Laws and Regulations

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the

contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available workforce in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

Contractor acknowledges that the LFUCG is a governmental entity, and the contract validity is based upon the availability of public funding under the authority of its statutory mandate.

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

EQUAL OPPORTUNITY AGREEMENT

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

I/We agree to comply with the Civil Rights Laws listed above that govern employment rights of minorities, women, Vietnam veterans, handicapped and aged persons.

Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

The first five years of a child's life are the most important years of development and learning. It's a time of substantial growth in the developmental areas of cognition, language/communication, fine/gross motor, and social-emotional. Vision far surpasses input from the other senses to the brain, and plays a major role in learning. Vision affects every area of development; how a child thinks, learns, explores, communicates verbally and in written form, moves around familiar and unfamiliar surroundings, expresses and perceives emotions, and socializes with others. Young children with visual impairments need early intervention consisting of specialized instruction, modeling, and hands-on opportunities to facilitate development and maximize learning.

"Early developmental opportunities can provide a foundation for children's academic success, health, and general well-being.[10] Preschool-aged children experience profound biological brain development and achieve 90 percent of their adult brain volume by age 6.[11] This physiological growth allows children to develop functional skills related to information processing, comprehension, language, emotional regulation, and motor skills. [11, 12] Experiences during early childhood affect the structural development of the brain and the neurobiological pathways that determine a child's functional development [13]" (CDC Grand Rounds: Addressing Health Disparities in Early Childhood. 2017, July 25).

Children with visual impairments are at risk in falling behind developmentally and academically without early intervention. VIPS is the only agency in Fayette County that provides these services to children under 5-years-old. Through early intervention and educational programming, VIPS lays the foundation for academic achievement leading to future economic self-sufficiency and independence in adulthood.

5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each "unit of service" you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

To ensure children reach their developmental and educational goals, a written Individualized Family Service Plan (IFSP) is created by the parents and VIPS' Teachers of the Visually Impaired (TVI), Developmental Interventionists (DI), and Certified Orientation and Mobility Specialists (COMS). Within the IFSP are specific and individualized strategies to teach and assist children in attaining outlined outcomes. To aid each child in reaching his/her specific developmental outcomes, VIPS' teachers use their expertise in vision loss and early childhood development to: work 1:1 with the child in his/her home and community; educate caregivers of their child's vision loss and its impact on development, education and literacy skills; coach and model techniques to the caregivers for their use in everyday activities (i.e. bath time, meal time, play time, etc) to help their child cultivate and master developmental skills in between visits; demonstrate adaptations that may be made in the natural environment to increase success; provide caregivers with information, resources, and guidance to help them make informed decisions about their child's next educational setting, such as preschool or kindergarten; and, empower caregivers by supporting them if they need to advocate on behalf of their child. Teachers typically provide one (1) hour visits on a weekly basis until the child's third birthday. Throughout the COVID-19 pandemic, all visits were conducted virtually through Zoom. As more restrictions are lifted, and teachers return to the homes, a hybrid of virtual and/or in-person visits will be offered to all families.

5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

All children under the age of 3-years-old are eligible in the Early Childhood Intervention program if they meet one of the following criteria: have an established risk condition (i.e. Retinopathy of Prematurity, Optic Nerve Hypoplasia, Cortical Blindness, etc.); are legally blind (i.e. 20/200 with correction); are one standard deviation below normal in 2 developmental domains; are 2 standard deviations below normal in 1 developmental domain; or, if vision loss is suspected and not ruled out by a pediatric ophthalmologist or other professional.

It is hoped parents/caregivers will fully participate in the program by implementing the techniques and strategies and utilizing the teachers' information and resources. Though hoped, they are not a requirement to receive services.

5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are doing is best-practice.

Early intervention is an evidence-based practice that enhances learning and development for young children. The Consultative Model is used within the framework of early intervention services for children who are blind and visually impaired. With this best practice model the caregiver works collaboratively with the VIPS teacher to identify the child's developmental goals, and the implementation of strategies to use to meet those goals. This model empowers caregivers by giving them the tools they need to incorporate strategies into their daily routines to improve their child's development in between visits from the teacher. Caregivers' consistent, regular application of the strategies throughout their day increases their child's ability to reach his/her goals. It is the model currently being used by the Kentucky Early Intervention System's state-wide program, First Steps.

