6. CLIENT OBLIGATIONS AND PROJECT ASSUMPTIONS

- Metaformers assumes the involvement of the LFUCG leadership in supporting and directing the program, including making available resources identified in the approved WBS. This will include, but is not limited to, Executive Steering Committee meetings, Change Control Board Meetings, and Kick-Off meetings.
- The LFUCG is responsible for providing approval and signoff of project deliverables. Progress and forward momentum cannot be slowed and we therefore require an approval period as defined in the Document Management Plan. Appropriate backup approval will be established by the LFUCG in case of primary approver absences.
- MetaStream is the methodology that will be used for the project.
- The LFUCG shall make available internal resources, defined as space, supplies, and equipment, reasonably requested by the Metaformers Director, to support the project and deliverables.
- There will be a baseline project plan accepted by both the Metaformers Team and the LFUCG during the initial phase of the project.
- The LFUCG team will immediately notify the Metaformers Team of any external factors that could impact the plan and implementation.
- LFUCG will ensure current systems contain clean data for upgrade.
- LFUCG will provide systems expertise, both functional and technical, for all interfaced systems, to support the design, build, test, and deployment of interfaces between these systems and the PeopleSoft solution.
- LFUCG will maintain responsibility for all network and associated hardware and software components throughout the life of the project. Should the Metaformers Team require updates to hardware infrastructure to support the project, the LFUCG will execute the request within 16 business hours.
- Remote Access to PeopleSoft systems will be provided by LFUCG to support the offsite team members.
- The LFUCG will allow access to all required systems within 2 days of project start.
- Any delay impacting operations caused by Acts of Terrorism or Acts of Nature are considered unavoidable delays in the project execution.
- The LFUCG team will provide access to documentation within 2 business days after the initial request has been made.
- The LFUCG team will provide after business hours support when, and if, needed to support the project.
- All representations made by LFUCG employees and authorized contractors will be taken as fact. The LFUCG shall be responsible for any and all project schedule and cost impacts resulting from the provision of incorrect information to the Metaformers Team.
- All documentation provided to the Metaformers Team shall be presumed to be accurate. The LFUCG shall be responsible for any and all project schedule and cost impacts resulting from the provision of incorrect documentation to the Metaformers Team.
- The LFUCG management will commit to ensuring that staff have adequate time and are appropriately focused on the project activities, in accordance with the approved implementation project and staffing plans.

- The LFUCG will provide appropriate and accepted testing tools for Performance testing.
- Organizational readiness is a critical success factor for an implementation and Metaformers invests significant effort supporting this readiness though organizational readiness and "owning" the solution is ultimately LFUCG's responsibility.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representatives as of the Effective Date.
