Re: Right-of-Entry DACA27-9-25-237, Lexington Bluegrass Army Depot, County of Fayette,
State of Kentucky.

Dear Landowner:

The United States Army Corps of Engineers (USACE) is conducting a remedial investigation for groundwater contamination at the Lexington Bluegrass Army Depot. We request your permission to gain access to your property for a period of 24 months beginning at the signing of this instrument to determine if groundwater contamination is present. This will involve collecting water samples from hydrogeologic features (springs, seeps, streams, etc.) and placing inert carbon packets for a Dye Tracer Study. A partnership between the USACE and yourself is needed for the successful outcome of the project and gaining access to your property is essential.

I have enclosed two copies of Right-of-Entry No. DACA27-9-25-237. Please sign and return one copy of the Right-of-Entry and certificate of authority via the enclosed prepaid envelope or by e-mail to Keennedy.M.Spencer@usace.army.mil.

We look forward to working with you to conduct this work on your property. Your cooperation and quick response is appreciated. If you have any questions in this matter, please contact Ms. Kennedy Spencer (502) 315-7006 or via email Kennedy.M.Spencer@usace.army.mil.

Sincerely,

Nancy L. Davis
Deputy Chief, Real Estate Division
