SUBJECT: Baker Court Pump Station Easement Acquisition for New Pump Station

Request

The purpose of this memorandum is to request a resolution authorizing the acceptance of Deeds of Easement for the Baker Court Pump Station, at a cost not to exceed \$5,000.

Purpose of Request

The Baker Court Pump Station is one of the oldest pump stations in our system today. It utilizes a compressor type evacuation system that is no longer supported in the pump station industry. The pump station has gotten to the point where it is no longer repairable and maintenance time and materials continue to add up. This project will construct a new pump station located on a spot not far from the existing pump station and will consequently need a new easement.

While there is no cost for the easement, there will be a \$5,000.00 fee for landscaping reimbursement to the owner for removal of three trees plus numerous shrubs and bushes.

Project Cost in FY2019 - \$5,000.00

Are Funds Budgeted

Funds are budgeted in 4003-303408-3468-92811
Budget Reference: 2018
Project: NEIGHBOR_SEWER
Activity: CONSTRUCT
