Addendum

Agency: Chrysalis House, Inc.

Priority Area: Community Wellness & Safety

Program Name: Chrysalis Court Pregnant & Parenting Women Program

LFUCG Extended Social Resource Grant Program FY18 & FY19 Funding: \$239,200 (\$119,600 per FY)

Program Summary: This project will target adult pregnant and parenting women with substance use disorders. Chrysalis House prioritizes the treatment of pregnant women and is the only facility in central Kentucky in which mothers can bring their babies into treatment with them. On admission, women often present with limited education, little work experience, few job skills, criminal records, interpersonal violence, mental disorders, and other barriers that preclude gainful employment necessary to increase income. There is a high degree of correlation among substance use, poverty, and many third factors such as employment opportunities, education, homelessness, and family/social environment. The reduction of substance use makes significant impact on the ability of individuals to rise from poverty. Chrysalis recognizes that each of these issues must be addressed concurrently, working with community partners, for a woman to obtain long-term recovery and self-sufficiency.

Desired Outcomes for Clients: Sobriety is the overarching goal of the program. However, many other goals are indicative of treatment success. These include reduction of mental health symptoms, employment, safe and affordable housing, and improved physical health. A person-centered plan is developed for each client with objectives related to addiction, parenting, and family relationships. Goals and skills forming the foundation for sobriety include: readiness to change and ability to set and achieve goals; acquisition of functional adult daily living skills; development of positive social and communication skills; adoption of sober and adaptive coping strategies; and engaging in positive parenting. Chrysalis House combines cognitive-behavioral therapy (including motivational therapy and Dialectical Behavior Therapy) with counseling to help clients achieve their goals.
