

TO: Mayor Jim Gray

FROM: 
Urban County Council
Jamshid Baradaran, Director
Division of Facilities and Fleet Management

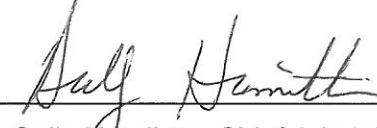

DATE: October 8, 2018

SUBJECT: Autocar Service Agreement

Warranty work performed by commercial vendors is often a timely process as the Urban County Government has to stand in line behind the other customers of the third party vendor. The ability to perform this work in-house would allow Fleet Services to return the needed vehicles back to service in a more timely and efficient manner. Autocar, the manufacturer of several CNG compactors within the government's fleet has recognized Fleet Services' ability to perform these repairs within their own maintenance standard therefore, Fleet Services is requesting approval to enter into an agreement with Autocar to perform warranty repairs.

The cost for this FY is: The Urban County Government will be reimbursed for the warranty repairs performed by its own technicians on the CNG compactors manufactured by Autocar.
