area: Community Wellness & Safety

Program Name: Victim's Services

LFUCG Extended Social Resource Grant Program FY18 & FY19 Funding: \$220,800 (\$110,400 per FY)

Program Summary: The only organization with the capacity to fully coordinate the investigation and treatment of child sex abuse cases in Fayette County. Creating awareness among law enforcement, Cabinet employees, and general citizens will help increase the effectiveness of our programs.

Our Family Advocates provide a broad array of support services designed to help families understand the dynamics of abuse and navigate the legal process. This includes crisis counseling support groups, and case management services. All abuse cases are unique and therefore each require a unique, individual treatment.

For a medical exam, the goal is to identify and treat injury, collect forensic evidence, and screen for other health conditions. Our physician performs a full well-child examination as well as a mental health screening. Medical exams also provide reassurance and peace of mind for children and their families.

Through therapy, healing emotionally distraught children is the priority. Our therapist utilizes trauma-informed counseling to promote emotional healing after abuse. Therapy serves to increase a child's coping skills, help them process and heal from traumatic thoughts, and improve their capacity for safety. In some cases non-offending parents or caregivers are also provided counseling.

Our staff also work with the Commonwealth Attorney's office to coordinate the investigation of each case. The hopeful outcome for a guilty perpetrator would be a guilty verdict in court. Many times, there is sufficient evidence that a plea bargain is taken to avoid a court appearance. According to statistics maintained by the Commonwealth Attorney's office, conviction rates have risen from lower than 5% to over 95%.

Desired Outcomes for Clients: The goal for each child that comes to the Children's Advocacy Center is to overcome the trauma of sexual abuse.

For LFUCG Agreement Addendum and Quarterly Reporting purposes, describe below how you will ensure clients' needs are met or goals are achieved Please summarize based on your previous answers to questions above referenced in each column.

# of Clients to be Served per year	Desired outcome for client (from Question 5.1a.2)	Service or activities to achieve goal (from Question 5.1a.3)	Unit of service, frequency, length (from Question 5.1a.3)	Measure of effectiveness (from Question 5.1b.1)	Sampling size and frequency (from Question 5.1b.3)
250	Provide a broad array of support services designed to help families understand the dynamics of abuse and navigate the legal process. This includes crisis counseling support groups, and case management services.	Family advocates explain the process of the forensic interview, inform caregivers about our therapy and counseling programs, and provide documentation and contact information regarding their legal case. Information about the medical exam is also provided when necessary.	This process initially takes about 30 minutes to an hour. Advocacy is offered on-going as needed throughout and after the case.	Advocacy is considered complete when parents no longer need our services Statistics will be collected from the Center's database.	In a survey of all of the parents/caregivers of our clients, 97% of them say they would recommend our center to other parents in need.
75	Identify and treat injury, collect forensic evidence and screen for other health conditions. Completion of a full well-child examination and mental health screening.	Our Medical Director is terrific with each child and makes them feel safe and comfortable. Exams allow the physician to diagnose and treat injury, test for sexually transmitted diseases, collect forensic evidence when appropriate, assess behavioral and emotional problems, and make additional referrals.	Comprehensive medical exams take about two hours to complete. Medical exams are only completed one time.	A medical exam is considered successful when the exam is complete. The CAC will track this using individual client case files.	Our Medical Director tracks the number of full well-child exams she completes. All clients undergoing a medical exam will also receive a mental health screening.
125	Our therapist utilizes trauma-informed counseling to promote emotional healing after abuse. Therapy serves to increase a child's coping skills, help them process and heal from traumatic thoughts, and improve their capacity for safety.	Therapy services can be provided on an ongoing basis based on the need of the client. Some clients need 3 sessions, some need 12. On average, children visit 12-18 times, as well as go through group therapy. Some children may not display any symptoms at first; however it is important to provide counseling for them.	Each therapy session lasts about an hour. The average therapy client visits 12-18 times.	The therapist will work to see a reduction in the trauma symptoms checklist. This checklist evaluates posttraumatic symptoms and other psychological issues. An evaluation is taken during the client intake and monitored throughout the therapy sessions.	Our goal is that at least 70% of Fayette County clients will report improvement of mental health symptoms from pre-test to post-test.