Another best practice that VIPS utilizes when providing early intervention services, is the Expanded Core Curriculum (ECC). The ECC includes skills that students with blindness/visual impairments must also learn in addition to their general education. The ECC is inclusive of assistive technology, career education, compensatory skills, independent living skills, orientation & mobility, recreation & leisure, self-determination, sensory efficiency, and social interaction skills.

VIPS recently received the coveted Association for Education and Rehabilitation of the Blind and Visually Impaired (AER) accreditation for its Early Childhood Intervention program, Kids Town Preschool, Itinerant services, Orientation & Mobility, and Identification & Referral services. This accreditation distinction is outcomes-based.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define "successful" completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

It is VIPS' hope for every child to be prepared to thrive in preschool/kindergarten by achieving his/her developmental goals. The goals will vary depending on the age and the needs of the child. For example, an infant may have a goal to reach for an object. Through this action, she can take in and integrate the information from her senses and learn the skills needed to sit up, crawl, balance, and walk independently. A child who is around 18-months-old may have a cognitive goal of being able to demonstrate the concept of up/down by moving him/herself or an object (i.e., "hold your hand up high" or "put the spoon down"). VIPS' TVIs and DIs teach simple, age-appropriate academics, pre-literacy skills, and independence. A child who is blind is capable of doing the same things as a child with sight, but may have to learn how to do them in a different way.

VIPS' philosophy is that parents are their child's first and best teachers. Its parents that ultimately help their child reach his/her goals. The program is designed to teach parents about their child's specific visual impairment, and how it impacts learning. Parents are also taught techniques to integrate into their daily routines. By doing this, parents are able to consistently teach their child which leads to the cultivation and mastering of developmental milestones, self-help skills, and age appropriate academics.

Successful completion of services is when a child either reaches all of his/her goals, or ages out of the program.

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

In the short term, this program improves educational access for children with visual impairments by providing them with the foundation for learning for which to build upon throughout their lifetime. Without early intervention, a child with blindness is vulnerable to falling behind developmentally, socially, and academically. Through the accomplishments of reaching developmental and academic goals, understanding how to interact with others, and exploring their environment children who are blind/visually impaired will gain knowledge, communication and interaction skills, independence and increased self-esteem. "The emotional and physical health, social skills, and cognitive-linguistic capacities that emerge in the early years are all important prerequisites for success in school and later in the workplace and community" (Center on the Developing Child, 2007). In the long-term, this foundation for learning builds into a lifetime of independence, learning, and self-sufficiency within the community. It allows the child to participate more fully in his/her academic career plan, and later, in the career of choice. For a child who is visually impaired or blind, these early years are especially crucial in determining the trajectory of their lives as an adult.

This program makes a meaningful difference in the lives of the caregivers, too. They receive guidance, knowledge, and resources to aid them in teaching their child with blindness. They understand their child is more than capable of learning despite a loss of vision. They see their child's true potential and bright future.

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying "we provided this many 'units of service.'" How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

VIPS evaluates the effectiveness of the Early Childhood Intervention program by measuring the progress each child has made toward his/her goals every six months of service. This is done using assessment tools, observation and professional judgement, and progress reports. One assessment tool is the Oregon Project. The Oregon Project is designed specifically for children, birth to 6, who are blind and visually impaired to assess areas of development such as: cognitive, language, compensatory, vision, self-help, social fine motor, and gross motor skills. VIPS teachers use the Oregon Project in their initial, ongoing, and exit assessment of children throughout their time in the program. 75-80% of children with visual impairments also experience other challenges (i.e. Prematurity, Cerebral Palsy, severe head trauma, Down Syndrome, etc.) that hinder their ability to meet their goals. VIPS teachers take into consideration these other challenges when determining if a child has made "Significant", "Good to Average", or "Little to No" progress toward his/her goals. To be deemed effective, VIPS expects 80% of all the children in the program to have made "Good" to "Significant" progress toward their goals. Changes are made to a child's IFSP if little progress has been made in six months.

VIPS also measures parental/caregiver knowledge of their child's vision and its impact on their child's development, and their utilization of techniques to help their child learn as demonstrated by VIPS' TVIs, DIs, and COMS. To evaluate caregiver knowledge and implementation of learned strategies VIPS collects data from an annual parent survey.

