

TO: Mayor Linda Gorton
Urban County Council

FROM: 
Charles H. Martin, P.E., Director
Division of Water Quality

DATE: October 18, 2022

SUBJECT: Professional Services Agreements with Vision Engineering and Prime AE
Resident Project Representation (RPR) - RFP# 47-2022

Request

The purpose of this memorandum is to request approval of professional services agreements with Vision Engineering, LLC and Prime AE to provide resident project representation (RPR) services to the Division of Water Quality for the effective completion of Consent Decree Remedial Measures Plan (RMP) projects.

Purpose of Request

Given the complexity of the RMP projects, the division elected to use contracted field inspection services (RPR) as opposed to hiring permanent, full-time staff. RFP# 47-2022 represents a continuation of this approach for the expected duration of the RMP program.

Project Cost in FY23 and Future Budget Years

Services are based on the hourly rates quoted on the proposals with the total RPR hours required varying from project by project. The cost of RPR services are factored into the total cost of each project. The hourly rates that will apply for FY23 are as follows:

Firm	Office Location	Hourly Price Bid
Vision Engineering, LLC	128 E Reynolds Rd Ste 150 Lexington, KY 40517	\$60.00
Prime AE	651 Perimeter Park Ste 300 Lexington, KY 40517	\$65.00

Annual renewals ending June 30, 2030 are at the sole discretion of LFUCG. Annual hourly rate adjustments for each fiscal year renewal are based on that calendar year's Consumer Price Index (CPI).

Are Funds Budgeted

Funds for these services are included in each of the individual project budgets.
