Lexington-Fayette Urban County Government, United States District Court for the Eastern District of Kentucky, Case No. 5:06-CV-00386 ("Consent Decree"), wherein LFUCG is required to develop Remedial Measure Plans to address wet weather overflows and sewer capacity related issues; and

WHEREAS, the current sanitary sewer user rates do not provide adequate revenue to pay for all scheduled sanitary sewer infrastructure improvements that are necessary to comply with the Consent Decree; and

WHEREAS, the most accurate and feasible method of ascertaining and measuring the use of the facilities and services of the sanitary sewer system, and for requiring compensation for such use, is by basing sanitary sewer service rates and charges upon the quantity of water supplied to the premises of the respective users, as shown by periodic meter readings of the party supplying water service, and therefore LFUCG's rates and charges for such use and service are established on such basis; and
