

Wilson Downing Sidewalk Connections

Wilson Downing is a heavily used connector between two state routes, Nicholasville Rd (US 27) and Tates Creek Rd (KY 1974) in south Lexington. Both Wilson Downing, as well as the connecting state routes, serve as major transit lines and are home to several schools, shopping and personal services destinations. Currently, Wilson Downing includes a patchwork of sidewalks that lead to an inconsistent and unsafe pedestrian experience. Additionally, the LFUCG Division of Water Quality is completing work in this area and efficiency can be gained by completing these projects simultaneously.

Proposed Connections:

Various Sections (6080 Linear Feet)

Project Addresses: 127 Wilson Downing Rd, Lexington, KY 40517; 600 Wilson Downing Dr, Lexington, KY 40517

Project Locations: 37.984959, -84.522468; 37.975957, -84.502838

Project Cost Estimate: \$829,600

Estimated Construction Start: Summer 2017

Proposed Match Source: \$165,920 - LFUCG General Fund
