Captain Ault, congratulations. I have some good news for you. The membership voted last night to send the \$3000 grant, that was originally allocated for particle hoods, to you for the training hubs. Let me know where to send the funds and who to make the check out to so we can take care of it. We just want to check the process to see if this needs to go through the City Council. We had a couple members ask if there is somehow we could list our name in a couple of the boxes. Since this is city property, I'm not sure if that would be permitted, but if it is, let me know and we can arrange something to signify that we donated money. Again, congratulations. Any questions, comments, or concerns, please let us know.

Eugene McCord
President, CFAAA
