Vice Mayor Dan Wu
Lexington Fayette Urban County Government
200 East Main Street
Lexington, KY 40504

Dear Vice Mayor Wu:

After extensive consultation with engineers and vendors of the pavilion pre-fabricated products, it has been determined the AVOL's property at Stonewall Terrace lacks the necessary soil quality and protection from wind that would allow the structure ongoing stability.

With that, we are proposing the following revision to our scope of work originally provided. We are also asking for an extension of time to complete the project through December 31, 2024.

\$700 for **sound absorbing** panels in AVOL's community room. Our 64-person meeting space allows for educational sessions, community meeting space, and socialization gatherings. Sound absorbing panels installed will cut down on echo that is currently interfering with clear sound and slightly distorted audio/visual functioning.

- No change

\$1500 to install a **smart board** in AVOL's community room. A smart board will allow for improved technology in the delivery of educational programs and workshops.

- Revision, we were gifted a large screen television and equipment that effectively performs the same tasks as what he had hoped for the smart board. We would like to re-program these funds to purchase a podium that will also hold the computer equipment connected to the audio/visual, and other technology.

\$2500 to begin an **outdoor meditation garden** space. A meditation space will provide a safe space for persons served by AVOL and Stonewall Terrace to enjoy the outdoors, view nature, and be revived and engaged.

- We would like to add an additional \$2,500 for plantings and other meditation garden elements for a total of \$5,000.

\$5000 to install an outdoor **picnic concrete pad**. A picnic area will allow our picnic tables to be installed on a solid surface out of the way of lawn mowers. A picnic area will allow for our clients, residents, and their families to further enjoy the beautiful outdoor space at Stonewall Terrace as well as for outdoor meetings and workshops.

- Revised, see gazebo revision; \$2,500 to meditation garden, and \$2,500 to replace gazebo plan with patio and picnic area plan.

\$15000 to install a **covered gazebo** to be installed on the above-mentioned concrete pad. A gazebo/pavilion will allow the picnic area and tables to be under cover out of the sun and weather.

- We would like to reprogram the funds (\$15,000 for covered gazebo and \$2,500 from picnic concrete pad) to construct a sizeable patio area, adjacent to the medication garden, that includes patio block installed for picnic tables and outdoor gathering space for tenants and clients of AVOL Kentucky. At a later time we will explore adding shade sails and other embellishments.

We appreciate your consideration of any of these revisions for the \$24,700 in funding. All the above projects will enhance the Stonewall Terrace experience for those in our community seeking wellness. If AVOL Kentucky cannot expend all the funds pre-paid, the remaining funds will be returned to LFUCG.

Thank you for your vital leadership in our community. We are enjoying watching you in action at City Hall! Keep up the great work.

Sincerely,

Jon Parker, Executive Director
