The **CONSULTANT** shall obtain written approval prior to subletting or assigning any services contained in this Agreement, and consent to sublet or assign any part of this Agreement shall not be construed to relieve the **CONSULTANT** of any responsibility for compliance with the provisions of this Agreement.
- 6.4.3. Nothing herein shall be construed to give any rights or benefits hereunder to anyone other than **OWNER** and **CONSULTANT**.

6.5. Disputes.

Except as otherwise provided in this Agreement, any dispute concerning the amount of payment due the **CONSULTANT** or any dispute concerning any question of fact of any act to be performed under this Agreement, which is not disposed of by agreement between the Urban County Engineer's Office and the **CONSULTANT**, shall be submitted to the Commissioner, Department of Planning, Preservation and Development, Lexington-Fayette Urban County Government for review. The decision of the Commissioner as to the determination of such dispute shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, capricious, arbitrary or so grossly erroneous as necessarily to imply bad faith. By submission of reports, soils and subsurface information, quantities estimates, calculations and Drawings and Specifications to the **OWNER**, the **CONSULTANT** has made an incontrovertible representation that the information is accurate. Failure on the part of **CONSULTANT** to provide the expected level of accuracy may be grounds for the **OWNER** to disqualify **CONSULTANT** from consideration for future **CONSULTANT** engineering contracts.

6.7. Security Clause.

The **CONSULTANT** certifies that he shall not at any time release or divulge any information concerning the services covered by this Agreement to any person or any public or private organization except the **OWNER** without prior approval of the **OWNER**.

- 3.2. Prepare a Conditional Letter of Map Revision (CLOMR) for the culvert replacement near Southbend Drive. This will include hydraulic/hydrologic modeling of Wolf Run Creek between Harrodsburg Road and Lafayette Parkway. Where results of the modeling indicate property owner notifications are in order, the Consultant shall provide the notifications. Upon completion of the road reconstruction project, the Consultant shall also file all documents required to secure a Letter of Map Revision (LOMR). Under this section, it is LFUCG's intent that the Consultant provide every item of work required to obtain the Revision.

Notwithstanding the CLOMR/LOMR described above, consideration of avoidance and minimization of effects on blue-line streams shall be in accordance with Section 401 and 404 of the Clean Water Act. The Consultant shall be responsible for obtaining all flood studies and other pertinent drainage information to be utilized in the design, as well as any permits required from various federal, state or local agencies.

- 3.3. Prepare a Preliminary Design Technical Memorandum documenting the following:

- a) Preliminary Plans;
- b) Identification of all known utility conflicts and proposed solutions;
- c) List of impacted properties and property owners;
- d) List of required easements and road right-of-way taking and apparent encroachments (Determination of land rights shall be limited to recorded easements and right-of-way; prescriptive easements will not be considered.);
- e) List of required permits and respective agencies from which the permit(s) will be secured;
- f) List of agencies that will require notifications and/or approvals;
- g) hydraulic/hydrologic modeling of Wolf Run Creek; and
- h) Preliminary Opinion of Construction Costs.

- 3.3. Meet with the DOE to review the Preliminary Design Technical Memorandum. Consultant shall be responsible for meeting agendas, handouts, and meeting summaries.

4. Final Plans, Specifications, and Bid Documents

- 4.1 Upon completion of the Preliminary Plans, the Consultant shall incorporate all significant comments into a revised (Final) plan set and submit three paper copies to the LFUCG DOE.

Final Plans shall build upon the completed and approved information in the Preliminary Plans. In addition to the components of the Preliminary Plans, Final Plans shall also include but not be limited to:

- a) Cross sections at 50-foot stationing, all driveways, all step locations, and all retaining walls. Cross sections shall generally extend 30 feet from proposed curb face or to the front of the house, whichever is closer; however, longer coverage may be needed in some locations;
- b) Culvert Situation plans and profiles as needed;
- c) Right-of-Way strip maps and summary sheets;
- d) Coordinate Control Plan;
- e) Site-specific Detail Sheets as needed; and
- f) Landscaping Plan

5. Design Criteria

Drawing Scales, Units, and Unit Conversion

All quantities measured, calculated, and specified shall be in English units (e.g., feet, pounds).

All drawings and sheets shall conform to the follow scales:

- a. Plan Sheets 1" = 20'

- b. Profile sheets 1" = 20' horizontal
1" = 2' vertical

- c. Cross sections sheets 1" = 5' horizontal
1" = 5' vertical

Note: Combined Plan/Profile sheets are preferred.

All designs and plans must be approved by the LFUCG DOE. The following shall apply:

- a. Drawing files shall be prepared using or shall be converted to AutoCAD and will be transmitted to the Urban County Government upon request. The formatting specifics shall be determined during the contract negotiation process.
- b. The November, 2002 *Clays Mill Scoping Study* and the *Clays Mill Road Improvements Section 1* plan set establish the basis of design for this project.
- c. Consultant will provide the pavement sections to be used on each street.
- d. Unless otherwise stated, design shall incorporate LFUCG 2008 Standard Drawings, and KYTC 2012 Standard Drawings in that order of preference.
- e. Intersection improvements are to be ADA compliant. Design shall comply with the AASHTO green book, the Manual of Uniform Traffic Control Devices and, to the extent practicable, the AASHTO Roadside Design Guide.

