Laws and Regulations

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;
- (3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and
- (4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

- (1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.
- (2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available work-force in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

Contractor acknowledges that the LFUCG is a governmental entity, and the contract validity is based upon the availability of public funding under the authority of its statutory mandate.

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

Request for Proposals / Scope of Engineering Services

Salt Barn Site - 401 Blue Sky Parkway, Lexington Kentucky

General Project Description

The Lexington-Fayette Urban County Government (LFUCG) is accepting proposals from interested professional engineering firms for the development of a Technical Memorandum (TM) that fully evaluates the feasibility and capital costs associated with the construction of a minimum 12,000 square foot prefabricated salt barn structure and associated facilities at 401 Blue Sky Parkway. Upon LFUCG's approval of selected TM recommendations, the selected firm will be responsible for the development of construction plans, specifications and bid documents necessary for contract award to a general contractor qualified to construct the improvements as designed.

The 401 Blue Sky Parkway parcel was previously developed as a package wastewater treatment facility. The WWTP was demolished (two structures remain) with wastewater flows diverted to a newly constructed sanitary pumping station located in the southwest corner of the parcel. A lagoon compromised a large portion of the 2.6 acre parcel. As part of the demolition, the lagoon was been partially filled with non-structural fill delivered from offsite.

Scope of Services

Technical Memorandum Tasks

1. Facilitate a project kickoff meeting with LFUCG staff to gain a full understanding of project goals and objectives. LFUCG staff from the divisions of Streets and Roads, Water Quality, Environmental Services and Engineering will be active participants in the kickoff meeting.
2. Prepare a written Technical Memorandum document for LFUCG's review. The TM should contain the following essential elements:
 - i. Site plans containing:
 - a. All property lines, recorded easements, utilities, adjacent right of way and above grade features associated with the parcel.
 - b. Clear identification of the proposed salt barn project disturbance area within the parcel. LFUCG anticipates needing a minimum 210' by 140' pad area that would include the prefabricated salt barn structure footprint.
 - c. Existing and proposed topography for the parcel ingress/egress and salt barn project area on two foot contour intervals.
 - d. A recommended site layout demonstrating the best utilization of the site for the salt barn and any recommended Salt Barn Operational Support Infrastructure.
 - e. The approximate size and location of stormwater drainage infrastructure necessary to meet LFUCG requirements.
 - f. The location of fencing and gates intended to secure the parcel.
 - ii. Geotechnical Information. LFUCG has some historical geotechnical information for the lagoon portion of the site but has concerns regarding the bearing

capacity of on-site soils due to the previous placement on non-engineered fill in the lagoon area. The TM should evaluate all existing geotechnical data and, based on input from the three (3) Prefabricated Salt Barn Vendors discussed below, provide LFUCG with a recommended action plan for further required geotechnical investigation.

- iii. Evaluation of Salt Barn Support Infrastructure.
 - a. Documentation and relevant discussion regarding the availability of essential utilities. Essential utilities are defined as 500 amp electric service, sanitary sewer service and potable water service.
 - b. Stormwater drainage and detention calculations in accordance with the most recent version of the LFUCG Stormwater Manual.
 - c. Documentation and relevant discussion regarding the construction or installation of Salt Barn Operational Support Infrastructure including:
 - i. Salt brine equipment including a brine maker with a minimum capacity of 500 gallons per batch, three (3) 7,500 gallon brine tanks along with spill containment as required by local, state and federal codes.
 - ii. A prefabricated office trailer structure with a break room area (20' x 20') and a single unisex bathroom.
 - iii. Equipment parking and cold weather engine block plug-ins for ten (10) dump trucks.
 - iv. Stormwater management devices intended to manage salt contaminated site runoff in an environmental responsible manner.
- iv. Discussion of a minimum of three (3) recommended Prefabricated Salt Barn Vendors. LFUCG anticipates a minimum 12,000 square foot facility with a footprint in the 150' by 80' range. Minimum structural characteristics should include continuous wall footers and a floor system designed for an anticipated loading from heavy equipment engaged in snow removal operations (front-end loaders and tandem dump trucks). During final design, the selected firm will be responsible for a site design that must accommodate the prefabricated structure of a "to be determined" vendor. In order to accomplish the final design phase of the scope, the Technical Memorandum should:
 - a. Identify a minimum of three (3) prefabricated salt barn vendors who have successfully constructed facilities for identified clients with 500 mile radius of Lexington. Provide reference contract information for identified clients.
 - b. Provide a discussion of design considerations relevant to each vendor in regards to the LFUCG site. Specifically, the TM should identify all vendor specific design standards that could negatively impact site design considerations (foundation design, horizontal layout, etc.).
 - c. Provide a list of recommended "minimum design standards" that can be used to prepare final design specifications for the project.
- v. Required Permit Identification. LFUCG anticipates that a compliant salt barn project will require the acquisition of a wide variety of permits. The Technical Memorandum should include a checklist of all expected/anticipated permit requirements, including building, electrical, plumbing, erosion-sediment control, post-construction stormwater management and bulk chemical storage permits.

