

Power Generation Systems

PREVENTATIVE MAINTENANCE AGREEMENT

This maintenance agreement is entered into by EVAPAR, and the generating set owner below named for the purpose of maintaining their emergency standby generating set(s) and associated equipment in the best possible operating condition. Upon acceptance of this agreement, EVAPAR, will render the service listed below on this equipment. It will be regularly inspected during regular business hours, two times each year that this agreement remains in effect. These inspections will include:

1. Adjust, clean, and/or replace all spark plugs.
2. Adjust, clean, and/or replace ignition points and condenser.
3. Change engine lubrication oil when necessary.
4. Inspect lubricating oil filter and replace when necessary.
5. Lubricate distributor, battery charging generator/alternator, starter, governor.
6. Check engine radiator and/or city water-cooled system for leakage.
7. Check and/or change anti-freeze solution (allowance, one gallon).
8. Check all water hoses for proper pliability and replace if necessary. (Does not include hoses.)
9. Clean fuel sediment bowl and/or replace fuel filter.
10. Check entire unit for fuel, oil and water leakage.
11. Adjust and/or replace fan and governor belts. (Does not include belts.)
12. Service battery(s); add water, clean and grease posts, recharge if necessary.
13. Clean and refill air cleaner (oil bath type) or remove dust (dry type). Replace if necessary.
14. Check battery, charging generator brushes and starter motor brushes.
15. Check AC generator brushes for proper setting and wear.
16. Check DC generator brushes for proper setting and wear.
17. Clean collector rings and commutator.
18. Clean static exciter.
19. Remove all carbon and dust deposits from generator.
20. Conduct safety shut-down check. Run generator (under load where practical) to:
 - a) check voltage.
 - b) check frequency.
 - c) check instruments.
 - d) adjust carburetor and governor.
21. Submit inspection report to owner advising further parts and/or work required.
22. Automatic Transfer Switch - Check:
 - a) contacts.
 - b) trickle charger.
 - c) voltage at contacts.
 - d) phase protection relays.
 - e) start relay.

EVAPAR

PREVENTATIVE MAINTENANCE AGREEMENT

This quote includes a major pm service and a minor pm service (2 visits per year) and is based on servicing all 5 units on the same schedule. Any change in service request would require a new quote.
