

Lexington-Fayette Urban County
Division of Police
MEMORANDUM
Lexington, Kentucky

DATE OF ISSUE
March 1, 2022

EFFECTIVE DATE

NUMBER
BOA:22-004

<p>TO: Lawrence Weathers Chief of Police</p>	<p>SUBJECT: Request for Legistar Submission for Sole Source Purchase of Services – Range Lead Remediation</p>
<p>FROM: Assistant Chief Eric Lowe Bureau of Administration</p>	

Chief Weathers,

I am requesting Council Approval for a one time sole source purchase of services by Metals Treatment Technologies for lead remediation of the berm at the Police Firearms Range which is required by US EPA.

MT2 (Metals Treatment Technologies) provides lead maintenance services in accordance with applicable Federal, State, and local safety and environmental regulations. Based upon our reported range usage, as maintained by the Range Officer, MT2 will recover and recycle 10-12 tons of lead from the backstop berms and apron areas. They ensure 80-90% of lead bullets and bullet fragments are removed.

MT2 has all certified crews who will restore the berms and clean the range upon completion of reclamation of lead. Documentation, including waste manifests and lead reclamation certificates are provided within 1-2 weeks of project completion. Lead reclamation proceeds offset the cost of services.

MT2 guarantees, through their ECOBOND soil treatment process, to meet US EPA Resource Conservation and Recovery Act guidelines of hazardous lead Toxicity Characteristic Leaching Procedure to reduce leachability of lead into surface soils and reduce the potential for lead infiltration to groundwater.

Sole Source form and MT2 explanation of services and proposal is attached.

Please advise if you require further. If you approve please send this through the Legistar Process.

1101-505507-5571-71205 \$50,000
1101-505507-5571-71299 \$460

Thank you,

Assistant Chief Eric Lowe
Bureau of Administration