This checklist will be used to:

- a. Determine which permits will be the responsibility of the Consultant and which will be the responsibility of the general contractor.
 - b. Verify all permit issuances prior issuing a Notice to Proceed to a selected general contractor.
- vi. Preliminary Cost Estimates. The Technical Memorandum should contain preliminary design and construction cost estimates for the project, presented as follows:
- a. Base Design Components: site ingress/egress elements, prefabricated salt barn and pad (asphalt and concrete to be evaluated), drainage and stormwater management, site lighting, security fencing/gates, essential utilities and contingencies.
 - b. Salt Brine Facility Components: additional site improvements, salt brine making equipment, brine storage vessels/containment, utility upgrades for facility and contingencies.
 - c. Prefabricated Building Components: additional site and utility improvements for a heated structure with breakroom and single, unisex bathroom.
 - d. Outdoor Equipment Parking Components: additional site and utility improvements with contingencies.
 - e. Brine Contaminated Stormwater Management Components: any and all design and capital costs associated with devices recommended by the Consultant.
3. Three (3) hardcopy and one (1) pdf copy of the Technical Memorandum must be provided for review by the LFUCG project management team.
 4. After receiving comments from the LFUCG project management team, a follow up meeting must be facilitated to confirm final direction prior to seeking LFUCG authorization to proceed to final design. The Consultant must prepare a detailed written summary of LFUCG directions for proceeding to final design along with a project schedule and submit the summary/schedule for the LFUCG Project Manager's authorizing signature. Receipt of this authorizing signature allows the selected firm to begin final design.

Final Design Tasks

1. In accordance with direction received in the Technical Memorandum phase of this project, develop detailed plans and specifications for the prefabricated salt barn structure and the any/all approved facility support infrastructure. Detailed plans should include all relevant field survey information and site improvement recommendations obtained in the Technical Memorandum phase.
2. Unless stated otherwise in this scope of work, the detailed plan format should conform to all applicable requirements found in the LFUCG Division of Engineering's published Manuals and Standard Drawings available at www.lexingtonky.gov.
3. Coordinate any and all necessary geotechnical work identified in the Technical Memorandum and include all results as appropriate on the final plans and in the specifications.
4. Construction plan drawing scales, units, and unit conversion:

- i. All quantities measured, calculated, and specified shall be in English units (e.g., feet, pounds).
- ii. All drawings shall be prepared on Architectural D size sheets (24" x 36") and conform to the follow scales:

Site Plan 1" = 50' horizontal

Plan/Profile Sheets 1" = 20' horizontal, 1" = 2' vertical

5. Submit five (5) hardcopy sets and one (1) electronic copy set (pdf) of 50% construction plans, specifications and capital project cost estimates for LFUCG review. Facilitate a 50% review meeting within 14 days of 50% plan submission.
6. Review the required permits checklist included in the Technical Memorandum and submit any and all permit applications identified as the Consultant's responsibility.
7. After making requested revisions, submit five (5) sets and one (1) electronic copy set (pdf) of 90% construction plans, specifications and capital project cost estimates for LFUCG review and facilitate a 90% review meeting within 14 days of 90% plan submission.
8. After making requested revisions, prepare reproducible final plans and specifications suitable for competitive bidding.

Bidding Services Tasks

LFUCG anticipates the award of a single construction contract to a qualified general contractor who teams with a qualified prefabricated salt barn vendor. The bidding services tasks expected of the Consultant include:

1. Submission of reproducible plans, specifications, and contract documents to the official bid document distributor, LYNN IMAGING, 328 Old Vine Street, Lexington, KY 40507, (859) 255-1021 (www.lynnbp.com).
2. Coordination of the Pre-bid conference.
3. Preparation and distribution of necessary addenda.
4. Response to bidder, vendor and subcontractor questions via the LFUCG designated contact.
5. Completion of bid evaluation(s) and submission of an award recommendation to LFUCG.
6. Interaction with the LFUCG maintenance and project management staff.

Construction Administration Tasks

1. Review shop drawings.
2. Evaluate Change Orders and make change order recommendations as necessary.
3. Conduct site progress visits at approximately 25%, 60% and 90% completion.
4. Participate in final inspection and assist in compiling a final punch list.

Resident Inspection - Add / Alternate

Resident inspection is considered a separate and unique service in the context of the Construction Administration tasks. LFUCG is currently undecided regarding the utilization of the Consultant for resident inspection services. Consultant should provide an hourly rate quote for full time resident inspection services during the project construction phase. LFUCG will determine, at a later date as to whether to utilize this service or not. The quoted resident inspection hourly rates will not a basis for determining Consultant qualifications

NOTE: The **Scope of Services** described above is not intended to be all-inclusive, but is intended to be a guide to prospective proposers as to the general expectations of the Owner. The LFUCG will not compensate proposers for the cost of proposal preparation.