- f. Where storm and/or sanitary sewers are located within the right of way, profiles of these systems should be shown on the street profile sheets.
- g. The preparation of an Erosion and Sediment Control (ESC) Plan including a Storm Water Pollution Prevention Plan (SWPPP) integrating the non-structural and structural practices and procedures of the Stormwater Manual is a requirement for all construction projects and is the responsibility of the Contractor. However, Consultant shall prepare a generalized plan. The ESC Plan as developed through preliminary and final plans, as well as the SWPPP will be reviewed and approved by LFUCG DOE.
- h. Consultant shall prepare a Traffic Management Plan consistent with KYTC guidelines.

6. Detailed Cost Opinions

The Consultant shall prepare a detailed opinion of probable construction cost at completion of the preliminary and final design stages of the project. Line items for construction costs shall be consistent with the Quantities Table in the drawing set and the Bid Schedule in the Form of Proposal. The construction cost opinion shall also be accompanied by separate cost opinions for utility relocation, and total right-of-way/easement acquisition.

7. Easement and Right-of-Way Acquisition

Plats shall be prepared as required for acquisition of right-of-way, and they shall meet all requirements of the Lexington-Fayette Urban County Government Subdivision Regulations, Department of Law; the LFUCG DOE Digital Submission Policy; and the *KYTC Highway Design Manual*.

Permanent and temporary easements shall be drawn to sufficient scale to be clear and distinguishable, and such drawings shall be prepared to meet the requirements of the Lexington-Fayette Urban County Government Division of Engineering. A legal description will be required for each easement taking.

The Consultant shall set corner pins (or offsets) as necessary to define the physical limits of all properties which must be acquired in fee simple. Consultant shall provide a legal description for each right-of-way and easement taking.

The Consultant or an agent thereof, will conduct negotiations with property owners for acquisitions of easements and right-of-way. Rate of compensation per parcel for easements and fee simple acquisition negotiations will be negotiated between the consultant and the LFUCG, as will appraisal costs. Acquisition will involve approximately 180 parcels, 40 of which will require plats.

8. Environmental Assessment

The original Level 2 CE for this project was reevaluated and approved on 11/17/14. Therefore, as directed by the KYTC, there shall be no time dedicated for environmental work in this Scope.

9. Public Interface

The Consultant shall attend public meetings, and other meetings with elected officials, affected residents, owners and businesses. If requested to do so, the Consultant will lead the meetings. The Consultant shall provide all necessary exhibits and prepare minutes of all meetings they attend.

10. Utility Company Coordination

There are numerous utilities in the project corridor. The Consultant will meet and coordinate with all affected utility companies as necessary, with the goal of minimizing disturbance to utilities and underground lines. Consultant shall obtain utility location data for purposes of mapping, and shall determine which parcel easements/acquisitions if any should be expedited to facilitate timely relocation of utilities.

On previous Clays Mill Road phases, the utility companies relocated and/or upgraded their facilities within the project area, *before* the LFUCG's contractor started. Thus, a timely start by the LFUCG contractor depends on a timely start by the affected utility companies, which in turn requires that plans with dependable design elements be furnished to them well in advance of construction contract bidding. *The Consultant should pay close attention to the dates shown for delivery of Preliminary Plans, as listed in the "Schedule and Completion" section.*

11. Bid Phase

The Consultant shall provide all bid documents to a private planroom/printing service (to be identified) for distribution to potential bidders. The Consultant shall be responsible for keeping a permanent record of all individuals or companies that purchase bid documents through the private printer.

The Consultant's scope shall include assisting with Bid Administration. At minimum, this includes responding to technical questions during the bid period, preparing addenda, reviewing and approving alternates, attending pre-bid meeting, attending bid opening, preparing and certifying a tabulation of bid prices, evaluating bids received, checking bidder references and submitting a recommendation of award.

12. Construction Phase

The Lexington-Fayette Urban County Government will provide construction inspection. However, the Consultant shall be available to advise in matters of intent during construction. The Consultant shall also conduct site visits as requested, and shall conduct

a final punchlist walkthrough and prepare related correspondence. The Consultant shall also review and approve shop drawings.

13. Schedule and Completion

The Consultant shall meet deadlines as provided in the following schedule. Calendar days are counted from the date that a written Notice to Proceed is received by the Consultant. Exact times of meetings shall be arranged by the Consultant; locations of meetings shall be at either the site of proposed improvements or at the DOE office, as deemed appropriate.

Meeting to review design intent	20 days
Submit preliminary plans; provide to utilities	180 days
Meeting to review preliminary plans/contact utilities	210 days
Submit revised preliminary plans	240 days
Hold public meeting	300 days
Submission of final plans	330 days
Meeting to review final plans	360 days
Submission of completed final plans	390 days

14. Miscellaneous

All preliminary plans and accompanying documents are subject to review by the Lexington-Fayette Urban County Government Division of Engineering, Division of Water Quality and Division of Traffic Engineering. Documents shall also be subject to review by the Kentucky Department of Highways and the Federal Highway Administration. The Consultant shall be responsible for addressing comments from and requirements of these agencies into all documents.

The Consultant shall also be responsible for preparing paperwork and documents as required for Local Public Agency (LPA) Project funding.

Consultant shall attend periodic progress meetings with the Division of Engineering and/or Kentucky Department of Highways and must submit a written monthly status report detailing work in the past month, and anticipated work in the upcoming month. This report must be submitted in written format as well as in an electronic format acceptable by the DOE.
