Non-Spill Runs- meaning there was not any fluid to clean up, there is a flat fee of \$500.00. We will not be billing per hour/per truck/personnel. Insurance companies are not waiting to pay these high bills without any fluid leaks that need to be cleaned up. As with anything, there are exceptions, so please provide all information on the IRST website and our billing specialist will bill accordingly

NOTE: This fee schedule should remain confidential without any distribution to any outside party with IRST's consent.