5.3 Capacity & Sustainability

5.3.1 Staff Qualifications & Experience

5 Points

Provide information on the key/primary individuals that will be involved in the provision of services and demonstrate that they have the capacity to address the stated need. List each position by title and name of employee, if available. Describe the anticipated roles and responsibilities for each person as it relates to this project. Describe the experience, expertise, and capacity of each individual to address the proposed activities.

Senior TVI - Dixie Marz, Teacher of the Visually Impaired (TVI), provides direct early intervention services and primary evaluations in the Early Childhood Intervention program. She has earned a Master of Science in Early Childhood Special Education from the University of Kentucky, and her certification in Interdisciplinary Early Childhood Education (IECE) at the graduate level from the University of Louisville. She assists in the supervision of the contract Developmental Interventionists/Teachers of the Visually Impaired in the Early Childhood Intervention program.

Senior DI - Lesley Lusher, Developmental Interventionist (DI), provides direct early intervention services to children and families in the Early Childhood Intervention program. She has earned her certification in Interdisciplinary Early Childhood Education (IECE) at the graduate level from Eastern Kentucky University. She has been trained in the Vision Impaired Inservice in America (VIISA). She has over 15 years of experience as a classroom teacher in the public and private school systems. Additionally, she has been a DI for almost 10 years.

Tammy Maynard (DI), Ashley Emmons (COMS), and other TVI, DI, and COMS also provide early intervention services in Fayette County. All TVI, DI, and COMS have an undergraduate degree in Education or related field, are certified at the graduate level in Interdisciplinary Early Childhood Education (IECE), and have been trained in early intervention and early childhood for children with visual impairments through the Vision Impaired Inservice in America (VIISA). Each COMS has been certified by their professional board, the Academy for Certification of Vision Rehabilitation and Education Professionals.

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Childhood and Youth Development? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

VIPS' programs and services support our community's comprehensive response to the Childhood & Youth Development priority in the areas of Kindergarten readiness, parental/caregiver/kinship resources and supports, and affordable access to early care & education for children under 5 years of age. VIPS is the only agency providing regular and ongoing early intervention and educational programming to children, birth to 5, who are blind/visually impaired in Kentucky. That being said, VIPS' Early Childhood Intervention program does collaborate with other service providers in the state-wide program, First Steps. These service providers include physical therapists, speech-language pathologists, dietitians/nutritionists, occupational therapists, psychologists, and assistive technology experts. Working with the caregivers as a team, VIPS and these other service providers are better able to help children develop, grow, and learn while empowering caregivers with knowledge, resources, and supports. Through the efforts of the team, children are better prepared to enter kindergarten. VIPS does not charge a fee for the Early Childhood Intervention program making it affordable and accessible to all children under 5.

VIPS' Governing Board Members oversee the service delivery and program administration of all VIPS programs and services. The Early Childhood Intervention program does not have major civic benefactors or corporate sponsors. VIPS has already secured supplemental funding for this program for the next fiscal year through fundraising events, donors, grants, and the Commonwealth of Kentucky. VIPS is compensated for services rendered at a rate of \$89/hour by the First Steps program. Unfortunately, the cost for one hour of VIPS' services is \$250.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?

Loss of vision is no respecter of persons, and affects children of all racial, ethnic, and socio-economic backgrounds. Up to 75% of children with vision loss have a dual diagnosis, or disability. VIPS is determined that services are available and accessible by all children with visual impairments. Only two general criteria need to be met before services may begin – the child is under the age of 5-years-old, and the child has either a visual diagnosis, or a visual diagnosis has not been ruled out. VIPS' teachers meet the child and family in their home or their place of choice within their own community. Teachers schedule visits with the family based on equal availability. During the scheduling process teachers try to accommodate the families' needs and may meet with them at any time of the day, evening, and occasionally, on a weekend. The program is at no cost to the families. As language barriers are encountered, the teachers use the interpretation services offered through the First Steps program to communicate with the family.

It is the standard operating procedure of VIPS to provide equal opportunities to all children who are blind/visually impaired in order for them to reach their highest potential. No child will ever be denied services due to race, ethnicity, disability, language, or socioeconomic status.

This proposal supports the recommendations made by the Mayor's Commission on Racial Justice & Equality on Education & Economic Opportunity. VIPS provides high-quality education and early intervention at no cost to the family.
